## **Electing Our Own Bishops:**

*Electing Our Own Bishops* Petrus Huizing, Knut Walf, Marcus Lefébure, 1980      *Electing Our Bishops* Joseph O'Callaghan, 2007-03-09 How does one become a bishop in the Catholic Church *Electing our Bishops* How the Catholic Church Should Choose Its Leaders explains how history politics and religious tradition converge to produce the episcopacy The book gives an historical overview from the earliest times when bishops were elected by the clergy and people of the diocese to the present day where they are normally appointed by the pope In light of the current clergy sexual abuse scandal many distinguished theologians canonists and church historians have called for greater popular participation in the selection of bishops and *Electing our Bishops* discusses ideas for new forms of election that involve both clergy and laity This book is an important tool for Catholics who want to understand the history and process of the election of bishops as well as how the process might change in the future      **The Rise of Bishops** David W. T. Brattston, 2021-11-30 *The Rise of Bishops* reveals how Christian congregations which were self governing in the second and third centuries became subject to the general supervision and direction of diocesan bishops and higher officeholders thus ending their independence from outside the local parish The New Testament says nothing about church government after the apostles Thus the question becomes who replaced the apostles Local church congregations in the period between AD 100 to 300 appear to have been administered by bishops and deacons and sometimes elders all as congregational officeholders with no superstructure above the congregation Yet the fourth century sees congregations governed in groups by a collective hierarchy based on diocesan bishops This book attributes most of the change to Constantine the Great and his immediate successors motivated by desire for more efficient functioning and greater control by the emperors once the majority church was co opted into the Roman state Although bishops have long been key officials in the church surprisingly little has been written in our time on how the framework for choosing and regulating them developed in early times What little is available consists of journal articles rather than standalone publications *The Rise of Bishops* helps close this gap      **Sino-Vatican Relations** Ambrose Mong, 2019-01-01 For those interested in Christianity in China the state church relationship and the present Communist regime and its attitude towards religion *Sino Vatican Relations* offers a wealth of information and insights This work traces the tortuous history of the relationship between the Chinese government and the Roman Catholic Church from denunciation of Communism by the Church to seeking dialogue by recent pontiffs such as John Paul II Benedict XVI and Francis Besides examining the religious policy of China since 1949 and how the Chinese government deals with religious revivals this work also traces the history of the church regarding the appointment of bishops in Europe from its early days to modern times Monarchies in Europe have always been involved in the appointment of bishops Thus the recent agreement between Pope Francis and the Chinese authorities regarding the appointment of bishops has historical precedents The overall aim of this work is to help readers to get the right information needed to have a well informed opinion on the complex matter of the Sino Vatican Relations

particularly on the agreement signed by Pope Francis with Beijing in 2018      *Imagining the Catholic Church* Ghislain Lafont, 2000 Father Lafont challenges the Church to offer a renewed image and to speak credibly without abandoning any essentials given by God to the Church and without sacrificing the radicalism of the Gospel message BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      Reflections on the appointment of a Catholic bishop to the London district. In a letter to the Catholic laity of the said district Henry CLIFFORD (Barrister-at-Law), 1791

**Readings in Church Authority** Richard Gaillardetz, Kenneth Wilson, 2017-03-02 The issues of Authority and Governance in the Roman Catholic Church permeate each and every aspect of the Church's identity teaching influence organisation moral values and pastoral provision They have left their mark in turn upon its diverse theological and philosophical traditions The trends of postmodernity advances in communication the advent of new ecclesial movements and theologies and a perceived policy towards increasing institutional centralisation on the part of the Curial authorities of the Church in Rome have all facilitated a continuous and lively stream of dialogue and disagreement on authority and governance in relation to the place of the Church in our age and the new Millennium This comprehensive Reader uniquely gathers together in one volume key writings and documents from the wealth of published literature that has emerged on the issues of authority and governance in the Roman Catholic Church With guided introductions to each section and to each reading and end of chapter further reading lists this Reader offers a balanced range of perspectives themes international writings ecumenical dimensions and formal church documents and Papal pronouncements on core areas of contemporary study and debate Focusing on the modern post modern period in the Roman Catholic Church but grounded in the historical contexts Readings in Church Authority presents an accessible source book and introduction for all those exploring current debates and studying central themes in church authority      The Life and Times of John England, First Bishop of Charleston (1786-1842) Peter Guilday, 1927      **A Short History of the Canon for the Election of a Bishop of Montreal and Metropolitan of Canada. By a Lay Delegate** Anglican Church of Canada (CANADA), 1869      **Episcopal Ordination and Ecclesial Consensus** Sharon L. McMillan, 2005 This study provides the historical and liturgical foundations for the election of bishops Provided by publisher      Answer to the Review of An Essay on the Invalidity of Presbyterian Ordination published in the January number of the Biblical Repertory & Theological Review of Princeton, etc John Esten COOKE (M.D.), 1830

**Apostolic Succession** David W. T. Brattston, 2020-04-15 This book is the first in generations to examine writers in the early church in order to ascertain the original Christian intent as to how early Christian clergy were chosen their powers and responsibilities and the methods of placing people in church office and displacing them This book demonstrates what the first writers meant when they advocated apostolic succession the scope of authority particular church officers would possess and how their authority would be transmitted Besides concentrating on writings in the first to third centuries AD this book draws on later material to question the assertions made today for bishops claiming apostolic succession It reveals they are contrary

to early church thought that the doctrine or theory of apostolic succession cannot be proved and does not work in practice even in our own day This publication is rare in the field of Christian scholarship in that it challenges the fundamental claims that diocesan bishops do or can trace their lines of ordinations back to the apostles This unusual book will comfort many and disquiet many and surprise all because it investigates what many assume without solid proof to be the bedrock of church authority

**"The End of Controversy," Controverted** John Henry Hopkins, 1854 *Reflections on the Appointment of a Catholic Bishop to the London District* Henry Clifford, 1791 *Church Missionary Intelligencer and Record*, 1910 The Episcopal Way Stephanie Spellers, Eric H.F. Law, 2014-08-01 The world is ever changing and so must the Episcopal Church to remain relevant to its followers A grounded necessary book on the Episcopalian faith in the 21st century In the Church's Teachings for a Changing World series two visionary Episcopal thinkers and church leaders team up to revitalize the currency integrity and scholarship of this series with fresh new voices and style concise and clear enough for newcomers yet grounded and thoughtful enough for seminarians and leaders In this foundational text for the Church's Teachings for a Changing World Law and Spellers explore seismic shifts in American life and the opportunities and challenges each presents to the church today With a winning combination of passion creativity and wisdom the authors call for a return to Episcopal basics and insist that faithfully engaging a changing world might be the most truly Anglican practice of all This is the book I've been waiting for The Episcopal way of following Jesus and being Christian may be one of the best kept secrets in the Western world Finally someone has taken the light out from under the bushel Let it shine The Rt Rev Michael B Curry Presiding Bishop and Primate of The Episcopal Church
