## **Everywoman's Emotional Well Being Heart And Mind Body And Soul:**

**EveryWoman's Emotional Well-being** Carol Tavris, 1990 Bringing together the expertise of 23 eminent physicians writers and educators this book addresses such wide ranging topics as the impossible pursuit of perfection understanding and improving self esteem romance and love family and career and more

**Engendering Psychology** Florence Denmark, Vita Carulli Rabinowitz, Jeri A. Sechzer, 2016-01-08 Engendering Psychology's treatment of issues is based solidly on scientific evidence and presented in a balanced manner The text combines a developmental and topical approach Denmark Rabinowitz and Sechzer explore the concept of gender as a social construction across the lines of race ethnicity class age and sexual orientation pulling from the exciting new scholarship that has emerged over the last few years Thoughtful discussion questions emphasize critical thinking skills as well as encourage students to open a dialogue with both their professors and their peers This text will help readers understand the concept of gender as a social construct in contrast to the concept of sex which denotes biological differences Upon completing this text readers will have a deeper understanding of women and the knowledge that woman is a diverse and multifaceted category

**Transformation Through Menopause** Marian Van Eyk McCain, 1991-09-30 This is by far the most wise and thought provoking book on menopause that I have ever read It is must reading for every woman who dares to meet the challenges of menopause fully and consciously Christiane Northrup M D This volume presents a holistic theoretical framework for understanding menopause as a major developmental event in women's lives Rather than an unpleasant phase to be endured or alleviated Marian Van Eyk McCain views menopause as an empowering experience that women can use for personal growth Artfully interweaving her research years of clinical experience and her personal perceptions of menopause to create an inspiring new vision of the change of life She goes well beyond a discussion of hormones and hot flashes to uncover the deep emotional and spiritual significance of this time in women's lives This book is not only about change on a personal or physical level but in society as well McCain lays out historical and cross cultural beliefs about menstruation and menopause and the attitudes surrounding them from taboos to reverence and points out that in our modern society women most often either try to ignore or make it through this essential period of womanhood in order to compete in a man's world on male terms In tune with recent feminist thought the author says there is a new womanpower emerging which means that it is time for women to honor their natural cycles There is no other book that combines the insights inspiration and wealth of information contained in this work It is an important book for the alternative minded baby boom generation who are seeking new ways to approach middle age

**Good Housekeeping**, 1916

**Midlife Mothers in Transition** Elizabeth Irene Price, 1994

**Pressure Points** Gary J. Oliver, H.
