Pacific Island Nations Luella Sue Christopher,1990 *State* ,1989 **U.S. Strategic Alternatives in a Changing**

Pacific Jonathan D. Pollack, James A. Winnefeld, 1990 This report summarizes a review of U S strategic planning issues in the Pacific basin The authors use an approach that emphasizes 1 preemptively defusing potential shocks that could upset what would otherwise be positive trends 2 maintaining regional stability thereby making it unnecessary for Japan China Korea or any other state to appreciably expand its military capabilities and to set off a destabilizing regional arms competition 3 increasing the efficiency with which the United States pursues presence and power projection roles 4 encouraging regional aspirations by reducing direct U S oversight of regional security and reducing troublesome forms of presence and 5 improving the coordination of the political economic and military dimensions of national security policy The authors conclude that the United States will continue to play a critical regional security role in the future albeit a changing one instead of containment the United States will focus more on maintaining its presence and stability in the region

Authoritarian Populism in Malaysia A. Munro-Kua, 1996-11-13 Socio economic and political issues are dealt with selectively within a chronological historical framework covering the dramatic colonial impact of 1940 60 until the present day The state is examined from the point of view of social class as well as communalism to explain the dominance of the ruling coalition over the 37 years since independence The author argues that authoritarian populism is the concept that best fits the apparent paradox of an enduring regime via the ballot box and the extensive restrictions on the scope of democracy particularly through the repressive apparatus of detention without trial The underlying theme is a critique and explanation of Malaysia s human rights record

Shaping China's Future In World Affairs Robert G Sutter, 2019-06-26 This book considers Chinese foreign policy and China s future role in world affairs in the context of the country s recent past Robert Sutter shows that although it appears to be in U S interests for post Mao leaders to continue moving toward international norms a post Deng leadership backed by growing economic and military power and reflecting profound changes in China s economy and society could move

in markedly different directions Most foreign powers appear willing to accommodate China avoiding actions that could prompt a sharp shift in Chinese foreign policy but Sutter argues that current U S policy intrudes on so many issues that are particularly sensitive for Beijing and for China s future that it represents perhaps the most critical variable determining how China will position itself in world affairs Concluding that there is no guarantee the United States will use this influence wisely Sutter examines the uncertainty and unpredictability of U S foreign policy in the post Cold War environment that work against the creation of an effective U S policy toward China
