**The Power of Huacas** Claudia Brosseder, 2014-07-01 Based on extensive archival research The Power of Huacas is the first book to take account of the reciprocal effects of religious colonization as they impacted Andean populations and simultaneously dramatically changed the culture and beliefs of Spanish Christians Winner Award for Excellence in the Study of Religion in the category of Historical Studies American Academy of Religion 2015 The role of the religious specialist in Andean cultures of the sixteenth seventeenth and eighteenth centuries was a complicated one balanced between local traditions and the culture of the Spanish In The Power of Huacas Claudia Brosseder reconstructs the dynamic interaction between religious specialists and the colonial world that unfolded around them considering how the discourse about religion shifted on both sides of the Spanish and Andean relationship in complex and unexpected ways In The Power of Huacas Brosseder examines evidence of transcultural exchange through religious history anthropology and cultural studies Taking Andean religious specialists or hechizeros sorcerers in colonial Spanish terminology as a starting point she considers the different ways in which Andeans and Spaniards thought about key cultural and religious concepts Unlike previous studies this important book fully outlines both sides of the colonial relationship Brosseder uses extensive archival research in Bolivia Chile Ecuador Peru Spain Italy and the United States as well as careful analysis of archaeological and art historical objects to present the Andean religious worldview of the period on equal footing with that of the Spanish Throughout the colonial period she argues Andean religious specialists retained their own unique logic which encompassed specific ideas about

holiness nature sickness and social harmony The Power of Huacas deepens our understanding of the complexities of assimilation showing that within the maelstrom of transcultural exchange in the Spanish Americas European paradigms ultimately changed more than Andean ones The Oxford Handbook of Borderlands of the Iberian World Danna Levin Rojo, Cynthia Radding Murrieta, 2019 This Handbook integrates innovative interdisciplinary approaches to the production of Iberian imperial borderlands in the Americas from southwestern U S to Patagonia and their connections to trade and migratory circuits extending to Asia and Africa In this volume borderlands comprise political boundaries spaces of ethnic and cultural exchange and ecological transitions *The Cambridge Handbook of Language Contact* Salikoko Mufwene, Anna Maria Escobar, 2022-06-30 Language contact the linguistic and social outcomes of two or more languages coming into contact with each other starts with the emergence of multilingual populations Multilingualism involving plurilingualism can have various consequences beyond borrowing interference and code mixing and switching including the emergence of lingua francas and new language varieties as well as language endangerment and loss Bringing together contributions from an international team of scholars this Handbook the second in a two volume set engages the reader with the manifold aspects of multilingualism and provides state of the art research on the impact of population structure on language contact It begins with an introduction that presents the history of the scholarship on the subject matter The chapters then cover various processes and theoretical issues associated with multilingualism embedded in specific population structures worldwide as well as their outcomes It is essential reading for anybody interested in how people behave linguistically in multilingual or multilectal settings **Sin and Confession in Colonial Peru** Regina Harrison, 2014-06-01 A central tenet of Catholic religious practice confession relies upon the use of language between the penitent and his or her confessor In the sixteenth and seventeenth centuries as Spain colonized the Quechua speaking Andean world the communication of religious beliefs and practices especially the practice of confession to the native population became a primary concern and as a result expansive bodies of Spanish ecclesiastic literature were translated into Quechua In this fascinating study of the semantic changes evident in translations of Catholic catechisms sermons and manuals Regina Harrison demonstrates how the translated texts often retained traces of ancient Andean modes of thought despite the didactic lessons they contained In *Sin and Confession in Colonial Peru* Harrison draws directly from confession manuals to demonstrate how sin was newly defined in Quechua lexemes how the role of women was circumscribed to fit Old World patterns and how new monetized perspectives on labor and trade were taught to the subjugated indigenous peoples of the Andes by means of the Ten Commandments Although outwardly confession appears to be an instrument of oppression the reformer Bartolom de Las Casas influenced priests working in the Andes through their agency confessional practice ultimately became a political weapon to compel Spanish restitution of Incan lands and wealth Bringing together an unprecedented study and translation of Quechua religious texts with an expansive history of Andean and Spanish transculturation Harrison uses the lens of confession to understand

the vast and telling ways in which language changed at the intersection of culture and religion *Mourning Remains* Isaias Rojas-Perez,2017-08-01 *Mourning Remains* examines the attempts to find recover and identify the bodies of Peruvians who were disappeared during the 1980s and 1990s counterinsurgency campaign in Peru's central southern Andes Isaias Rojas Perez explores the lives and political engagement of elderly Quechua mothers as they attempt to mourn and seek recognition for their kin Of the estimated 16 000 Peruvians disappeared during the conflict only the bodies of 3 202 victims have been located and only 1 833 identified The rest remain unknown or unfound scattered across the country and often shattered beyond recognition Rojas Perez examines how in the face of the state's failure to account for their missing dead the mothers rearrange senses of community belonging authority and the human to bring the disappeared back into being through everyday practices of mourning and memorialization *Mourning Remains* reveals how collective mourning becomes a political escape from the state's project of governing past death and how the dead can help secure the future of the body politic

**From Ashes to Text** Diego Falconí Trávez,2022-08-31 According to some chronicles of the Spanish Conquest the violent arrival of the Conquerors to the Andes in the sixteenth century led to sex dissident people who lived outside the dominant European cisheteropatriarchal model being burned at the stake This act burned more than the flesh it also charred practices ways of life and textualities leaving an emptiness and a trauma that would mark the future literatures of the Andean region This book cannot repair those pre sodomite texts and bodies It seeks instead to reconsider the value of the ash a metaphor that allows for a critical and contradictory reading of sexual dissidences in the Andean region in the twentieth century beyond both multiculturalism and the wake of a globalized LGBTI movement Through a comparative analysis and drawing on theoretical perspectives such as anticoloniality feminisms and cuir rather than queer theories the book aims to understand the value of a series of complex texts in which dissident subjectivities practices and desires help to broaden the understanding of the Andean Winner of the prestigious Casa de las Américas prize the book was praised by the jury for the paradoxical and provocative way that it struggles against the abyss of past destruction and reflects on the contribution of the Global South to the often uniformist thinking around the body and its intersections **Questions of Anthropology** Rita

Astuti,Jonathan Parry,Charles Stafford,2020-06-08 Anthropology today seems to shy away from the big comparative questions that ordinary people in many societies find compelling *Questions of Anthropology* brings these issues back to the centre of anthropological concerns Individual essays explore birth death and sexuality puzzles about the relationship between science and religion questions about the nature of ritual work political leadership and genocide and our personal fears and desires from the quest to control the future and to find one's true identity to the fear of being alone Each essay starts with a question posed by individual ethnographic experience and then goes on to frame this question in a broader comparative context Written in an engaging and accessible style *Questions of Anthropology* presents an exciting introduction to the purpose and value of Anthropology today Indianizing Film Freya Schiwy,2009-04-22 Latin American indigenous media

production has recently experienced a noticeable boom specifically in Bolivia Ecuador and Colombia Indianizing Film zooms in on a selection of award winning and widely influential fiction and docudrama shorts analyzing them in the wider context of indigenous media practices and debates over decolonizing knowledge Within this framework Freya Schiwy approaches questions of gender power and representation Schiwy argues that instead of solely creating entertainment through their work indigenous media activists are building communication networks that encourage interaction between diverse cultures As a result mainstream images are retooled permitting communities to strengthen their cultures and express their own visions of development and modernization Indianizing Film encourages readers to consider how indigenous media contributes to a wider understanding of decolonization and anticolonial study against the universal backdrop of the twenty first century

**Violence Against Women in Legally Plural settings** Anna Barrera, 2015-11-19 This book addresses a growing area of concern for scholars and development practitioners discriminatory gender norms in legally plural settings Focusing specifically on indigenous women this book analyses how they often in alliance with supporters and allies have sought to improve their access to justice Development practitioners working in the field of access to justice have tended to conceive indigenous legal systems as either inherently incompatible with women s rights or alternatively they have emphasised customary law s advantageous features such as its greater accessibility familiarity and effectiveness Against this background and based on a comparison of six thus far underexplored initiatives of legal and institutional change in Ecuador Peru and Bolivia Anna Barrera Vivero provides a more nuanced ethnographic understanding of how women navigate through context specific constellations of interlegality in their search for justice In so doing moreover her account of ongoing political debates and local struggles for gender justice grounds the elaboration of a comprehensive conceptual framework for understanding the legally plural dynamics involved in

the contestation of discriminatory gender norms      Food, Power, and Resistance in the Andes Alison Krögel, 2010-12-16

*Food Power and Resistance in the Andes* is a dynamic interdisciplinary study of how food's symbolic and pragmatic meanings influence access to power and the possibility of resistance in the Andes. In the Andes, cooking often provides Quechua women with a discursive space for achieving economic self-reliance, creative expression, and for maintaining socio-cultural identities and practices. This book explores the ways in which artistic representations of food and cooks often convey subversive meanings that resist attempts to locate indigenous Andeans and Quechua women in particular at the margins of power. In addition to providing an introduction to the meanings and symbolisms associated with various Andean foods, this book also includes the literary analysis of Andean poetry and prose as well as several Quechua oral narratives collected and translated by the author during fieldwork carried out over a period of several years in the southern Peruvian Andes. By following the thematic thread of artistic representations of food, this book allows readers to explore a variety of Andean art forms created in both colonial and contemporary contexts. In genres such as the novel, Quechua oral narrative, historical chronicle, testimonies, photography, painting, and film, artists represent Quechua cooks who utilize their access to food preparation and distribution as a tactic for evading the attempts of a patriarchal hegemony to silence their voices, desires, values, and cultural expressions. Whether presented orally, visually, or in a print medium, each of these narratives represents food and cooking as a site where conflict ensues, symbolic meanings are negotiated, and identities are re-constructed. *Food Power and Resistance* will be of interest to Andean Studies and Food Studies scholars and to students of Anthropology and Latin American Studies.

*An Overheated World* Thomas Hylland Eriksen, 2018-10-18 Although economic, cultural, and demographic changes are part and parcel of the modern world, changes in a number of areas have accelerated in the last quarter century, a period sometimes spoken of as the global information society, a world of liquid modernity, or of fully fledged global neoliberalism associated with deregulation, flexible accumulation, and financialisation. At a global level, some of the substantial areas where change has accelerated are apart from the spectacular spread of new information technology, tourism, foreign direct investment, urbanisation, resource extraction through mining, energy use, species extinction, displacement, and international trade. These and other changes are needless to say perceived and acted upon differently in different countries and localities, and in order to understand the implications of the present acceleration of history, they have to be explored locally. This book gives a compelling perspective on the contemporary overheated world, presenting ethnographic material from many countries and weaving the local and particular together with large-scale global acceleration. This book was first published as a special issue of *History and Anthropology*.

*Maritime Communities of the Ancient Andes* Gabriel Prieto, Daniel H. Sandweiss, 2019-12-02 The main purpose of this book is to evaluate the state of the art of the research on ancient maritime communities along the South American Pacific coastline. Using multidisciplinary approaches, this volume spans the earliest occupation in South America to the early years of the Spanish occupation.

**Watershed Politics and Climate Change in**

**Peru** Astrid B. Stensrud, 2021-07-20 This book travels to the heart of power inequality and injustice in water politics Drawing on extensive ethnographic fieldwork in Peru Astrid B Stensrud explores the impact of climate change and extractivist neoliberal policies including Integrated Water Resources Management IWRM a global paradigm that views water as a finite resource in need of management Engaging with the many different actors and entities participating in the constitution of the watershed from engineers bureaucrats and farmers to mountains springs and canals Stensrud shines light on different yet entangled water practices and water worlds and how both the watershed and our understanding of water itself have changed Challenging hegemonic understandings the book moves beyond conventional perspectives of political ecology and political economy to achieve a decolonial perspective In the Shadow of Melting Glaciers Mark Carey, 2010-04-29 Global climate change has triggered profound changes at the ground level and for real people This book illustrates in vivid detail how 25 000 Peruvian residents died from melting Andean glaciers Successful engineering efforts to prevent additional catastrophes simultaneously helped commodify glaciers erode local authority and unleash contested modernization agendas in the Andes

Microbes and Other Shamanic Beings César E. Giraldo Herrera, 2018-03-09 Shamanism is commonly understood through reference to spirits and souls However these terms were introduced by Christian missionaries as part of the colonial effort of conversion So rather than trying to comprehend shamanism through medieval European concepts this book examines it through ideas that started developing in the West after encountering Amerindian shamans Microbes and Other Shamanic Beings develops three major arguments First since their earliest accounts Amerindian shamanic notions have had more in common with current microbial ecology than with Christian religious beliefs Second the human senses allow the unaided perception of the microbial world for example entoptic vision allows one to see microscopic objects flowing through the retina and shamans employ techniques that enhance precisely these kinds of perception Lastly the theory that some diseases are produced by living agents acquired through contagion was proposed right after Contact in relation to syphilis an important subject of pre Contact Amerindian medicine and mythology which was treasured and translated by European physicians Despite these early translations the West took four centuries to rediscover germs and bring microbiology into mainstream science Giraldo Herrera reclaims this knowledge and lays the fundamentals for an ethnomicrobiology It will appeal to anyone curious about shamanism and willing to take it seriously and to those enquiring about the microbiome our relations with microbes and the long history behind them **Routledge Handbook of Entrepreneurship in Developing**
