MacLachlan, Jaime E. Rodriguez O., 2023-09-01 The Forging of the Cosmic Race challenges the widely held notion that Mexico's colonial period is the source of many of that country's ills The authors contend that New Spain was neither feudal nor pre capitalists as some Neo Marxist authors have argued Instead they advance two central themes that only in New Spain did a true mestizo society emerge

integrating Indians Europeans Africans and Asians into a unique cultural mix and that colonial Mexico forged a complex balanced and integrated economy that transformed the area into the most important and dynamic part of the Spanish empire The revisionist view is based on a careful examination of all the recent research done on colonial Mexican history The study begins with a discussion of the area s rich pre Columbian heritage It traces the merging of two great cultural traditions the Meso american and the European which occurred as a consequence of the Spanish conquest The authors analyze the evolution of a new mestizo society through an examination of the colony s institutions economy and social organization The role of women and of the family receive particular attention because they were critical to the development of colonial Mexico The work concludes with an analysis of the 18th century reforms and the process of independence which ended the history of the most successful colony in the Western hemisphere The role of silver mining emerges as a major factor of Mexico s great socio economic achievement The rich silver mines served as an engine of economic growth that stimulated agricultural expansion pastoral activities commerce and manufacturing The destruction of the silver mines during the wars of Independence was perhaps the most important factor in Mexico s prolonged 19th century economic decline Without the great wealth from silver mining economic recovery proved extremely difficult in the post independence period These reverses at the end of the colonial epoch are important in understanding why Mexicans came to view the era as a burden to be overcome rather than as a formative period upon which to build a new nation The Forging of the Cosmic Race challenges the widely held notion that Mexico s colonial period is the source of many of that country s ills The authors contend that New Spain was neither feudal nor pre capitalists as some Neo Marxist authors have argue *Birds and Beasts of Ancient Mesoamerica* Susan Milbrath, Elizabeth Baquedano, 2023-12-15 *Birds and Beasts of Ancient Mesoamerica* links Precolumbian animal imagery with scientific data related to animal morphology and behavior providing in depth studies of the symbolic importance of animals and birds in Postclassic period Mesoamerica Representations of animal deities in Mesoamerica can be traced back at least to Middle Preclassic Olmec murals stone carvings and portable art such as lapidary work and ceramics Throughout the history of Mesoamerica real animals were merged with fantastical creatures creating zoological oddities not unlike medieval European bestiaries According to Spanish chroniclers the Aztec emperor was known to keep exotic animals in royal aviaries and zoos The Postclassic period was characterized by an iconography that was shared from central Mexico to the Yucatan peninsula and south to Belize In addition to highlighting the symbolic importance of nonhuman creatures in general this volume focuses on the importance of the calendrical and astronomical symbolism associated with animals and birds Inspired by and dedicated to the work of Mesoamerican scholar Cecelia Klein and featuring imagery from painted books monumental sculpture portable arts and archaeological evidence from the field of zooarchaeology *Birds and Beasts of Ancient Mesoamerica* highlights the significance of the animal world in Postclassic and early colonial Mesoamerica It will be important to students and scholars studying Mesoamerican art history archaeology ethnohistory and zoology *Art of Aztec*

Cosmopolitanism in Mexican Visual Culture María Fernández, 2014-01-06 Since the colonial era Mexican art has emerged from an ongoing process of negotiation between the local and the global which frequently involves invention synthesis and transformation of diverse discursive and artistic traditions In this pathfinding book María Fernández uses the concept of cosmopolitanism to explore this important aspect of Mexican art in which visual culture and power relations unite the local and the global the national and the international the universal and the particular She argues that in Mexico as in other colonized regions colonization constructed power dynamics and forms of violence that persisted in the independent nation state Accordingly Fernández presents not only the visual qualities of objects but also the discourses ideas desires and practices that are fundamental to the very existence of visual objects Fernández organizes episodes in the history of Mexican art and architecture ranging from the seventeenth century to the end of the twentieth century around the consistent but unacknowledged historical theme of cosmopolitanism allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires expectations memories and ways of being in the world in short that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity

Guadalupe Mastache with that from previously unpublished finds and recently discovered contexts A unique chapter presents the technical analysis and replication of a pre Columbian tunic recovered in a cave site in Arizona at the northern margins of the Mesoamerican interaction sphere Thirteen articles on archaeological textiles from the central Andes include analysis of both textile assemblages preserved in museum collections and those recovered during recent fieldwork in archaeological sites of the Andean desert coast These include textile assemblages representing the Initial and Formative Periods Paracas and Nasca contexts the Middle Horizon diverse late Intermediate Period assemblages and emblematic Inca garments **In the Palace of Nezahualcoyotl** Eduardo de J. Douglas,2012-10-03 Around 1542 descendants of the Aztec rulers of Mexico created accounts of the pre Hispanic history of the city of Tetzaco Mexico one of the imperial capitals of the Aztec Empire Painted in iconic script picture writing the Codex Xolotl the Quinatzin Map and the Tlohtzin Map appear to retain and emphasize both pre Hispanic content and also pre Hispanic form despite being produced almost a generation after the Aztecs surrendered to Hern n Cort s in 1521 Yet as this pioneering study makes plain the reality is far more complex Eduardo de J Douglas offers a detailed critical analysis and historical contextualization of the manuscripts to argue that colonial economic political and social concerns affected both the content of the three Tetzocan pictorial histories and their archaizing pictorial form As documents composed by indigenous people to assert their standing as legitimate heirs of the Aztec rulers as well as loyal subjects of the Spanish Crown and good Catholics the Tetzocan manuscripts qualify as subtle yet shrewd negotiations between indigenous and Spanish systems of signification and between indigenous and Spanish concepts of real property and political rights By reading the Tetzocan manuscripts as calculated responses to the changes and challenges posed by Spanish colonization and Christian evangelization Douglas s study significantly contributes to and expands upon the scholarship on central Mexican manuscript painting and recent critical investigations of art and political ideology in colonial Latin America **The Aztecs** Michael E. Smith,2013-03-01 The Aztecs brings to life one of the best known indigenous civilizations of the Americas in a vivid comprehensive account of the ancient Aztecs A thorough examination of Aztec origins and civilization including religion science and thought Incorporates the latest archaeological excavations and research into explanations of the Spanish conquest and the continuity of Aztec culture in Central Mexico Expanded coverage includes key topics such as writing music royal tombs and Aztec predictions of the end of the world **Diálogos amerindios sobre historia, territorio y medio ambiente** María Isabel Martínez Ramírez,F. Navarrete Linares,Edith Llamas Camacho,Citlali Rodríguez Venegas,Juan Vicente Iborra Mallent,Myrna Dolores Valencia Bando,Cynthia Radding ,Julien Machault ,Hilda del Carmen Landrove Torres ,Zaira Alhelí Hipólito López,Josefa Sánchez Contreras,Julio César Gallardo Vásquez,Izaque João,Spensy Pimentel ,Tatiane Klein,Divino Tserewahú,Bernard Belisário,2024-07-28 Las historias amerindias contemporaneas no pueden enunciarse en singular Su multiplicidad y pluralidad no puede reducirse a un simple contraste con la historia disciplinar o con las historias estatales Pero qu sucede con la historia y en consecuencia con el presente y los posibles futuros

cuando se multiplican las perspectivas y los puntos de enunciación los relatos y la comprensión del tiempo cuando la poblamos de diálogos contradictorios y en disputa o cuando ocupamos un lugar en ese diálogo. Cules son los efectos analíticos y sociales de construir con las poblaciones amerindias las preguntas los métodos los instrumentos de investigación la definición de las fuentes las cronologías y otras herramientas de estudio para la historia. En los capítulos aquí reunidos queda claro que al producir conocimiento histórico con personas que poseen otras epistemologías y otras ontologías se reconfiguran las condiciones y las relaciones de producción del conocimiento reubicando a los estudiosos formados en la disciplina histórica como un sujeto más de la enunciación en el debate por el pasado. Como un acto de rebelión este libro es una apuesta colectiva y pragmática que busca multiplicar las historias en donde parafraseando a Ursula K Le Guin en lugar de héroes encontremos personas.
