to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments viz the distribution of constellations in the Zodiacal belt which is divided into twelve Signs and the planetary hierarchy through the method of calculating the ascendant and other houses of a natal chart assessment of the strengths influences aspects affliction mutual relations etc of the planets to the final stage of reading the brighter and darker sides of the subject's life his chances of success and failure their periods ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. In this book an attempt has been made to give a good account of the science of astrology with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist helpless automation in the hands of a merciless Fate. It should on the other hand help him to take to self exertion and self help. This hoary lore according to the author is to be practised not for selfish ends but to guide the needy and the distressed to remove the cause of their suffering and to turn their attention towards God.
