The Evolving Pacific Basin in the Global Political Economy Cal Clark, Steve Chan, 1992 **The Evolving Pacific Basin in the Global Political Economy** Steve Chan, Cal Clark, 1992 Challenging and revising traditional perspectives with new evidence this collection addresses the new international role of the Pacific Basin nations and the political and economic forces that are influencing their growth and stability Foreign Direct Investment in a Changing Global Political Economy Steve Chan, 2016-07-27 This book examines foreign direct investment in a changing world economy It offers case studies of this investment in different national and industrial contexts Firms and countries have encountered mixed results in using this investment to further their foreign leverage Conversely potential host countries have faced different opportunities and constraints in attracting or utilizing foreign capital for their development Although some countries have been relatively successful most do not appear to be well positioned to take advantage of the ongoing processes of globalization of national economies Regionalization and Globalization in the Modern World Economy Alex E. Fernandez Jilberto, Andre Mommen, 2002-01-22 This collection explores the importance of regionalization and globalization to the world economy particularly questioning whether the world economy is characterized by increasing regionalization rather than globalization International contributors explore the processes in the Pacific area the Americas Africa and Europe and make an important contribution to current debates in development economics **Regionalization and Globalization in the Modern World Economy** Alex E. Fernández Jilberto, André Mommen, 2017-03-16 Originally published in 1998 This collection of outstanding essays explores the importance of regionalization and globalization to the world economy International contributions explore the process of regionalization in the Pacific Area The Americas Africa and Europe and question whether the world economy is characterized by increasing regionalization rather than globalization The book is an excellent contribution to debate on development economics It investigates how the processes of globalization and regionalization driven by liberalization of trade and capital markets weaken nationally established monopolies and protected industries and it looks at the challenge to Third World nations and the countries of the former socialist bloc **Twenty-First Century World Order and the Asia Pacific** J. Hsiung, 2001-08-10 After examining the global system s political volatility at the dawn of the new millenium the book looks at how some of the identifiable system wide trends e g globalization democratization fragmentation etc may find repercussions in the Asia Pacific The book also addresses the question of comprehensive security in comparison with other regions in a wide range of areas subsuming economic security geoeconomics environmental security ecopolitics and human security In addition the book recognizes the idiosyncrasies of the region such as the defensiveness of most Asian governments toward the protection of their financial markets against external forces following the regional financial crisis of the late 1990s **Political Booms** Lynn T. White, 2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise

of middle OC classesOCO promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book OCo as will students of the West whose methods have become parochial
