**Regenerating Dixie** Casey Cater, 2019-06-05 *Regenerating Dixie* is the first book that traces the electrification of the US South from the 1880s to the 1970s It emphasizes that electricity was not solely the result of technological innovation or federal intervention Instead it was a multifaceted process that influenced and was influenced by environmental alterations political machinations business practices and social matters Although it generally hewed to national and global patterns southern electrification charted a distinctive and instructive path and despite orthodoxies to the contrary stood at the cutting edge of electrification from the late 1800s onward Its story speaks to the ways southern experiences with electrification

reflected and influenced larger American models of energy development Inasmuch as the South has something to teach us about the history of American electrification electrification also reveals things about the South's past The electric industry was no mere accessory to the New South agenda the ongoing project of rehabilitating Dixie after the Civil War and Reconstruction Electricity powered industrialism consumerism urban growth and war It moved people across town changed land and waterscapes stoked racial conflict sparked political fights and lit homes and farms Electricity underwrote people's daily lives across a century of southern history But it was not simply imposed on the South In fact one Regenerating Dixie's central lessons is that people have always mattered in energy history The story of southern electrification is part of the broader struggle for democracy in the American past and includes a range of expected and unexpected actors and events It also offers insights into our current predicaments with matters of energy and sustainability

**Strange Things Are Happening** Richard Norris, 2024-03-21 The rainbow reaches right across the sky for miles and miles and has landed right in the middle of our field My mother Alison is standing at the beginning I'm sure it's a beginning rather than the end as there's no pot of gold in sight The point where everything forms or perhaps is not quite formed as yet That's my favourite place A place alive with possibility Strange Things Are Happening begins with the wonder of that rainbow and continues with many escapades down the rabbit hole From punk and the beginnings of the DIY scene through Acid House psychedelia the rise of electronic dance music and much more Richard Norris has been involved in countless countercultural revolutions From misadventures in Amsterdam with Timothy Leary with Sun Ra at customs and Shaun Ryder in Joe Strummer's beaten up Cadillac in Tijuana to his extraordinarily influential output in The Grid and Beyond The Wizards Sleeve Richard Norris' story is one of collaboration and community fuelled by relentless psychedelic curiosity Strange Things Are Happening is a record of a life lived in the moment forever in thrall to discovery exploration and innovation the search for what lies at the other end of that rainbow
