Andrew Jakubowicz, Christina Ho, 2014-02-15 **Everyday Activists** Christina M. Getrich, 2025-04-22 Strategies of resistance by undocumented young adults About 825 000 of the more than two million undocumented young adults in the United States benefited from the Deferred Action for Childhood Arrivals DACA program started by President Obama in 2012 Through DACA these young adults are able to work legally in the United States and have been insulated from deportation However since President Trump's attempted termination of the program in 2017 DACA recipients have endured a rollercoaster of legal battles that have left them in an unimaginable state of prolonged limbo Amid this rapidly shifting political climate many undocumented young adults have joined the large scale high visibility social movement to fight for policy change and immigrant justice Yet often overlooked are the thousands more DACA recipients nationwide who have never participated in

immigration related activism As Christina M Getrich argues in less publicly visible ways they are nonetheless fighting for immigrant well being and justice in their everyday adult lives and their more private forms of action should be considered political activism Drawing from five years of rich ethnographic research with a diverse population of thirty DACA recipients living in the Washington D C area Everyday Activists portrays the alternative political engagement strategies they enact in their daily lives as they leverage their unique knowledge bases and skill sets and make a meaningful impact in their communities The volume reveals how these young activists strategies are instructive for thinking creatively about how to show up in our everyday lives for immigrants and others who are systematically subjected to social exclusion

### **One Night** Cathy Winkler,2002-05-07

One night anthropologist Cathy Winkler awoke from a deep sleep to discover a rapist standing by her bed For the rest of that night she lived a woman s worst nightmare as she was repeatedly raped and beaten by the stranger The event changed her life into something resembling a Kafka novel a justice system that bungled the case then blamed the victim a social service system that provided no services or comfort uneasy and awkward friends exploitative media and insensitive university administrators and colleagues The pain of those four hours was dwarfed by the frustration of her decade long fight to find the rapist and bring him to justice ultimately through one of the first successful uses of DNA evidence in a rape case Winkler a brilliant observer and ethnographer chronicles this struggle here including her own growing awareness of her power to stare down district attorneys to use the media to her own ends including segments on 48 Hours and Court TV and ultimately through her persistence to put the rapist behind bars for life As a story of triumph over adversity One Night is an inspirational work And it provides a model of how researchers can turn the lens inward and incisively examine ourselves and our own world

Less than a half century ago China experienced a cataclysmic famine which was particularly devastating in the countryside As a result older people in rural areas have experienced in their lifetimes both extreme deprivation and relative abundance of food Young people on the other hand have a different relationship to food Many young rural Chinese are migrating to rapidly industrializing cities for work leaving behind backbreaking labor but also a connection to food through agriculture Bitter and Sweet examines the role of food in one rural Chinese community as it has shaped everyday lives over the course of several tumultuous decades In her superb ethnographic accounts Ellen Oxfeld compels us to reexamine some of the dominant frameworks that have permeated

recent scholarship on contemporary China and that describe increasing dislocation and individualism and a lack of moral centeredness By using food as a lens she shows a more complex picture where connectedness and sense of place continue to play an important role even in the context of rapid change *Handbook of Life-Span Development* Karen L. **Joyce's Ghosts** Luke Gibbons,2015-11-13 A deeply original work part of a refreshing new wave of literary criticism that is written in clear hospitable prose driven by genuine passion Irish Times For decades James Joyce s modernism has overshadowed his Irishness as his self imposed exile and association with the high modernism of Europe s urban centers has led critics to see him almost exclusively as a cosmopolitan figure In Joyce s Ghosts Luke Gibbons mounts a powerful argument that Joyce s Irishness is intrinsic to his modernism informing his most distinctive literary experiments Ireland Gibbons shows is not just a source of subject matter or content for Joyce but of form itself Joyce s stylistic innovations can be traced at least as much to the tragedies of Irish history as to the shock of European modernity as he explores the incomplete project of inner life under colonialism Joyce s language Gibbons reveals is haunted by ghosts less concerned with the stream of consciousness than with a vernacular interior dialogue the shout in the street that gives room to outside voices and shadowy presences the disruptions of a late colonial culture in crisis Showing us how memory under modernism breaks free of the nightmare of history and how in doing so it gives birth to new forms

Gibbons forces us to think anew about Joyce s achievement Nothing short of brilliant Vicki Mahaffey University of Illinois at Urbana Champaign author of Reauthorizing Joyce Engaging and important Choice Sure to appeal to every persuasion and rank of Joyceans Maria DiBattista Princeton University author of First Love The Affections of Modern Fiction Excellent

**Viral Economies** Natalie Porter,2019-09-23 Over the last decade infectious disease outbreaks have heightened fears of a catastrophic pandemic passing from animals to humans From Ebola and bird flu to swine flu and MERS zoonotic viruses are killing animals and wreaking havoc on the people living near them Given this clear correlation between animals and viral infection why are animals largely invisible in social science accounts of pandemics and why do they remain marginal in critiques of global public health In Viral Economies Natalie Porter draws from long term research on bird flu in Vietnam to chart the pathways of scientists NGO workers state veterinarians and poultry farmers as they define and address pandemic risks Porter argues that as global health programs expand their purview to include life and livestock they weigh the interests of public health against those of commercial agriculture rural tradition and scientific innovation Porter challenges human centered analyses of pandemics and shows how dynamic and often dangerous human animal relations take on global significance as poultry and their pathogens travel through global livestock economies and transnational health networks Viral Economies urges readers to think critically about the ideas relationships and practices that produce our everyday commodities and that shape how we determine the value of life both human and nonhuman

**Contested Identities** Peter Loizos,Ethymios Papataxiarchis,2016-09-29 In this collection leading anthropologists provide a comprehensive yet highly nuanced view of what it means to be a Greek man or woman married or unmarried functioning within a complex society based on kinship ties Exploring the ways in which sexual identity is constructed these authors discuss for example how going out for coffee embodies dominant ideas about female sexuality moral virtue and autonomy why men in a Lesbos village maintain elaborate friendships with nonfamily members while the women do not why young housewives often participate in conflict resolution rituals and how the dominant role of mature married householders is challenged by unmarried persons who emphasize spontaneity and personal autonomy This collection demonstrates that kinship and gender identities in Greece are not unitary and fixed kinship is organized in several highly specific forms and gender identities are plural competing antagonistic and are continually being redefined by contexts and social change
