Estado y desarrollo económico Carlos Tello, 2007 **Un viaje por la historia económica de México (y sus crisis)**

Francisco Suárez Dávila, 2023-11-15 Esta obra relata la labor y el aporte de Francisco Suárez Dávila Ciudad de México 20 de abril de 1943 a la vida nacional Mientras lo hace nos cuenta algunas de las mayores crisis y logros que atraves el país en la segunda mitad del siglo xx e inicios del xxi Recorremos as los salones de la Universidad de Cambridge embajadas mexicanas la Organización para la Cooperación y el Desarrollo Económicos el Banco Obrero el Congreso de la Unión y la Secretaría de Hacienda entre otros lugares de primera importancia Como un viaje en el tiempo somos capaces de ver los aciertos y desaciertos el México que fue y el que pudo haber sido Como resultado de esas experiencias y perspectiva histórica hace un análisis del gobierno de la Cuarta Transformación y deriva propuestas válidas para lo que habrá de venir **El desarrollismo**

Elsa Margarita Gracida Romo, 2004 Entre 1950 y 1982 la industrialización se convierte en el objetivo fundamental de la economía mexicana Son los años en que el sector manufacturero se vuelve el eje del sistema Durante este periodo se impone en México una estructura económica social y política que al final se revelar incapaz de dar respuesta a los reclamos de distintos sectores de la sociedad En este trabajo Elsa M Gracida analiza el conjunto de problemas en este proceso cuyo conocimiento es indispensable para la comprensión de la realidad económica de nuestro país Elsa M Gracida es doctora en economía y profesora del posgrado en economía de la UNAM Entre sus libros publicados sobre el tema sobresalen Programa industrial de la Revolución y El siglo XX mexicano Un capítulo de su historia 1940 1982 Actualmente investiga acerca del pensamiento económico de México Crece o no crecer. Del estancamiento estabilizador al nuevo desarrollo Francisco Suárez Dávila, 2013-07-22 Por qué México no crece como lo hizo en el pasado Por qué parece estancado mientras Brasil India China o Japón avanzan con firmeza La etapa más exitosa de la historia económica de México va de 1934 a 1970 periodo en el que el país creció a un ritmo de 6% anual sin padecer crisis financieras La política económica responsable de este crecimiento ha sido denominada desarrollismo y la paternidad del modelo la disputan México y Japón A comienzos de los ochenta el desarrollismo fue sustituido por el modelo neoliberal Sin embargo ese modelo de política económica se encuentra en crisis en la actualidad Los países emergentes más exitosos China India y Brasil han retomado una estrategia desarrollista corrigiendo los defectos del pasado y adaptándola a las nuevas circunstancias mundiales México en contraste con su próspero pasado desarrollista lleva más de una década de muy bajo crecimiento producto de una política de estancamiento estabilizador Por ello el nuevo desarrollo o neodesarrollismo puede ser una buena opción de política económica La necesidad de realizar cambios para superar la crisis y retomar la ruta del crecimiento y el bienestar social así lo demanda **El desarrollismo**

This book explores the twists and turns in Argentina s modern economic history and the debates that raged there around a problem common to all former colonies how to achieve a level of economic growth for its population in a world characterized by unequal economic relations between the industrialized nations of the north and the commodity producers of the south This new perspective examines the history of ideas surrounding industrialization and economic development in Argentina drawing on a rigorous investigation of multiple sources It demonstrates Argentina s role as a laboratory for and disseminator of ideas that would eventually become the common property of all the developing world Influential thinkers such as Ra l Prebisch and Aldo Ferrer leading figures in twentieth century Latin American economic thought developed important ideas such as unequal international trade relations the promise and limits of Import Substitution Industrialization the role of the state in the development of a national capitalism These were the forerunners of similar concerns in other countries in Latin America and elsewhere in the world The book will be of interest to historians economists sociologists of economic development and related disciplines concerned with questions of global economic inequality **Trayectorias y encrucijadas de las teorías del desarrollo en América Latina** Guillén, Arturo et al., 2024-07-22

sale of the state airline to foreign capital Both processes were implemented by army officers Carlos Ib ez del Campo and Augusto Pinochet respectively It shows that LAN s corporate development was marked by the construction of a national aviation paradigm that albeit initially characterized by a clear definition of nationalism with the state as preeminent was far from static over time As from 1929 the role of the state airline as both a transport service provider and an instrument of public policy was subject to review This was due in part to Chile s political dynamics in the twentieth century in terms of matters such as the level of consensus dissent about the development model and the role of the state SOEs and the private sector in the economy It also reflected trends in the commercial airline industry globally technological advances and as from the 1970s pressures to liberalize the sector

Los setenta convulsionan el mundo. Irrumpe el presente histórico Hugo Fazio, 2014-09-01

El eje temático que atraviesa mis intereses investigativos se ha desplegado alrededor de dos asuntos que se encuentran entrelazados por una parte el diseño de una propuesta de historización del presente contemporáneo y por la otra el análisis del carácter global del mundo actual. O para decirlo en palabras más simples las preocupaciones por el presente y la globalidad representan dos facetas de una misma gran trama: el entendimiento y la explicación de las coordenadas fundamentales del presente contemporáneo a la luz del desarrollo histórico. Varios factores me han llevado a interesarme por este tema. Uno de ellos se encuentra en el convencimiento al que he llegado en torno a la necesidad de comprender aquello que el filósofo Marcel Gauchet entendía como la condición histórica de la contemporaneidad que se representa como una conciencia de la condición humana que impone la necesidad de comprender el despliegue del presente desde su trasiego en el tiempo. En efecto una observación rápida de ciertas situaciones conflictivas actuales: el problema ruso ucraniano en torno a Crimea pone en evidencia que la contemporaneidad está sobrecargada de historia pues el presente no representa únicamente lo actual dado que el presente tiene un espesor que está conformado de variados estratos históricos.

La odisea del desarrollo: América Latina entre Escila y Caribdis Carolina Lauxmann, Víctor Ramiro Fernández, 2023-04-03

La búsqueda del desarrollo ha sido una constante en los países de América Latina en general y en Argentina en particular desde mediados del siglo XX. Distintas estrategias se han implementado para avanzar en este objetivo pero los resultados han sido poco exitosos. El presente libro presenta un análisis de las diferentes estrategias de desarrollo desplegadas a lo largo de la historia en la región y de los límites que presentaron las mismas poniendo particular atención en la configuración del Estado y su forma de implicación. Reconoce durante el período examinado la conformación de estructuras estatales monstruosas con rasgos asimilables a Escila y Caribdis: dos monstruos marinos de la mitología griega que han atentado contra la posibilidad de impulsar un proceso de transformación estructural que sobre la base de un sector manufacturero de base endógena complejo y dinámico permita salir de posicionamientos periféricos. Destaca que estas configuraciones estatales no son resultado de un mal diseño institucional sino producto de disputas entre las distintas fuerzas sociales que operan en la escena socioeconómica y política. Por lo tanto plantea la importancia y presenta la necesidad de avanzar en la conformación de fuerzas sociales que tengan como objetivo configurar un aparato estatal que impulse el desenvolvimiento del sector manufacturero de un modo tal que habilite procesos de transformación estructural y viabilice el desarrollo de los países de la región.
