

If God is **OMNIBENEVOLENT**, he should want to remove evil and suffering.

If God is **OMNISCIENT**, he should know how to remove evil and suffering.

If God is **OMNIPOTENT**, he should have the power to remove evil and suffering.

THE INCONSISTENT TRIAD – The Bible claims God is omnibenevolent, omniscient and omnipotent, so the presence of evil and suffering is a challenge to faith in God. Wouldn't God want to prevent evil and suffering and help his creation?

Evil And The Response Of World Religions

Peter B. Clarke, Peter Beyer

Evil And The Response Of World Religions:

Asian and Pentecostal Allan Anderson, Edmond Tang, 2005 Provides a thematic discussion and case studies on the history and development of Pentecostal and Charismatic churches in the countries of South Asia South East Asia and East Asia

The Politics of Pessimism in Ecclesiastes Mark R. Sneed, 2012-02-27 Scholars attempt to resolve the problem of the book of Ecclesiastes heterodox character in one of two ways either explaining away the book's disturbing qualities or radicalizing and championing it as a precursor of modern existentialism This volume offers an interpretation of Ecclesiastes that both acknowledges the unorthodox nature of Qoheleth's words and accounts for its acceptance among the canonical books of the Hebrew Bible It argues that instead of being the most secular and modern of biblical books Ecclesiastes is perhaps one of the most religious and primitive Bringing a Weberian approach to Ecclesiastes it represents a paradigm of the application of a social science methodology

Controversial New Religions James R. Lewis, Jesper Aa. Petersen, 2014-07-16 Written by established scholars as well as younger experts in their field this updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at the new religious groups that have generated the most attention in the media and general public

The Religious in Responses to Mass Atrocity Thomas Brudholm, Thomas Cushman, 2009 An assessment of the attempts to bring religious allegiances and perspectives to bear in responses to the mass atrocities of our time

Amidst Mass Atrocity and the Rubble of Theology Peter Admirand, 2012-03-16 It is hubris to claim answers to unanswerable questions Such questions however as part of their burden and worth must still be asked investigated and contemplated How there can be a loving all powerful God and a world stymied by suffering and evil is one of the unanswerable questions we must all struggle to answer even as our responses are closer to gasps silences and further questions More importantly how and whether one articulates a response will have deep lasting repercussions for any belief in God and in our judgments upon one another Throughout this wide ranging interdisciplinary work Peter Admirand draws upon his extensive research and background in theology and testimonial literature trauma and genocide studies cultural studies philosophy of religion interreligious studies and systematic theology As David Burrell writes in the Foreword The work's intricate structure organization and development will lead us to appreciate that the best one can settle for is a fractured faith built on a fractured theodicy expressed in a language explicitly fragmented pluralist and broken

Approaching the World's Religions, Volume 1 Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions

Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue

Fifty Years of Philosophy of Religion Andries F. Sanders, Kristof De Ridder, 2007 The bibliography lists about 10 000 titles of monographs collections and articles in the field of the philosophy of religion and philosophical theology that appeared between 1955 and 2005 The majority of them are in the English language but publications in German Dutch and French are listed as well Though it is not claimed to be exhaustive the bibliography offers a fairly representative survey of scholarly work on the main topics of interest Publications have been systematically classified according to eleven main categories Introductions Surveys and Historical Issues Part I Religious Language Part II Religious Experience Part III Religious Epistemology Part IV Theism Part V Hermeneutics Part VI Religion and Science Part VII Religion and Aesthetics Part VIII Religion and Morality Part IX Religious Pluralism Part X and Feminist Philosophy of Religion Part XI Part III has been subdivided into Religious Experience and Mystical Experience Part VII into The Concept of God arguments for The Existence of God The Problem of Evil and Atheism and Part VII into General and Historical Issues Theological Issues and implications of Modern Physics Cosmology and Biology The bibliography will particularly be useful to scholars teachers and students in the philosophy of religion philosophical theology and systematic theology as well as to those who are interested professionally or otherwise in the results of academic scholarship in those fields

The World's Religions Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent

Religions Today Mary Pat Fisher, 2013-11-19 Religions Today provides a sympathetic account of what living religions really are Fisher traces the historical development and practices of major religious movements and explores how these evolve into contemporary belief and teaching She considers major faiths as well as indigenous religions and new religious movements focusing on how living religions affect contemporary society Case studies and interviews with living people ensure that this concise guide is both readable and stimulating

George Washington's Religion Stephen J. Vicchio, 2019-09-17 In this book Professor Stephen Vicchio gives a comprehensive analysis of the religious beliefs of the first

president of the United States George Washington After discussing Washington's early religious life in the Anglican and Episcopal churches Professor Vicchio goes on to analyze Washington's views on God the Bible religious toleration ethics and virtue prayer and whether or not America was established as a Christian nation as well as his understanding of the problem of evil and the afterlife

Consenting to God and Nature Byron C. Bangert, 2006-03-08 This book an exploration in theological ethics is motivated by two central questions First How can we think and speak with integrity about God as One who is active in human affairs and the world How can God make a difference in our world and in our lives Second and no less important What is the character of God's activity in the world and how are we to relate and respond to this activity How does God make a difference in our world and our lives and what are some of the implications for our own actions As the book's title indicates Bangert claims that a proper engagement in theological ethics requires both consenting to God and consenting to nature This means both consenting to the reality that is God the One with whom we ultimately have to do and the acceptance of the natural or physical world as hugely determinative of the limits and possibilities of human life and all existence He argues that this calls for a theocentric naturalistic theological ethics Bangert shows how the work of three major contemporary Protestant thinkers James M Gustafson Sallie McFague and David Ray Griffin may be fruitfully appropriated for the articulation of just such an ethics one that is responsive to the Christian tradition while also sharing the modern commitment's appeal to human experience and reason Each of these three thinkers eschews a priori appeal to the authority of religious tradition as each takes seriously scientific knowledge of our world Each accents ways in which current scientific understandings inform and in some cases are informed by contemporary appropriations of the language and thought of Christian tradition Each is also concerned to relate his or her approach to human valuing life and action A critical appraisal of their work shows that none provides a sufficient basis for an intellectually and religiously adequate theological ethics but that each contributes elements necessary to the articulation of such an ethics within the Protestant Christian tradition as it confronts the religious and intellectual challenges of today's world

The Religion of the Landless Daniel L. Smith-Christopher, 2015-01-14 Through brilliant new interpretations of biblical exiles Daniel Smith Christopher shows their experience as the most apt model for the Church as witnesses for the peace and justice of God in a strange land

Early Responses to Hume's Writings on Religion James Fieser, 2005-03-01 David Hume probably had a greater impact on the field of philosophy of religion than any other single philosopher These volumes collect responses to Hume's writings on religion published during his life and posthumously The set covers a wide range of the replies Hume's writings provoked including contributions by Philip Skelton William Adams Thomas Rutherford William Warburton Anthony Ellys John Douglas John Leland Thomas Stona Voltaire George Campbell Herman Andrew Pistorius Duncan Shaw William Samuel Powell Thomas Hayter Joseph Milner William Paley Charles Moore Richard Joseph Sullivan John Hey Samuel Vince Lord Brougham and Thomas De Quincey Most items appear here for their first time since their original publication and are included in their

entirety Includes many previously undocumented critical discussions of Hume on religious writings Includes three German book reviews translated for the first time Newly typeset and annotated with introductions Part of Early Responses to Hume Series now available in paperback **William L. Rowe on Philosophy of Religion** William L. Rowe, Nick

Trakakis, 2017-05-15 William Rowe is one of the leading thinkers in contemporary philosophy of religion Although he is best known for his contributions to the problem of evil he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion He has for example written extensively on the existentialist theologian Paul Tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of God His work in these areas is distinguished by its clarity rigour originality and sensitivity towards the claims of his theistic opponents Indeed Rowe's work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s The present collection brings together for the first time Rowe's most significant contributions to the philosophy of religion This diverse but representative selection of Rowe's writings will provide students professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich the problem of evil divine freedom arguments for the existence of God religious experience life after death and religious pluralism **The Covid Pandemic and the World's Religions** George D. Chryssides, Dan

Cohn-Sherbok, 2023-06-15 Believers from a variety of faith communities were asked to assess how the Covid pandemic has affected their faith The anthology collects their responses to key questions such as How does your faith explain why such events occur How has it affected your religious practices What changes has it necessitated What differences might we expect once the pandemic is over What have we learned from it Two exponents of each major religion and a number of minority faiths comment on these issues combined with a concluding essay by the editors assessing the overall impact of the pandemic on religion worldwide Faiths explored include Jewish Christian Islamic Hindu Buddhist Shinto Sikh Baha'i Jain African Traditional Religion Zoroastrian Unitarian Jehovah's Witnesses and Christian Science *Indian Philosophy of Religion* R.W. Perrett, 2012-12-06 With a few notable exceptions analytical philosophy of religion in the West still continues to focus almost entirely on the Iudaeo Christian tradition In particular it is all too customary to ignore the rich fund of concepts and arguments supplied by the Indian religious tradition This is a pity for it gratuitously impoverishes the scope of much contemporary philosophy of religion and precludes the attainment of any insights into Indian religions comparable to those that the clarity and rigour of analytic philosophy has made possible for the Iudaeo Christian tradition This volume seeks to redress the imbalance The original idea was to invite a number of Indian and Western philosophers to contribute essays treating of Indian religious concepts in the style of contemporary analytical philosophy of religion No further restriction was placed upon the contributors and the resulting essays all previously unpublished exhibit a diversity of themes and approaches Many arrangements of the material herein are doubtless defensible The rationale for the one that has been adopted is

perhaps best presented through some introductory remarks about the essays themselves **The Moral Interpretation of Religion** Peter Byrne,1998 The Moral Interpretation of Religion provides a critical examination of the traditional attempt to interpret religion in moral terms alone He assesses historical attempts to reason directly from the basis of morality to the existence of a personal God *African Religious Research* ,1973 **Understand Philosophy Of Religion: Teach Yourself (McGraw-Hill Edition)** Mel Thompson,2010-05-28 This book is for anyone wanting to understand what religion is really about Exploring all the key principles upon which religion is based and setting out the arguments for and against belief in a clear accessible style it examines religion against current issues such as terrorism evolution and our multi cultural society NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author s many years of experience TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer understanding of psychology FIVE THINGS TO REMEMBER Quick refreshers to help you remember the key facts TRY THIS Innovative exercises illustrate what you ve learnt and how to use it **Religion in Life and Society** Michael Keene,2002-08-31 This textbook covers the GCSE Religious Studies course for EDEXCEL A Religion in Life and Religion in Society
