## **Excavations And Their Objects Freuds Collection Of Antiquity:**

Excavations and Their Objects Stephen Barker,1996-01-01 This is a collection of essays concerned with the thematic implications of Freud's deep interest in the art objects in his collection of antiquity Excavations and Their Objects Stephen Barker,1996-02-01 Sigmund Freud collected over two thousand pieces of art ranging from statuary to jars to seal rings to painted mummy bandages He prized this collection as much as anything else he owned seeing these works as pivotal exempla of the great civilizations out of which the best of the contemporary world had been fashioned with his collection as a personal School of Athens by which that great antiquity might be accessed The essays in this book focus on various aspects of Freud as a collector and aesthete and on the thematic and theoretical implications of his tastes and passions for art

Oedipus and the Sphinx Almut-Barbara Renger, 2024-05-31 When Oedipus met the Sphinx on the road to Thebes he did more than answer a riddle he spawned a myth that told and retold would become one of Western culture s central narratives about self understanding Identifying the story as a threshold myth in which the hero crosses over into an unknown and dangerous realm where rules and limits are not known Oedipus and the Sphinx offers a fresh account of this mythic encounter and how it deals with the concepts of liminality and otherness Almut Barbara Renger assesses the story s meanings and functions in classical antiquity from its presence in ancient vase painting to its absence in Sophocles s tragedy before arriving at two of its major reworkings in European modernity the psychoanalytic theory of Sigmund Freud and the poetics of Jean Cocteau Through her readings she highlights the ambiguous status of the Sphinx and reveals Oedipus himself to be a liminal creature providing key insights into Sophocles's portrayal and establishing a theoretical framework that organizes evaluations of the myth's reception in the twentieth century Revealing the narrative of Oedipus and the Sphinx to be the very paradigm of a key transition experienced by all of humankind Renger situates myth between the competing claims of science and art in an engagement that has important implications for current debates in literary studies psychoanalytic theory cultural history and aesthetics Shadow Sites Kitty Hauser, 2007-03-29 At certain times of the day at sunrise and sunset the outlines of prehistoric fields barrows and hill forts in the British landscape may be thrown into relief Such shadow sites best seen from above and captured by an airborne camera are both examples of and metaphors for a particular way of seeing the landscape At a time of rapid modernisation and urbanisation in mid twentieth century Britain an archaeological vision of the British landscape reassured and enchanted a number of writers artists photographers and film makers From John Piper Eric Ravilious and Shell guide books to photographs of bomb damage aerial archaeology and The Wizard of Oz Kitty Hauser delves into evocative interpretations of the landscape and looks at the affinities between photography as a medium to capture traces of the past as well as their absence **Literature in the Ashes of History** Cathy Caruth, 2013-12-23 These stories of trauma cannot be limited to the catastrophes they name and the theory of catastrophic history may ultimately be written in a language that already lingers in a time that comes to us from the other

side of the disaster Monastery, Monument, Museum Maurizio Peleggi, 2017-10-31 Ranging across the longue dur e of Thailand's history Monastery Monument Museum is an eminently readable and original contribution to the study of the kingdom's art and culture Eschewing issues of dating style and iconography historian Maurizio Peleggi addresses distinct types of artifacts and artworks as both the products and vehicles of cultural memory From the temples of Chiangmai to the Emerald Buddha from the National Museum of Bangkok to the prehistoric culture of Northeast Thailand and from the civic monuments of the 1930s to the political artworks of the late twentieth century even well known artworks and monuments reveal new meanings when approached from this perspective Part I Sacred Geographies focuses on the premodern era when religious credence informed the cultural alteration of landscape and devotional sites and artifacts including visual representation of the Buddhist cosmology were created Part II Antiquities Museums and National History covers the 1830s through the 1970s when antiquarianism and eventually archaeology emerged and developed in the kingdom partly the result of a shift in the elites worldview and partly a response to colonial and neocolonial projects of knowledge Part III Discordant Mnemoscapes deals with civic monuments and artworks that anchor memory of twentieth century political events and provide stages for both their commemoration and counter commemoration by evoking the country's embattled political present Monastery Monument Museum shows us how cultural memory represents a kind of palimpsest the result of multiple inscriptions reworkings and manipulations over time The book will be a rewarding read for historians art historians anthropologists and Buddhism scholars working on Thailand and Southeast Asia generally as well as for academic and general readers with an interest in memory and material culture Freud's India Alf Hiltebeitel, 2018-08-07 This book provides a suspenseful exploration of the conflictual relationship between Sigmund Freud and Girindrasekhar Bose the first president as of 1921 of the Indian Psychoanalytic Society and the most prominent promoter though also contester and complicator of Freudian ideas in South Asia from the 1920s to the 1940s Freud's Mahabharata Alf Hiltebeitel, 2018-08-06 Though Freud never overtly refers to the Mahabharata many of the Sanskrit epic s themes are illuminated by Freud s thought and conversely many incidents in the epic can be used to illustrate Freud's theories In Freud's Mahabharata Alf Hiltebeitel offers what he calls a pointillist introduction to a new theory about the Mahabharata based on Freud Freud's **Italian Journey** Laurence Simmons, 2006-01-01 Freud's Italian Journey takes the psychoanalytical texts of Freud on the visual arts and literature as its objects for analysis While the biographical figure of Freud appears throughout its pages it is not simply a psychobiographical reading of Freud his personal circumstances and their relationship to his texts Rather the processes of interpretation begun by Freud are turned on Freud himself thus eventually displacing and questioning his theoretical mastery Freud's Italian Journey also argues that Freud's interest in frequent journeys to and obsession with Italy profoundly shaped and informed his elaboration of psychoanalysis The volume organizes its material around the major Italian cities which were the destinations of Freud s travel and the sites of the artworks he examined Freud s many Italian holidays

were crucial for his self analysis and methodology but it is also argued here that his papers on Italian subjects must be read as texts marked by fascination and allurement crossed with anxiety and resistance inscribed by memory and forgetting Journeys to Italy heightened Freud's sense of the visual and it is contended that the visual dimension of Freud's writing is crucial to an understanding of his elaboration of the theory of psychoanalysis The relation between image and text is at the heart of Freud's analysis of works of art as he founds a critical methodology in which the two are interrelated image illustrating idea and idea needing to express itself in image but neither finally resolvable into the other Thus the argument of Freud's Italian Journey follows as its model the famous elaboration of the fort da game by Freud moving back and forth between Freud's life and his texts between psychoanalytical and philosophical systems between the written and the visual This leads to the broader conclusion that Freud might provide the key to a new practice of criticism and a new way of seeing The Future of Testimony Antony Rowland, Jane Kilby, 2014-06-20 Celebrating the and understanding visual images twentieth anniversary of the groundbreaking Testimony this collection brings together the leading academics from a range of scholarly fields to explore the meaning use and value of testimony in law and politics its relationship to other forms of writing like literature and poetry and its place in society It visits testimony in relation to a range of critical developments including the rise of Truth Commissions and the explosion and radical extension of human rights discourse renewed cultural interest in perpetrators of violence alongside the phenomenal commercial success of victim testimony in the form of misery memoirs and the emergence of disciplinary interest in genocide terror and other violent atrocities. These issues are necessarily inflected by the question of witnessing violence pain and suffering at both the local and global level across cultures and in postcolonial contexts At the volume s core is an interdisciplinary concern over the current and future nature of witnessing as it plays out through a new Europe post 9 11 US war torn Africa and in countless refugee and detention centers and as it is worked out by lawyers journalists medics and novelists The collection draws together an international range of case studies including discussion of the former Yugoslavia Gaza and Rwanda and encompasses a cross disciplinary set of texts novels plays testimonial writing and hybrid testimonies The volume situates itself at the cutting edge of debate and as such brings together the leading thinkers in the field requiring that each address the future anticipating and setting the future terms of debate on the importance of testimony Trauma in Contemporary Literature Marita Nadal, Mónica Calvo, 2014-03-26 Trauma in Contemporary Literature analyzes contemporary narrative texts in English in the light of trauma theory including essays by scholars of different countries who approach trauma from a variety of perspectives The book analyzes and applies the most relevant concepts and themes discussed in trauma theory such as the relationship between individual and collective trauma historical trauma absence vs loss the roles of perpetrator and victim dissociation nachtr glichkeit transgenerational trauma the process of acting out and working through introjection and incorporation mourning and melancholia the phantom and the crypt postmemory and multidirectional memory shame and the affects and the power of resilience to overcome

trauma Significantly the essays not only focus on the phenomenon of trauma and its diverse manifestations but above all consider the elements that challenge the aporias of trauma the traps of stasis and repetition in order to reach beyond the confines of the traumatic condition and explore the possibilities of survival healing and recovery Inside the Freud Museums Joanne Morra, 2017-12-11 Sigmund Freud spent the final year of his life at 20 Maresfield Gardens London surrounded by all his possessions in exile from the Nazis The long term home and workspace he left behind in Berggasse 19 Vienna is a seemingly empty space devoid of the great psychoanalyst s objects and artefacts Now museums both of these spaces resonate powerfully Since 1989 the Freud Museum London has held over 70 exhibitions by a distinctive range of artists including Louise Bourgeois Sophie Calle Mat Collishaw Susan Hiller Sarah Lucas and Tim Noble and Sue Webster The Sigmund Freud Museum Vienna houses a small but impressive contemporary art collection with work by John Baldessari Joseph Kosuth Jenny Holzer Franz West and Ilya Kabakov In this remarkable book Joanne Morra offers a nuanced analysis of these historical museums and their unique relationships to contemporary art Taking us on a journey through the site responsive artworks exhibitions and curatorial practices that intervene in the objects spaces and memories of these museums Joanne Morra offers a fresh experience of the history and practice of psychoanalysis of museums and contemporary art

Sites of Exchange Maurizio Ascari, Adriana Corrado, 2006 Crossing borders both physically and imaginatively is part of our nomadic postmodern identity but transcultural and transnational exchanges have also played a major role in the centuries long processes of hybridisation that helped to fashion the vast geographic political and imaginative container of diversity we call Europe This volume gathers together the work of scholars from several European countries in an attempt to encourage a collective reflection upon historical and often mythical locations and landscapes as well as upon the thresholds and faultlines that unite or separate them The issues the volume tackles are delicate and complex for the encounter of differences engenders both curiosity and suspicion and there is no easy way to create a new synthesis while respecting and promoting diversity However since Europe is inevitably a cultural and political entity in the making Europeans should embrace the great narrative of a utopian project uniting their efforts to work towards a civilisation that is grounded on plurality and openness Knossos and the Prophets of Modernism Cathy Gere, 2010-09-15 In the spring of 1900 British archaeologist Arthur Evans began to excavate the palace of Knossos on Crete bringing ancient Greek legends to life just as a new century dawned amid far reaching questions about human history art and culture With Knossos and the Prophets of Modernism Cathy Gere relates the fascinating story of Evans s excavation and its long term effects on Western culture After the World War I left the Enlightenment dream in tatters the lost paradise that Evans offered in the concrete labyrinth pacifist and matriarchal pagan and cosmic seemed to offer a new way forward for writers artists and thinkers such as Sigmund Freud James Joyce Giorgio de Chirico Robert Graves and Hilda Doolittle Assembling a brilliant talented and eccentric cast at a moment of tremendous intellectual vitality and wrenching change Cathy Gere paints an unforgettable portrait of the age of

concrete and the birth of modernism On Dangerous Ground Diane O'Donoghue, 2018-10-18 Winner of the 2019 Robert S Liebert Award established jointly by the Association for Psychoanalytic Medicine and the Columbia University Center for Psychoanalytic Training and Research In the final years of the 19th century Sigmund Freud began to construct evidence for the workings of an unconscious On Dangerous Ground offers an innovative assessment of the complex role that his encounters with visual cultures architecture objects from earlier cultural epochs antiquities paintings and illustrated books played in that process Diane O Donoghue introduces often using unpublished archival sources the ways in which material phenomena profoundly informed Freud's decisions about what would and would not constitute the workings of an inner life By returning to view content that Freud treated as forgettable as distinct from repressed O Donoghue shows us a realm of experiences that Freud wished to remove from psychical meaning These erasures form an amnesic core within Freud s psychoanalytic project an absence that includes difficult aspects of his life narrative beginning with the dislocations of his early childhood that he declared not worth remembering What is made visible here is far from the inconsequential surface of experience rather we are shown a dangerous ground that exceeds the limits of what Freud wished to include within his early model of mind In Freud's relation to visual cultures we find clues to what he attempted in crafting his unconscious to remove Handbook of Archaeological Theories R. Alexander Bentley, Herbert D. G. Maschner, Christopher Chippindale, 2009-09-16 This handbook a companion to the authoritative Handbook of Archaeological Methods gathers original authoritative articles from leading archaeologists on all aspects of the latest thinking about archaeological theory It is the definitive resource for understanding how to think about archaeology To the Collector Belong the Spoils Annie Pfeifer, 2023-02-15 To the Collector Belong the Spoils rethinks collecting as an artistic revolutionary and appropriative modernist practice which flourishes beyond institutions like museums or archives Through a constellation of three author collectors Henry James Walter Benjamin and Carl Einstein Annie Pfeifer examines the relationship between literary modernism and twentieth century practices of collecting objects From James s paper hoarding to Einstein s mania for African art and Benjamin's obsession with old Russian toys she shows how these authors literary techniques of compiling gleaning and reassembling constitute a modernist style of collecting that reimagines the relationship between author and text source and medium Placing Benjamin and Einstein in surprising conversation with James sharpens the contours of collecting as aesthetic and political praxis underpinned by dangerous passions An apt figure for modernity the collector is caught between preservation and transformation order and chaos the past and the future Positing a shadow history of modernism rooted in collection citation and paraphrase To the Collector Belong the Spoils traces the movement's artistic innovation to its preoccupation with appropriating and rewriting the past By despoiling and decontextualizing the work of others these three authors engaged in a form of creative plunder that evokes collecting s long history in the spoils of war and conquest As Pfeifer demonstrates more than an archive or taxonomy modernist collecting practices became a radical creative endeavor
