Interpretación de los Números Danilo Antonio Dal Farra, 2019-02-15 El estudio y análisis de los números y su comportamiento es desde mi punto de vista una filosofía muy particular y específica sobre cómo funciona el macro y microcosmos ya que los estudios de estos últimos revelan comportamientos análogos a los números En lo personal estoy utilizando la numerología como análisis filosófico para comprender el comportamiento humano ya que me revela conocimiento sobre la mente y su origen que por cierto es el espíritu en sus interrelaciones con el cuerpo humano y el medio ambiente donde éste se desenvuelve a través de la mente y su origen Universidad: Genesis Y Evolucion, **Contra las Musas de la Ira** Jesús G. Maestro, 2014-06-18 La interpretación literaria de las últimas décadas refleja ante todo un agotamiento de la posmodernidad La crítica a la metamorfoseada herencia de la Ilustración no ofrece nada nuevo desde hace lustros La teoría literaria difundida durante los últimos años se manifiesta como un estertor de la retórica posmoderna que nos sitúa una y otra

vez en el mismo callejón sin salida Las musas de la ira parecen haber conducido la investigación sobre literatura cultura problemas intelectuales y políticos hacia una guerra ideológica contra la imagen de Occidente y contra las Ideas de Ciencia y Razón que a día de hoy es ya completamente improductiva El problema de los falsos problemas es que exigen soluciones también falsas A partir del Materialismo Filosófico construido por el filósofo español Gustavo Bueno este libro expone una nueva y diferente Teoría de la Literatura de naturaleza racionalista científica y dialéctica cuyo fin es la interpretación de las Ideas objetivadas formalmente en los materiales literarios autor obra lector y transductor La Teoría de la Literatura ser en suma el conocimiento científico y racional de estos materiales literarios Y su fin es demostrar que la Literatura es inteligible como obra que brota de la razón humana que se abre camino hacia la libertad a través de la lucha y el enfrentamiento dialéctico y que se desarrolla a través de un proceso comunicativo de dimensiones históricas geográficas y políticas

La evolución de la historia Valentín Letelier,1900 *La evolución mística* Juan González Arintero,1908 *El cambio como fundamento del mundo* Alberto Vázquez Bragado,2013-01-17 Esta pequeña obra pretende desarrollar una hipótesis filosófica donde el cambio continuo se constituye en la auténtica esencia y fundamento del Universo del Mundo y de la Existencia de los seres vivos al mismo tiempo que intenta conseguir una síntesis de todo lo relacionado con dicho Mundo de su paulatino desarrollo en el contexto del tiempo y el espacio Para explicar lo anterior se realiza un amplio recorrido por la historia de la ciencia y del conocimiento hasta nuestros días y hasta los más recientes logros de la astrofísica la biología la genética la historia de la ciencia la sociología la psicología y la filosofía Todo ello de una forma sencilla y clara para que pueda llegar al gran público que solo necesita una cosa tener ganas e ilusión por conocer mejor este mundo que nos pueda dar respuestas a cuestiones tan importantes y trascendentales de qué cómo y por qué a la vez que pueda servir para ver las cosas de otra forma y actuar de manera más lógica y humana Reunir todo ello en un solo texto de forma global puede ser bastante difícil sobre todo en un mundo de especialistas pero hemos de recordar que los antiguos filósofos también hacían lo mismo La ciencia y el conocimiento es global dividir la ciencia es una cuestión establecida para poder profundizar más en cada área As tenemos las Matemáticas la Física la Historia la Filosofía etc pero un pensador ha de ser alguien capaz de pensar globalmente sobre las distintas cuestiones del Mundo Otra cuestión que aborda el texto es la búsqueda de una Sociedad más justa y equilibrada en relación a los grandes avances tecnológicos que permitan mantener los valores éticos y morales como deber a corresponder a una sociedad de seres inteligentes
