Evolution Fact Or Fiction:

Evolution - Fact or Fiction? Nicholas Nurston, 2012-05-15 This book sets out to provide answers to the following questions Why are we here Were we meant to die and what happens to us when we do Is there a supreme intelligent energy source in the universe able to determine such things People of all cultures have posed these questions for millennia Why are we so different from all other creatures Even a well known professor and ardent evolutionist acknowledged man has indeed unique qualities

Evolution Gene Keith, Tuelah Keith, 2014-06-28 Why should Christians concern themselves with the theory of evolution or intelligent design After all if we believe God created everything what difference does it make if He created the world instantly or used the process of evolution to develop everything gradually over long ages The theory of evolution is so widely accepted today because it is the only theory which can be legally taught in our public school system which is a politically protected monopoly We believe both true Science and the Bible support Intelligent Design The purpose of this report is to examine the Theory of Evolution and consider the scientific evidence against it We report You decide

Evolution Edward Conway Wren, 1936 Evolution Fact or Fable? J. Robert Kirk J.D., 2022-06-24 This book distills twenty five plus years of personal study done by a Harvard Law trained trial attorney to determine whether Darwin s big idea the notion that more complex species evolved from more simple ancestors is supported by the scientific evidence Spoiler alert it is not Yet most Americans have been taught to believe that Darwin s theory has been proven beyond all reasonable doubt Sadly most people do not have nearly enough time to do the reading and study necessary to understand that this belief is false This book changes all that It is unique in that it presents technical information from more than a dozen important books in a form that is both brief and easily understood Readers can learn a series of decisive truths about Darwin s big idea in just a few hours truths that may well take them completely by surprise
