Moorey,1981 [Villain or Visionary?](#) SamuelR. Wolff,2017-07-05 R A S Macalister is an important but controversial figure in the history of Palestinian archaeology This volume celebrates the centennial of the publication of his excavations at Tel Gezer 1912 conducted under the auspices of the PEF This excavation was the most ambitious one of its time in the land yielding important architectural remains and thousands of artefacts including the well known Gezer Calendar The contributions of several eminent scholars reflect on the man and his work and also report on how his work influenced the understanding of the sites he excavated in Palestine all of which are currently being re investigated It is also richly illustrated with images from the PEF archives Evaluations of Macalister s work vary tremendously and are reflected here Many learnt from him others deplored his methods and record keeping As one contributor puts it an industrious archaeologist but an awful excavator and a man who was both admired and intensely disliked regarded as both a villain and a visionary But it is generally agreed that he is a figure who cannot be ignored and anyone interested in Palestinian archaeology will find a great deal to learn from this book **A Century of Excavation In Palestine** R. A. S. Macalister,1990 **A Century of Excavation in Palestine (Classic Reprint)** Robert Alexander Stewart Macalister,2017-12-12 Excerpt from A Century of Excavation in Palestine The book is not primarily intended for those who have devoted their lives to a special study of Semitics On this account it has been deemed advisable to spell Hebrew and other Semitic proper names in their popular form omitting the diacritic signs used to distinguish the peculiar sounds Of the Semitic languages For the same reason footnote references to authorities have been omitted but the reader who desires further information as to the various excavations here summarised will find a short bibliography at the end of the volume About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more

Excavations in Palestine Frederick Jones Bliss, 1902 **The Excavation of Gezer, 1902-1905 and 1907-1909** Robert Alexander Stewart Macalister, 1912 **A New Critical Approach to the History of Palestine** Ingrid Hjelm, Hamdan Taha, Ilan Pappé, Thomas L. Thompson, 2019-06-07

A New Critical Approach to the History of Palestine discusses prospects and methods for a comprehensive evidence based history of Palestine with a critical use of recent historical archaeological and anthropological methods This history is not an exclusive history but one that is ethnically and culturally inclusive a history of and for all peoples who have lived in Palestine After an introductory essay offering a strategy for creating coherence and continuity from the earliest beginnings to the present the volume presents twenty articles from twenty two contributors fifteen of whom are of Middle Eastern origin or relation Split thematically into four parts the volume discusses ideology national identity and chronology in various historiographies of Palestine and the legacy of memory and oral history the transient character of ethnicity in Palestine and questions regarding the ethical responsibilities of archaeologists and historians to protect the multi ethnic cultural heritage of Palestine landscape and memory and the values of community archaeology and bio archaeology and an exploration of the ideology of the land and its influence on Palestine s history and heritage The first in a series of books under the auspices of the Palestine History and Heritage Project PaHH the volume offers a challenging new departure for writing the history of Palestine and Israel throughout the ages A New Critical Approach to the History of Palestine explores the diverse history of the region against the backdrop of twentieth century scholarly construction of the history of Palestine as a history of a Jewish homeland with roots in an ancient biblical Israel and examines the implications of this ancient and recent history for archaeology and cultural heritage The book offers a fascinating new perspective for students and academics in the fields of anthropological political cultural and biblical history

The Excavations of Beth Shemesh, November-December 1912 Duncan MacKenzie, Shlomo Bunimovitz, Zvi Lederman, Nicoletta Momigliano, 2015-12-14 In 1909 the Scottish archaeologist Duncan Mackenzie Sir Arthur Evans s right hand man on the excavations of the legendary Palace of Minos at Knossos since 1900 was appointed Explorer of the Palestine Exploration Fund PEF From the spring of 1910 until December 1912 he was engaged in archaeological fieldwork in Palestine especially directing excavation campaigns at Ain Shems biblical Beth Shemesh an important site in the Shephelah of Judah at the crossroads of Canaanite Philistine and Israelite cultures Mackenzie published the results of his work in various issues of the Palestine Exploration Quarterly and Palestine Exploration Fund Annual Because of a financial dispute with the PEF however he never submitted a detailed publication of his very last campaign at Beth Shemesh

conducted in November December 1912 In 1992 Nicoletta Momigliano rediscovered Mackenzie s lost manuscript on his latest discoveries at Beth Shemesh which one of his nephews had kept for nearly 80 years at his old family home in the Scottish Highlands in the small village of Muir of Ord At about the same time Shlomo Bunimovitz and Zvi Lederman initiated new excavations at Beth Shemesh which considerably changed previous interpretations of the site This volume presents Mackenzie s detailed discussion of his last excavations at Beth Shemesh in the light of these more recent discoveries Although written over a century ago Mackenzie s manuscript deserves to be better known today it not only provides significant new information on this important site but also constitutes an intriguing historical document shedding light on the history of field archaeology and of biblical archaeology Moreover Mackenzie s pioneering approach to archaeological fieldwork and the significance of his finds can often be better appreciated today from the perspective of more recent developments and discoveries
