## **Creative Virtualities in Human Self-Interpretation-in-Culture**

Anna-Teresa Tymieniecka, 2012-12-06 It would seem that modern humanity has unthroned the human spirit undercutting the very foundation of the validity of truth moral values and principles There appears to be no attempt to discern what is beautiful and true it is functional and pragmatic usefulness that seem to dominate human evaluations and transactions with other humans and indeed animals Humanity is becoming detached from the higher aesthetic moral and intellectual works of the human spirit and thus the life of the spirit is often situated on the other side of a gulf opposed to science with its rationality Culture is in danger of becoming reduced to science In other words the great metaphysical questions those of telos of sense often are answered in terms of scientific conceptions But these are at least incomplete if not fragmentary and in principle hypothetical which still leaves the questions unanswered But it is culture that is the manifestation of the human spirit being the historical process of human self interpretation in existence All manifestations of the creative forge of the human being find a role in the fabric of culture which involves progressively widening circles of the human community demanding an integration and attunement with others in their changing conditions of life This consideration of culture involves all areas of philosophical reflection moral aesthetic metaphysical epistemological semiological cognitive and more

**The Vertical Self** Mark Sayers, 2010-03-01 It s time for a return to Radical Holiness Welcome to the 21st century where you can now purchase and exchange personalities depending on mood and circumstance where you are told that you can be anyone you want to be and identity is no longer based in a sense of self but rather in the imagery you choose at that moment The Bible contains a radically different way of understanding our identity The path that God has chosen for us to discover who we really are is the path of holiness The most exciting thing is that this path is not for otherworldly saints rather it is a path of earthy gutsy holiness It s a path that is not about basing your life on this world or of shunning your desires Instead it is about bringing your hopes your dreams your brokenness your desires your humanness under the Lordship of Christ By doing this we don t just discover a new way of living out our faith we discover a liberating revolutionary life embracing way of being truly human

The Mirror of the Self Shadi Bartsch,2006-07-03 People in the ancient world thought of vision as both an ethical tool and a tactile sense akin to touch Gazing upon someone or oneself was treated as a path to philosophical self knowledge but the question of tactility introduced an erotic element as well In The Mirror of the Self Shadi Bartsch asserts that these links among vision sexuality and self knowledge are key to the classical understanding of the self Weaving together literary theory philosophy and social history Bartsch traces this complex notion of self from Plato s Greece to Seneca s Rome She starts by showing how ancient authors envisioned the mirror as both a tool for ethical self improvement and paradoxically a sign of erotic self indulgence Her reading of the Phaedrus for example demonstrates that the mirroring gaze in Plato because of its sexual possibilities could not be adopted by Roman philosophers and their students Bartsch goes on to examine the Roman treatment of the ethical and sexual gaze and she traces how self knowledge the philosopher s body and the performance of virtue all played a role in shaping the Roman understanding of the nature of selfhood Culminating in a profoundly original

reading of Medea The Mirror of the Self illustrates how Seneca in his Stoic quest for self knowledge embodies the Roman view marking a new point in human thought about self perception Bartsch leads readers on a journey that unveils divided selves moral hypocrisy and lustful Stoics and offers fresh insights about seminal works At once sexy and philosophical The Mirror of the Self will be required reading for classicists philosophers and anthropologists alike *Degeneration, Normativity and the Gothic at the Fin de Siècle* S. Karschay, 2015-01-06 This exciting new study looks at degeneration and deviance in nineteenth century science and late Victorian Gothic fiction The questions it raises are as relevant today as they were at the nineteenth century s fin de siecle What constitutes the norm from which a deviation has occurred What exactly does it mean to be normal or abnormal *Religion Index Two* ,1986
