Toward a New Mission Statement for Canadian Fiscal Federalism Harvey Lazar, 2000 Canada State of the Federation 1999 2000 identifies and explains major threads in Canadian fiscal federalism Set against the cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty session on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999

suggest that Ottawa has not lost all of its interest in social outcomes. It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces. The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization.

The Territorial Politics of Welfare Nicola McEwen, Luis Moreno, 2008-08-28 This is a major contribution to our understanding of European integration. It analyzes for the first time in a highly systematic fashion European integration as transnational political society formation in a common political space. Four conceptual chapters discuss different approaches to studying European transnationalization including networks and socialization. Six empirical chapters provide in depth studies of different aspects of this process and policy fields ranging from European party networks and university collaboration to informal economic governance in the Eurozone and police collaboration across borders. This book redresses the excessive concentration in EU research on supranational policy making and inter state bargaining. It will be of great interest to political scientists as well as contemporary historians, sociologists and lawyers.

Child Poverty and the Canadian Welfare State Shereen Ismael, 2006-11-15 In 2005 1.2 million children in Canada were living below the poverty level. This represents a 20 percent increase since 1989, the year that the federal government unanimously passed a resolution to eliminate child poverty by 2000. To understand the state of children's welfare *Child Poverty and the Canadian Welfare State* reviews Canadian social policy reform and discovers that the welfare of poor children is a casualty of the war on the welfare state launched by opposing political ideologies. This study surveys the shift from entitlement to charity from the perspective of social policy reform.

How Ottawa Spends, 2012-2013 G. Bruce Doern, Christopher Stoney, 2012-09-01 Continuing its tradition of current exemplary scholarship the 2012-13 edition of *How Ottawa Spends* casts a critical eye at national politics, priorities and policies with an emphasis on the Conservative majority's mandated austerity measures and budget cutting strategies. Leading scholars from across Canada examine a new era of majority government and a transformed political opposition both in Parliament and in provincial politics. Several closely linked political policy and spending realms are examined including corporate tax reform, Conservative Party social policy, regional economic development, science and technology investments, Canada-US perimeter security and trade agreements, the rise and fall of regulatory regimes and Canadian health care. Related governance issues such as federal infrastructure program impacts, the Harper government's Economic Action Plan impacts in Ontario and community colleges in the federal innovation agenda are also discussed in detail.

Privatization and the Welfare State Sheila B. Kamerman, Alfred J. Kahn, 2014-07-14 Looking at the theory and practice of privatization in its broadest manifestations, the contributors to this volume scrutinize the combination of public and private initiatives that makes up the present U.S. social sector. As they discuss privatization both in production and delivery of services and in financing, they reveal complexities that have been ignored in recent ideological arguments. This book, while warning about

political misuse of privatization offers an unusually rigorous definition and theory of the concept and presents a number of case studies that show how public and private sectors variously cooperate compete or complement one another in social programs and how various systems have accommodated to the privatization rhetoric that has come to the fore under the Reagan administration The contributors are Marc Bendick Jr Evelyn Z Brodtkin Arnold Gurin Alfred J Kahn Sheila B Kamerman Michael O Higgins Martin Rein Richard Rose Paul Starr Mitchell Sviridoff and Dennis Young Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Money in Their Own Name Wendy McKeen, 2004-01-01 In her analysis McKeen underscores this persistent familism that has been written and rewritten into Canadian social policy thereby denying women's autonomy as independent claims makers on the state
