Gazetteer - United States Board on Geographic Names United States Board on Geographic Names,1955 Epic and Chronicle Brian Powell,1983 **Excavations at Dryslwyn Castle 1980-1995** Chris Caple,2017-12-02 Excavations at Dryslwyn between 1980 and 1995 uncovered a masonry castle founded in the late 1220s by Rhys Gryg for his son Maredudd ap Rhys the first Lord of Dryslwyn The first castle was a simple round tower and polygonal walled enclosure within which were constructed a kitchen prison and wood framed clay floored great chamber beside a great hall In the mid 13th century a second ward was added and the great chamber rebuilt in stone This castle was greatly expanded in the period 1283 87 by Rhys ap Maredudd the second and final Lord of Dryslwyn who built an Outer Ward and gatehouse He also rebuilt much of the Inner Ward adding an extra storey to the great hall and great chamber apartments and a chapel At the end of the 13th century a large three ward castle stretched along the eastern and southern edge of the hill while the rest of the hilltop was occupied by a settlement defended by a wall and substantial ditch with access through a gatehouse This castle and its associated settlement were besieged and captured in 1287 by an English royal army of over 11 000 men following damage inflicted by a trebuchet and mining of the walls Throughout the 14th century the English Crown garrisoned and repaired the castle supervised by an appointed constable before it was surrendered to Owain Glyn Dwr in 1403 During the early to mid 15th century the castle was deliberately walled up to deny its use to a potential enemy and it was subsequently looted and demolished By the late 13th century the castle had a white rendered and lime washed appearance creating a very dramatic and highly visible symbol of lordship Internally the lord s and guest apartments had decorative wall paintings and glazed windows Evidence from charred beams still in situ the sizes shapes and distribution of nails sheet lead slates and postholes recovered during excavation has enabled some of the wooden as well as masonry buildings to be reconstructed Waterlogged deposits had preserved a rich assemblage of seeds birds fish and animal bone which reveal evidence of the dining habits of Welsh lords their guests and household Of particular interest are the finds associated with the siege of 1287 which include a knop headed mace spearheads and armour piercing arrowheads which indicates that the longbow was the weapon of choice Damage and repairs to the castle walls correlate with historic accounts while three stone balls recovered by the excavation were undoubtedly thrown by the trebuchet recorded in contemporary accounts

Burgos in the Peninsular War, 1808-1814 C. Esdaile,P. Freeman,2014-12-15 For a full month in the autumn of 1812 the 2 000 strong garrison of the fortress the French had constructed to overawe the city of Burgos defied the Duke of Wellington In this work a leading historian of the Peninsular teams up with a leading conflict archaeologist to examine the reasons for Wellington s failure

Gazetteer of Colombia ,1988 **Gallinazo** Jean-Francois Millaire,Magali Morlion,2009-12-31 Over the last decades considerable effort has been directed towards the study of early complex societies of northern Peru and in recent years archaeologists have expressed a strong interest in the art and

archaeology of the Moche Lambayeque and Chimú societies Yet comparatively little attention has been paid to the earlier cultural foundations of north coast civilization the Gallinazo In the recent years however the work of a number of north coast specialists brought about a large quantity of data on the Gallinazo occupation of the coast but a coherent framework for studying this culture had yet to be defined The present volume is the result of a round table which gathered some thirty scholars from Europe and North and South America to discuss the Gallinazo phenomenon In fourteen chapters authors with different perspectives and backgrounds reconsider the nature of the Gallinazo culture and its position within north coast cultural history while addressing wider issues about the development of complex societies in this area and within the Andean region in general The contributions reveal a diversity of perspectives on north coast archaeology something that is likely to stimulate methodological and theoretical debates among Andeanists pre-Columbian specialists and New World archaeologists in general

Conceptual Issues in Modern Human Origins Research Geoffrey A. Clark, Catherine M. Willermet, While those who study human origins now agree that the evolution of modern human form extends back much further in time than the evolution of modern human behavior they disagree sharply as to how to interpret the substantive data Two fundamentally incommensurate interpretations of our origins the Replacement camp and the Continuity camp have now emerged out of pre-existing models and theories that go back to the last quarter of the 19th century This book contends that these positions are based on radically different biases and assumptions about what the remote human past was like The purpose of this volume is to examine those conceptual differences not to arrive at a consensus but rather to explore the reasons why a consensus might never be possible
