Everyday Troubles Robert M. Emerson, 2015-04-06 From roommate disputes to family arguments trouble is inevitable in interpersonal relationships In *Everyday Troubles* Robert M Emerson explores the beginnings and development of the conflicts that occur in our relationships with the people we regularly encounter family members intimate partners coworkers and others and the common responses to such troubles To examine these issues Emerson draws on interviews with college roommates diaries documenting a wide range of irritation with others conversations with people caring for family members suffering from Alzheimer s studies of family interactions neighborly disputes and other personal accounts He considers how people respond to everyday troubles in non confrontational fashion by making low visibility often secretive changes in the relationship more openly by directly complaining to the other person or by involving a third party such as friends or family He then examines how some relational troubles escalate toward extreme and even violent responses in some cases leading to the involvement of outside authorities like the police or mental health specialists By calling attention to the range of possible reactions to conflicts in interpersonal relationships Emerson also reminds us that extreme even criminal actions often result when people fail to find ways to deal with trouble in moderate non confrontational ways Innovative and insightful *Everyday Troubles* is an illuminating look at how we deal with discord in our relationships

Lee Hamilton,2007-05-08 Justice a word of great simplicity and almost frightening scope When we were invited to edit a volume on justice in law we joked about the small topic we had been assigned Often humor masks fear and this was certainly one of those times Throughout the project we found daunting the task of covering even a fraction of the topics that usually fall under the umbrella of justice research in law Ultimately the organization of the book emerged from the writing of it Our introductory chapter provides a road map to how the topics weave together but as is so often the case it was written last not first It was only when we had chapters in hand that we began to see how the many strands of justice research might be woven

together Chapters 2-4 on the basic forms of justice: procedural, retributive and distributive are the lynchpin of the volume; they provide the building blocks that permit us to think and write about each of the other substantive and applied chapters in terms of how they relate to the fundamental forms of justice. In the large central section of the volume, Chapters 5-9 the contributors address many ways in which the justice dimensions relate to one another. Most important for law is the relationship of perceptions of procedural justice and the two types of substantive justice: retributive and distributive.

**Policing Iraq** Jesse Wozniak, 2021-03-09. *Policing Iraq* chronicles the efforts of the Kurdistan Regional Government of Iraq to rebuild their police force and criminal justice system in the wake of the US invasion. Jesse S. G. Wozniak conducted ethnographic research during multiple stays in Iraqi Kurdistan, observing such signpost moments as the Arab Spring, the official withdrawal of coalition forces, the rise of the Islamic State, and the return of US forces. By investigating the day-to-day reality of reconstructing a police force during active hostilities, Wozniak demonstrates how police are integral to the modern state's ability to effectively rule and how the failure to recognize this directly contributed to the destabilization of Iraq and the rise of the Islamic State. The reconstruction process ignored established practices and scientific knowledge, instead opting to create a facade of legitimacy masking a police force characterized by low pay, poor recruits, and a training regimen wholly unsuited to a constitutional democracy. Ultimately, Wozniak argues the United States never intended to build a democratic state but rather to develop a dependent client to serve its neoimperial interests.

**Empirical Futures** George Baca, Aisha Khan, Stephan Palmié, 2009-12-01. Since the 1950s, anthropologist Sidney W. Mintz has been at the forefront of efforts to integrate the disciplines of anthropology and history. Author of *Sweetness and Power: The Place of Sugar in Modern History* and other groundbreaking works, he was one of the first scholars to anticipate and critique globalization studies. However, a strong tradition of epistemologically sophisticated and theoretically informed empiricism of the sort advanced by Mintz has yet to become a cornerstone of contemporary anthropological scholarship. This collection of essays by leading anthropologists and historians serves as an intervention that rests on Mintz's rigorously historicist ethnographic work, which has long predicted the methodological crisis in anthropology today. Contributors to this volume build on Mintzian interdisciplinarity to provide productive ways to theorize the everyday life of local groups and communities, nation-states and regions, and the interconnections among them. Consisting of theoretical and case studies of Latin America, North America, the Caribbean, and Papua New Guinea, *Empirical Futures* demonstrates how Mintzian perspectives advance our understanding of the relationship among empirical approaches, the uses of ethnographic and historical data, and theory building and the study of these from both local and global vantage points.
