ELECTRONIC COLONIALISM THEORY

- The political economy of global media communication can be understood in the context of specific theories of global media communication.

- Students are expected to understand the international scope and impact of global media communication which is largely driven by transnational media organisations.

- These organisations hardly view information as a social good but rather as a commodity, an aspect that has led to the commercialisation of the global media.

Deconstructing Digital Capitalism and the Smart Society Mel van Elteren,2025-01-01 Today s critics of big online platforms tend to consider privacy breaches monopolistic practices and the deployment of surveillance technologies as the main problems Internet reformers suggest the answers to these issues reside in more and better regulations While the questions of privacy data and size are indeed important they are secondary however to a deeper set of concerns about platform ownership and control and who benefits from the current status quo This book examines these issues and offers an historical overview and in depth analysis of digital capitalism and its prevailing practices as it has become increasingly intertwined with various forms of online surveillance behavior modification and the delegation of managerial functions to algorithmic and automated systems in platform economies The approach taken extends to the wider array of data driven

internet connected and automated systems that involve digital devices and technologies centered on three smart spaces the smart self the smart home and the smart city Antitrust and other regulatory measures by the European Union and the United States that are aimed at restraining platform capitalism are also discussed The focus in particular is on recent developments regarding artificial intelligence and their potentially harmful implications This is followed by a critical look at proposals for more far reaching institutional reforms revolving around the creation of forms of platform socialism that build partly on existing practices of platform cooperativism The book concludes with a diagnosis of the global situation among the competing digital empires the United States the European Union and China and considers whether or not under the present conditions any form of democratic platform socialism could materialize on a wider scale in the near future **The SAGE Handbook of Media and Migration** Kevin Smets,Koen Leurs,Myria Georgiou,Saskia Witteborn,Radhika Gajjala,2019-10-31 Migration moves people ideas and things Migration shakes up political scenes and instigates new social movements It redraws emotional landscapes and reshapes social networks with traditional and digital media enabling representing and shaping the processes relationships and people on the move The deep entanglement of media and migration expands across the fields of political cultural and social life For example migration is increasingly digitally tracked and surveilled and national and international policy making draws on data on migrant movement anticipated movement and biometrics to maintain a sense of control over the mobilities of humans and things Also social imaginaries are constituted in highly mediated environments where information and emotions on migration are constantly shared on social and traditional media Both those migrating and those receiving them turn to media and communicative practices to learn how to make sense of migration and to manage fears and desires associated with cross border mobility in an increasingly porous but also controlled and divided world The SAGE Handbook of Media and Migration offers a comprehensive overview of media and migration through new research as well as a review of present scholarship in this expanding and promising field It explores key interdisciplinary concepts and methodologies and how these are challenged by new realities and the links between contemporary migration patterns and its use of mediated processes Although primarily grounded in media and communication studies the Handbook builds on research in the fields of sociology anthropology political science urban studies science and technology studies human rights development studies and gender and sexuality studies to bring to the forefront key theories concepts and methodological approaches to the study of the movement of people In seven parts the Handbook dissects important areas of cross disciplinary and generational discourse for graduate students early career researcher migration management practitioners and academics in the fields of media and migration studies international development communication studies and the wider social science discipline Part One Keywords and Legacies Part Two Methodologies Part Three Communities Part Four Representations Part Five Borders and Rights Part Six Spatialities Part Seven Conflicts *Development Communication* Thomas L.
