Coding Literacy Annette Vee, 2017-07-28 How the theoretical tools of literacy help us understand programming in its historical social and conceptual contexts The message from educators the tech community and even politicians is clear everyone should learn to code To emphasize the universality and importance of computer programming promoters of coding for everyone often invoke the concept of literacy drawing parallels between reading and writing code and reading and writing text In this book Annette Vee examines the coding as literacy analogy and argues that it can be an apt rhetorical frame The theoretical tools of literacy help us understand programming beyond a technical level and in its historical social and conceptual contexts Viewing programming from the perspective of literacy and literacy from the perspective of programming she argues shifts our understandings of both Computer programming becomes part of an array of communication skills important in everyday life and literacy augmented by programming becomes more capacious Vee

examines the ways that programming is linked with literacy in coding literacy campaigns considering the ideologies that accompany this coupling and she looks at how both writing and programming encode and distribute information She explores historical parallels between writing and programming using the evolution of mass textual literacy to shed light on the trajectory of code from military and government infrastructure to large scale businesses to personal use Writing and coding were institutionalized domesticated and then established as a basis for literacy Just as societies demonstrated a literate mentality regardless of the literate status of individuals Vee argues a computational mentality is now emerging even though coding is still a specialized skill

Until We're Seen Joseph Entin, Jeanne Theoharis, 2024-08-20 Firsthand accounts of COVID 19 s devastating effects on working class communities of color The first months of the COVID 19 pandemic were filled with talk of heroes the frontline workers who kept the country functioning And when they write those history books the heroes of the battle will be the hardworking families of New York Governor Andrew Cuomo trumpeted on Labor Day 2020 But what if those heroes those essential workers and their families wrote the book themselves In Until We're Seen the heroes write their own stories Through firsthand accounts by college students at Brooklyn College and California State University Los Angeles Until We're Seen chronicles COVID 19 s devastating disproportionate effects on working class communities of color even as the United States has declared the pandemic over and looks away from its impacts Very few of these students and their families had the luxury of laboring from home if they were able to keep their jobs they took subways and buses and they worked They drove delivery trucks worked in private homes cooked food in restaurants for people to pick up worked as EMTs and did construction They couldn't escape to second homes if anything more people moved in as families were forced to consolidate to save money Together the accounts in this book show that the COVID 19 pandemic did discriminate following the race and class fissures endemic to US society But if these are tales of hardship they are also love stories of students families biological and chosen and of the deep resolve mundane carework and herculean efforts such love entails Recounting 2020 2022 through the experiences of predominantly young working class immigrants and people of color living in the first two major US COVID 19 epicenters Until We're Seen spotlights previously untold stories of the pandemic in New York Los Angeles and the nation as a whole

Bell,Colin Jones,2024-09-12 Historians have long used biography and life narratives as a means of understanding the French Revolution as classic studies on major figures such as Robespierre and Napoleon attest At the current moment however many of the most creative such studies are focusing on relatively minor revolutionary figures Such work which combines the techniques of classic biography and microhistory reveals how the great political social cultural and religious transformations of the revolutionary era were refracted through the prism of individual experience This work often links to research and writing taking place in adjacent disciplines notably around the ideas and practices of life writing These studies themselves often grounded in the history of emotions resist the biographical illusion that an individual s essence can be inferred unproblematically from their words and actions and they also transcend the tendency to see those words and actions as merely symptoms of broader political processes By focusing on individual life stories in their own right and insisting on the slipperiness of individual identity this book explores emergent forms of subjectivity Transport Revolution and Travels to Asia, 1860s-1920s Tomasz Ewertowski,Wacław Forajter,Oliwia Gromadzka,2025-02-11 During the long 19th century a technological revolution occurred leading to the emergence of new means of transport such as steamships railways cars aeroplanes bicycles and rickshaws This transport revolution not only fundamentally transformed modes of travel and made distant lands more accessible but it also significantly impacted how travellers experienced the world The authors of this volume aim to deepen the understanding of the influence of these new modes of transportation and their coexistence with older ones by incorporating a comprehensive range of sources written by both European and Asian travellers The approach presented in this volume is inspired by the anthropology of the senses the sociology of travel and the cultural history of transport These methodological frameworks are applied to accounts of travels to from and within Asia This perspective enables a focus on various contexts not visible in Europe including imperialism Eurocentric approaches to modernisation and the reactions of colonised peoples to these developments **From Revolution to Rights in South Africa** Steven L. Robins,2010-11-18 The author argues for the continued importance of NGOs social movements and other civil society actors in creating new forms of citizenship and democracy in South Africa Critics of liberalism in Europe and North America argue that a stress on rights talk and identity politics has led to fragmentation individualisation and

depoliticisation But are these developments really signs of the end of politics In the post colonial post apartheid neo liberal new South Africa poor and marginalised citizens continue to struggle for land housing and health care They must respond to uncertainty and radical contingencies on a daily basis This requires multiple strategies an engaged practised citizenship one that links the daily struggle to well organised mobilisation around claiming rights Robins argues for the continued importance of NGOs social movements and other civil society actors in creating new forms of citizenship and democracy He goes beyond the sanitised prescriptions of good governance so often touted by development agencies Instead he argues for a complex hybrid and ambiguous relationship between civil society and the state where new negotiations around citizenship emerge Steven L Robins is Professor of Social Anthropology in the University of Stellenbosch and editor of *Limits to Liberation after Apartheid* James Currey Southern Africa South Africa Botswana Namibia Lesotho Swaziland University of KwaZulu Natal Press PB

An Unfinished Revolution Abraham Lincoln, Karl Marx, 2011-05-16 Karl Marx and Abraham Lincoln exchanged

letters at the end of the Civil War with Marx writing on behalf of the International Working Men s Association Although they were divided by far more than the Atlantic Ocean they agreed on the urgency of suppressing slavery and the cause of free labor In his introduction Robin Blackburn argues that Lincoln s response to the IWA was a sign of the importance of the German American community as well as of the role of the International in opposing European recognition of the Confederacy The International went on to attract many thousands of supporters in over fifty regions of the US and helped to spread the demand for an eight hour day enacted by Congress in 1868 for Federal employees Blackburn shows how the International in America born out of the Civil War sought to radicalize Lincoln s unfinished revolution and to advance the rights of labor uniting black and white men and women native and foreign born The International contributed to a profound critique of the capitalist robber barons who enriched themselves during and after the war It inspired an extraordinary series of strikes and class struggles in the postwar decades In addition to a range of key texts and letters by both Lincoln and Marx this book includes Raya Dunaevskaya s assessment of the impact of the Civil War on Marx s theory and a survey by Frederick Engels of the progress of US labor in the 1880s

Permanent Revolution Richard Haese,2012-02-01 In 1961 the 22 year old Mike Brown joined the New Zealand artist Ross Crothall in an old terrace house in inner Sydney s Annandale Over the following two years the artists filled the house with a remarkable body of work Launched with an equally extraordinary exhibition the movement they called Imitation Realism introduced collage assemblage and installation to Australian art for the first time Laying the groundwork for a distinctive Australian postmodernism Imitation Realism was also the first Australian art movement to respond in a profound way to Aboriginal art and to the tribal art of New Guinea and the Pacific region By the mid 1960s Brown was already the most controversial figure in Australian art In 1963 a key work was thrown out of a major travelling exhibition for being overtly sexual a year later he publicly attacked Sydney artists and critics for having failed the test of integrity Finally in 1966 67 Brown became the only Australian artist to have been successfully prosecuted for obscenity Brown spent the last 28 years of his life in Melbourne where his reputation for radicalism and nonconformity was cemented with his multiplicity of styles exploration of themes of sexuality and transgressive commitment to the ideal of street art and graffiti Against a background of the counter culture and the social and political upheavals of the 1960s and 1970s Brown s art and remarkable life of personal and creative struggle is without parallel in Australian art
