**Discovery of El Greco** Eric Storm, 2016-05-24 Originally published in Dutch and translated to Spanish for the fourth centenary celebration of the death of El Greco in 2014 this book is a comprehensive study of the rediscovery of El Greco seen as one of the most important events of its kind in art history The Nationalization of Culture versus the Rise of Modern Art analyses how changes in artistic taste in the second half of the nineteenth century caused a profound revision of the place of El Greco in the artistic canon As a result El Greco was transformed from an extravagant outsider and a secondary painter into the founder of the Spanish School and one of the principle predecessors of modern art increasingly related to that of the Impressionists due primarily to the German critic Julius Meier Graefe's influential History of Modern Art 1914 This shift in artistic preference has been attributed to the rise of modern art but Eric Storm a cultural historian shows that in the case of El Greco nationalist motives were even more important This study examines the work of painters art critics writers scholars and philosophers from France Germany and Spain and the role of exhibitions auctions monuments and commemorations Paintings and associated anecdotes are discussed and historical debates such as El Greco's supposed astigmatism are addressed in a highly readable and engaging style This book will be of interest to both specialists and the interested art public

**El Greco - The Cretan Years** Nikolaos M. Panagiotakes, translated by John C. Davis, 2016-12-05 Exploring all the available sources this study which until now was only available in Greek presents us with an account of El Greco's life up to the time he left Crete for Italy in 1567 at the age of twenty six already an accomplished professional painter Nikolaos Panagiotakes provides a thorough assessment of earlier research on Crete of the 16th century then goes on to present new conclusions on the life of El Greco deriving from the author's firsthand reading of Venetian archive material including questions relating to his birthplace family name religious affiliation and apprenticeship as a painter The evidence indicates that El Greco was an established professional master painter earlier than had previously been thought and also that he had a family before leaving Crete thus perhaps explaining why he did not later marry Jer nima de las Cuevas with whom he had a son in Toledo This work marks a valuable contribution to El Greco scholarship particularly in its thoroughly substantiated assessment of the evidence regarding the formative years in the life of El Greco one of the greatest of all European artists

**Sculpture Collections in Early Modern Spain** Kelley Helmstutler Di Dio, Rosario Coppel, 2016-04-01 In the past decade there has been a surge of Anglophone scholarship regarding Spain in the sixteenth and seventeenth centuries which has led to a reframing of the discourses around Spanish culture of this period

Despite this new interest in which painting in particular has been singled out for treatment a comprehensive study of sculpture collections and the status of sculpture in Spain has yet to be produced *Sculpture Collections in Early Modern Spain* is the first book to assess the phenomenon of sculpture collecting and in doing so it alters the previously held notion that Spanish society placed little value in this art form Di Dio and Coppel reveal that due to the problems and expense of their transport from Italy sculptures were in fact status symbols in the culture Thus they were an important component of the collections formed by the royal family cultivated noble collectors humanists and artists who had pretensions of high status This book is especially useful to specialists for its discussion of the typologies of collections and objects and of the mechanics of state gifts transport and collection display in this period An appendix presents extensive archival documentation most of which has never before been published The authors have uncovered hundreds of new documents about sculpture in Spain and new documentary evidence allows them to propose several new identifications and attributions Firmly grounded in extensive archival research *Sculpture Collections in Early Modern Spain* redefines the socio political and art historical importance of sculpture in early modern Spain Most importantly it entirely transforms our knowledge regarding the presence of sculpture in a wide range of Spanish collections of the period which until now has been erroneously characterized as close to non existent

*The Complete Paintings of El Greco, 1541-1614* José Gudiol, Greco, 1983 Includes 85 full color illustrations and 268 black and white illustrations Demonstrates the nature of El Greco's wayward and compelling art and reveals him as one of Europe's greatest painters

*The Pictorial Art of El Greco* Livia Stoenescu, 2025-10-01 The Pictorial Art of El Greco Transmaterialities Temporalities and Media investigates El Greco's pictorial art as foundational to the globalising trends manifested in the visual culture of early modernity It also exposes the figurative semantic and allegorical senses that El Greco created to challenge an Italian Renaissance centered discourse Even though he was guided by the unprecedented burgeoning of devotional art in the post Tridentine decades and by the expressive possibilities of earlier religious artifacts especially those inherited from the apostolic past the author demonstrates that El Greco forged his own independent trajectory While his paintings have been studied in relation to the Italian and Spanish school traditions his pictorial art in a global Mediterranean context continues to receive scant attention Taking a global perspective as its focus the book sheds new light on El Greco's highly original contribution to early Mediterranean and multi institutional configurations of the Christian faith in Byzantium Venice Rome Toledo and Madrid

*Creating the Cult of St. Joseph* Charlene Villaseñor Black, 2006-04-02 St Joseph is mentioned only eight times in the New Testament Gospels Prior to the late medieval period Church doctrine rarely noticed him except in passing But in 1555 this humble carpenter earthly spouse of the Virgin Mary and foster father of Jesus was made patron of the Conquest and conversion in Mexico In 1672 King Charles II of Spain named St Joseph patron of his kingdom toppling St James traditional protector of the Iberian peninsula for over 800 years from his honored position Focusing on the changing manifestations of Holy Family and St Joseph imagery in Spain and colonial

Mexico from the sixteenth through eighteenth centuries this book examines the genesis of a new saint's cult after centuries of obscurity In so doing it elucidates the role of the visual arts in creating gender discourses and deploying them in conquest conversion and colonization Charlene Villaseor Black examines numerous images and hundreds of primary sources in Spanish Latin Nahuatl and Otom She finds that St Joseph was not only the most frequently represented saint in Spanish Golden Age and Mexican colonial art but also the most important In Spain St Joseph was celebrated as a national icon and emblem of masculine authority in a society plagued by crisis and social disorder In the Americas the parental figure of the saint model father caring spouse hardworking provider became the perfect paradigm of Spanish colonial power Creating the Cult of St Joseph exposes the complex interactions among artists the Catholic Church and Inquisition the Spanish monarchy and colonial authorities One of the only sustained studies of masculinity in early modern Spain it also constitutes a rare comparative study of Spain and the Americas *The Genoese in Spain* Trevor J. Dadson, 1983 [Italian and Spanish Art, 1600-1750](#) Robert Enggass, Jonathan Brown, 1992 The Baroque period was crucial for the development of art theory and the advancement of the artistic academy This collection of primary sources brings this important period to life with significant documents and texts It conveniently assembles major texts which are otherwise available only in scattered publications The lives of leading artists Caravaggio El Greco among others are discussed by their contemporaries while Bellori Galileo Pascoli and others write on art theory and practice The documents provide fascinating glimpses of the period's artistic self image
