Principles of Evidence in International Criminal Justice provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals The book is both descriptive and critical and its emphasis is on day to day practice drawing on the experience of the Yugoslavia Rwanda and Sierra Leone Tribunals This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals the rationale and origin of those rules and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors The ICC is however confronted with many of the same questions The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future The contributors represent a cross section of the practising international criminal bar drawn from the ranks of the Bench the Prosecution and the Defence and bringing with them different legal domestic cultures Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals drawing on the various traditions and experiences of its participants **Cyclopedia of Law and Procedure** ,1906 **Administrative Justice** Philippe

Nonet,1969 Uses the case study of the California Industrial Accident Commission to explore issues in sociological jurisprudence It traces the progression of the Commission from a welfare agency with broad discretion in policymaking and interpretation into a relatively passive arbitrator of industrial accident claim disputes The author examines the effect of the elaboration of legal rules and doctrines the significance of the procedural aspects of law and the interplay of the legal process and institutional change He then notes the conditions which will either permit or restrain a legal process that will remain highly responsive to social needs **Justice of the Peace and Local Government Review** ,1870 *Journal of*
