**Literature and Ethnicity in the Cultural Borderlands**, 2016-08-29 This volume stems from the idea that the notion of borders and borderlines as clear cut frontiers separating not only political and geographical areas but also cultural linguistic and semiotic spaces does not fully address the complexity of contemporary cultural encounters Centering on a whole range of literary works from the United States and the Caribbean the contributors suggest and discuss different theoretical and methodological grounds to address the literary production taking place across the lines in North American and Caribbean culture The volume represents a pioneering attempt at proposing the concept of the border as a useful paradigm not only for the study of Chicano literature but also for the other American literatures The works presented in the volume illustrate various aspects and manifestations of the textual border lands and explore the double voiced discourse of border texts by writers like Harriet E Wilson Rudolfo Anaya Toni Morrison Cormac McCarthy Louise Erdrich Helena Viramontes Paule Marshall and Monica Sone among others This book is of interest for scholars and researchers in the field of comparative

Rural Space in the Middle Ages and Early Modern Age Albrecht Classen, 2012-05-29

Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic
