*The Evolution of the Monastic Ideal from the Earliest Times Down to the Coming of the Friars* Herbert B. Workman,2017-10-23 Excerpt from The Evolution of the

Monastic Ideal From the Earliest Times Down to the Coming of the Friars A Second Chapter in the History of Christian

Renunciation The reader will notice that I have called this study A Second Chapter in the History of Christian Renuncia tion

Some explanation is due for this sub title Some ten years ago in the enthusiasm of youth and ignorance I set out to write a

short history of Christian Renuncia tion intending if I remember rightly to compress it into one volume But as I wrote the

matter grew and I was driven to alter my plans In August 1906 I published a First Chapter in the History of Renuncia tion 1

in a book entitled Persecution in the Early Church The favour with which critics of all schools in di erent countries received

this work led me to hope that a similar welcome might be given to a further instalment of the original scheme After six years

of work sadly broken by the ever increasing pressure of official duties during the most part of which the manuscript has lain

upon my desk oftentimes alas Reproaching me for my unavoidable neglect I have ventured to publish A Second Chapter in

the History of Christian Re nunciation If it meets from the critic the favour which was bestowed upon my Persecution in the

Early Church I shall feel that the delay has not been in vain It has certainly enabled me to make use of some valu able works

oi but recent publication The Third Chapter of my original design the history of early missions will shortly be published in an

abbreviated form by the Student Volunteer Christian Union About the Publisher Forgotten Books publishes hundreds of

Fifteenth Century Carthusian Reform Dennis D. Martin, 1992 Fifteenth Century Carthusian Reform argues that monastic theology offers a medieval Catholic paradigm distinct from the scholastic theology that has been the conventional source for medieval oriented interpretations of Renaissance and Reformation It is based on thorough study of the manuscript record Nicholas Kempf ca 1415 1497 taught at the University of Vienna before becoming the head of Carthusian monasteries in rural Austria and Slovenia Faced with calls for reform in church and society he placed his confidence in the patristic Christian idea of reform the reform of the image of God in the human person This contemplative monastic idea of reform depended on authoritative structures especially the monastic rule and rational yet divinely inspired discernment by a spiritual director What seemed like simpleminded submission to monastic structures was actually a way to avoid relying on human effort for salvation By returning to one's true self the image of God one opened oneself up for genuine social relationships To activist reformers whether adherents of medieval scholasticism Renaissance humanism or modern Enlightenment this monastic idea of reform has seemed escapist backward looking and womanish Monks accepted these labels but read them as signs of hidden strength This book attempts to read through monastic lenses
