Leon Segers Jr., 2012-10 Although the title of this book indicates One parent's story struggle it's actually about the battle between all parents and teens or simply adults and teens in general I say battle but it has actually risen to the potential for what I call generational warfare Basically teenagers have little respect for adults especially parents The protocol is simple and yes most adults do recall progressing strategically in the same way during their own youth Even before we're born we make demands Then after we've grown a few years we make many more demands By the age of ten to thirteen we more than expect those demands to unquestionably be met Finally by the last 3 to 5 years of youth while living at home with our parents we've assessed who our biggest enemy is and how we would like to take down who we now see as both an enemy and a dictator Simply put after you've bitten the hand that feeds you for so long that hand begins to appear useless And once that represents uselessness the person behind that outreaching hand also serves no purpose to you So the stage is set Teenagers won't look back with any sense of appreciation and parents who also continued to grow will look back and wonder was it all worth it Many are optimistic while others are in denial But most can only feel one thing What was I thinking **The Complete Idiot's Guide to Personal Finance in Your 40's & 50's** Sarah Fisher, Susan Shelly, 2001-12-01 Developing and maintaining personal finance doesn't end by middle age With The Complete Idiot's Guide to Personal Finance in Your 40s 50s learn Quick and easy ways to learn with the information exists Idiot proof steps to understanding how the information affects you Comprehensive coverage of the consequences of the information
