Party Transformations in European Democracies André Krouwel, 2012-12-01 Political parties regularly change and adapt in response to ever changing circumstances Until now these changes have frequently prompted both scholars and the media to suggest a whole new type of political party and over time the number of models and types has proliferated to the point of confusion contradiction and a loss of explanatory power In this sophisticated yet accessible study Andr Krouwel rejects this m lange of models as inadequate He utilizes a wide range of data sources to analyze the ideological organizational and electoral change undergone by more than one hundred European parties in fifteen different countries from Scandinavia to the Iberian Peninsula between 1945 and 2010 The result is one of the most comprehensive empirically grounded studies to date of the genesis development and transformation of political parties in advanced democratic states

The Marshall Plan in Austria Gunter Bischof, Anton Pelinka, Dieter Stiefel, 2018-12-20 Perhaps no country benefitted more from the Marshall Plan for assistance in reconstruction of Europe after World War II than Austria On a per capita basis each American taxpayer invested 80 per person in the Plan each Austrian received 133 from the European recovery program more than any other of the sixteen participating countries Without the Marshall Plan the Austrian economic miracle of the 1950s would have been unthinkable Despite this contemporary Austria seems to have forgotten this essential American contribution to its postwar reconstruction This volume in the Contemporary Austrian Studies series examines how the plan affected Austria and how it is perceived today The political context of the Marshall Plan in Austria is addressed in essays by Jill Lewis and Matthew Berg Dieter Stiefer describes the vast Soviet economic exploitation of their Austrian occupation zone Andrea Komlosy shows how the Marshall Plan helped complete the division of Europe Siegfried Beer suggests the secret involvement of the CIA in the Marshall Plan while Hans Jörgen Schröder analyzes the effectiveness of Marshall Plan propaganda programs in Germany and Austria The macroeconomic impact of Marshall Plan funds on Austrian economic policy is outlined by Hans Seidel Kurt Tweraser Georg Rigele and Günter Bischof suggest the microeconomic importance of funds for the steel electricity and tourist sectors of the Austrian economy Wilhelm Kohler's sweeping analysis compares the American transfer of funds to postwar Europe with current debates about the cost of European Union enlargement The legacy of the Marshall Plan is addressed by former Austrian Finance Minister Ferdinand Lacina Kurt Löffler and Hans Fubenegger summarize the activities of the Economic Recovery Program Fund Coming on the heels of the fiftieth anniversary of the Marshall Plan this compelling overview of the Plan and its impact will be important for historians those interested in international politics and Austrian scholars Günter Bischof is professor of history and associate director of Center Austria at the University of New Orleans Anton Pelinka is professor of political science at the University of Innsbruck and director of the Institute of Conflict Research in Vienna Dieter Stiefel is professor of social and economic history at the University of Vienna and executive secretary of the Schumpeter Society in Vienna This volume offers a collection of articles mostly by contemporary Austrian born historians touching on various phases of the Marshall Plan administered through the European

nations and in failed states Conversely a systematic erosion of religious practices values and beliefs has occurred among the more prosperous strata in rich nations

Authoritarian Regimes and their Islamist Rivals Miaad A. Hassan, 2024-10-31 This book explores the political trajectories of various countries in the Middle East and North Africa MENA region tracing the shifts in party systems and regime transitions along a model like trajectory that spans from revolutionism to authoritarianism and electoral Islamism Adopting a comparative perspective this book places patterns of party formation and developments in authoritarian and semi authoritarian systems within a historical and regional context It argues that during distinct periods such as the prevalence of nationalism in the 1920s pre independence era the flourishing of pan Arabism in the 1950s and the rise of Islamism in the 1970s ideologies have played a pivotal role in shaping the political landscape While secular nationalism initially wielded a significant influence on political social and cultural change in the MENA region the author argues that political Islam emerged as its primary rival Even as secular leaders in MENA guided their republics through top down reforms to establish a unified national ideology many though not all eventually incorporated Islam to address popular demands This book s key contribution lies in conceptualizing Islamism as a form of dialectical ideology This book offers an in depth analysis of politics party systems and regime transitions in the MENA region It is poised to resonate with students and researchers in political science history and Middle East studies

When Political Parties Die Charles S. Mack, 2010-08-11 This book presents a theory of political disalignment and a revised theory of party realignment using four case studies from the United States Canada Great Britain and Italy to illustrate these concepts Why do major political parties die The shelf life of minor parties in democracies tends to be short but major parties tend to be highly durable The Democratic Party of the United States and the Conservative Party of the United Kingdom have been going strong for two centuries Major parties perpetuate themselves by maintaining a consistent ideology on major national issues even at the cost of periodic defeats at the polls In American politics ideological polarization maintains the vitality of the two major parties and renders them almost immune to threats from new parties even as it impedes consensus and compromise on public issues Spectacular instances of sudden death in major parties have nevertheless occurred in the United States the United Kingdom Canada and Italy and they all exhibit similar characteristics The fatal event which author Charles S Mack calls disalignment occurs when a schism opens between party leaders and traditional core base voters on an issue of overriding national importance Major parties survive periodic defeats but they cannot survive disalignment

Democracy, Intermediation, and Voting on Four Continents Richard Gunther, Jose Ramon Montero, Hans-Jürgen Puhle, 2007-02-08 This book presents the results of systematic comparative analyses of electoral behavior and support for democracy in 13 countries on four continents It is based on national election surveys held in old and new democracies in Europe Germany Britain Spain Greece Italy Portugal Bulgaria North and South America the United States Chile and Uruguay and Asia Hong Kong between 1990 and 2004 It is methodologically innovative notwithstanding the fact that its core concern with political intermediation i e the flow of political information from parties and candidates to voters through the mass communications media membership in secondary associations and direct face to

face contacts within interpersonal networks was first introduced to the study of electoral behavior by Paul Lazarsfeld and his collaborators in the 1940s. In addition to reviving that long neglected analytical framework, this book breaks new ground by systematically exploring the impact of socio-political values on electoral behavior. It also analyzes the role of political intermediation in forming basic attitudes towards democracy, which are crucial for the consolidation of new democracies and in turn channeling those orientations into various forms of political behavior. Some of the findings presented in this volume are dramatic and clearly reveal that these channels of information are among the most powerful factors influencing the development of political attitudes and partisan electoral behavior. So too are socio-political values in some countries, particularly the United States. This volume is the first book-length product of the now 18-country Comparative National Elections Project.
