**Everyday Immortality** Deepak Chopra,2010-10-31      *Road to Digital Divine* Hemant Gupta,2010-12-20 For most of us our current perspective is deeply rooted in the eighteenth century science of materialism The new science of information and quantum computation is bringing a fresh perspective a new understanding about the true nature of us and our universe It has profound implications to the way us humans understand ourselves and our universe Since this newer understanding rests on digital and informational nature of being and has divine like qualities I have referred to this as digital divine A road to arrive at digital divinity has also been my journey to understand this new nature of us and our universe From this perch our universe appears like an informational entity rooted deeply in the nature of silence or zero Broader laws of information seem to describe its nature and behaviors far better than the classical laws of physics Our physical universe emerges as a computing platform engaged in grand act of quantum and binary information processing How does one start from a macro view of our perceptual universe and arrive at the computational nature of matter and mind How do cosmic emotional and rational mind arise from this foundation How does this view impact the concept of my self that I hold deep with in my psyche The informational and computational description of our universe provides a framework to naturally explain many such difficult questions As one realizes that this grand informational and quantum computational entity or digital divine is not only rooted in logic but it is also rooted in love oneness or unity consciousness one embarks on a new understanding of us our universe and our divinity an incredible bridge between science and spirituality This is an amazing know how We can all benefit from this

**The New Age of Soul** Ray S. Anderson,2001-11-27 In The New Age of Soul the broad appeal of new age spirituality is identified and defined with special attention to the claim that the soul may be understood as both the repository of divine energy and a source of spiritual healing and hope Through dialogue with sources and perspectives on the spiritual nature of the soul the book attempts to win the respect and appreciation of the reader already persuaded by the claims and benefits of new age spirituality while at the same time convincing the reader who has suspicions and concerns about new age spirituality that a better alternative may be found The book thus has a two fold purpose first to expose the inadequacy indeed the superficiality of new age spirituality through this dialogue and discussion attracting the attention and

interest of the reader already influenced by this genre Second the author makes a case for a more traditional orthodox and biblical view of the soul and human spirituality so that the reader who is inclined toward new age spirituality will rediscover the more traditional biblical content of the soul and spirituality while providing the committed more traditional Christian reader a tool by which to communicate a biblical faith with the growing segment of our population attracted toward new age spirituality In its own way this book is an apologetic for a more traditional Christian theology of human spirituality and self identity presented in a positive dialogue with new age spirituality *Diet for a New Life* Mariana Bozesan,2004-10 Mariana Bozesan s ebook is published at <http://www.sageera.com> as part of the Diet for a New Life weight loss program Prices start at 29.95 for the ebook and a one month free trial of the program The e book is endorsed by Dr Deepak Chopra Dr Camran Nezhat Dr Riane Eisler Dr Fred Gallo and many more
