decimals percents Synonyms antonyms Reading comprehension **The Preschool Entitlement** Jan van Ravens, Luis Crouch, Katherine Merseth King, Elisa A. Hartwig, Carlos Aggio, 2023-01-09 Only three out of five children are enrolled in preschool globally and only one out of five in low income countries yet the expansion of preschool education came to a near standstill in 2020 To restart it we propose a policy instrument called the Preschool Entitlement It entails the right of every child to 600 hours of quality government funded preschool education per year 3 hours per day 5 days per week 40 weeks per year Existing preschool institutions and other organizations with legal status public private faith or community based can offer the child development program after a process of rigorous accreditation to ensure quality inclusion and safety In other respects they will have the freedom to shape the program according to local circumstances and local preferences This makes it possible to supplement the daily 3 hours with additional hours of childcare that can be financed by families local government employers national associations faith based organizations ministries of social affairs or others In this manner the Preschool Entitlement reconciles local autonomy with governmental responsibility for quality access and equity In low and middle income countries government costs would range from about 0.15 to 0.4 percent of GDP and the benefits are likely to be significant

Early Childhood Programs Peggy Broadbent, 2010-06 Broadbent describes programs she created and taught to combined first and second grade classes Chapters include descriptions of programs designed to address a wide range of ages intellectual levels and abilities without limits for achievement programs that parallel opportunities for healthy cognitive growth Children were involved in self initiated learning through exploration discovery and experimentation and motivating academic programs Many programs with a different level of achievement are appropriate for younger older and gifted students Upon reading this book another teacher may either adapt all or part of these programs as written or using the design of these programs create one's own Her programs include a daily Choice Time discussing how cognitive gains formed

are the tools required for successful achievement in all academic areas how each beginning reader read her own book and after supplying enough materials guidance and support each child taught herself to read two language experience approaches for those in greatest need a literature study with questions incorporating six levels of thinking with aspects of literature building a town or a city providing the basis for learning reading skills through discussion and writing a writing program beginning with story writing and then including how writing is incorporated in many areas throughout the year stimulating supplementary activities in the Math Program with problem solving strategies patterning visual data and fun games and activities an extensive experiment with lima beans in the Science Program for Social Studies an emphasis upon personal development social interaction and cultural awareness a study of drama was learned after the class visited a professional theatre then returned to the classroom to create and perform their own plays Peggy's web site www.peggybroadbent.com is included to view and copy materials for classroom use All Things Being Equal John Mighton, 2021-01-05 NATIONAL BESTSELLER From the award winning founder of JUMP Math All Things Being Equal is a proven guide to succeeding in math and a passionate argument for why this success can and must be available to the majority instead of the privileged few For two decades John Mighton has developed strategies for fostering intellectual potential in all children through learning math Math Mighton says provides us with mental tools of incredible power When we learn math we learn to see patterns to think logically and systematically to draw analogies to perceive risk to understand cause and effect among many other critical skills Yet we tolerate and in fact expect a vast performance gap in math among students and live in a world where many adults aren't equipped with these crucial tools This learning gap is unnecessary dangerous and tragic he cautions and it has led us to a problem of intellectual poverty which is apparent everywhere in fake news political turmoil floundering economies even in erroneous medical diagnoses In All Things Being Equal Mighton argues that math study is an ideal starting point to break down social inequality and empower individuals to build a smarter kinder more equitable world Bringing together the latest cognitive research and incremental learning strategies Mighton goes deep into the classroom and beyond to offer a hopeful and urgent vision for a numerate society *Create an Emotion-Rich Classroom* Lindsay N. Giroux, 2022-10-11 Strategies and activity ideas to support emotional development in children What is an emotion rich classroom Similar to how a print rich environment exposes children to a variety of printed materials an emotion rich one intentionally surrounds children with a wide range of social emotional learning experiences and supportive interactions Create an Emotion Rich Classroom provides frameworks for planning and implementing strategies to support emotional development in children This practical and easy to use resource helps early childhood educators develop the emotional literacy of the young children in their classrooms Readers learn how to increase children's emotional vocabulary model how to recognize and cope with various emotions support self regulation and reduce challenging behaviors discuss emotions in others and in storybook characters support and engage families in fostering emotional skills at home

Experienced in emotional development in children and early childhood education author Lindsay N Giroux M Ed shows readers how to effectively weave social and emotional instruction into the fabric of the school day Create an Emotion Rich Classroom focuses on individual skills making social and emotional instruction specific and measurable With consistently structured chapters this book is easy to use and rich in ideas and strategies Digital content includes checklists planning sheets and other materials to support educators as they build an emotion rich classroom A free downloadable PLC Book Study Guide is available

[The Most Important Year](#) Suzanne Bouffard,2017-09-05 An eye opening look inside pre K in America and what it will take to give all children the best start in school possible At the heart of this groundbreaking book are two urgent questions What do our young children need in the earliest years of school and how do we ensure that they all get it Cutting edge research has proven that early childhood education is crucial for all children to gain the academic and emotional skills they need to succeed later in life Children who attend quality pre K programs have a host of positive outcomes including better language literacy problem solving and math skills down the line and they have a leg up on what appears to be the most essential skill to develop at age four strong self control But even with this overwhelming evidence early childhood education is at a crossroads in America We know that children can and do benefit but we also know that too many of our littlest learners don t get that chance millions of parents can t find spots for their children or their preschoolers end up in poor quality programs With engrossing storytelling journalist Suzanne Bouffard takes us inside some of the country s best pre K classrooms to reveal the sometimes surprising ingredients that make them work and to understand why some programs are doing the opposite of what is best for children It also chronicles the stories of families and teachers from many backgrounds as they struggle to give their children a good start in school This book is a call to arms when we are at a crucial moment and perhaps on the verge of a missed opportunity We now have the means and the will to have universal pre kindergarten but we are also in grave danger of not getting it right
