Regionalism in Modern Europe combines both geographical and thematic approaches to examine the origins and development of regional movements and identities in Europe from 1890 to the present. A wide range of internationally renowned scholars from the USA, the UK and mainland Europe are brought together here in one volume to examine the historical roots of the current regional movements and to explain why some of them (Scotland, Catalonia and Flanders among others) evolve into nationalist movements and even strive for independence while others (Brittany, Bavaria) do not. They look at how regional identities through regional folklore, language, crafts, dishes, beverages and tourist attractions were constructed during the 20th century and explore the relationship between national and subnational identities as well as regional and local identities. The book also includes 7 images, 7 maps and useful end of chapter further reading lists. This is a crucial text for anyone keen to know more about the history of the topical and at times controversial subject of regionalism in modern Europe.

Asymmetry, Multinationalism and Constitutional Law Maja Sahadžić, 2020-09-02. This book examines the link between constitutional asymmetry and multinationalism and the effects asymmetry produces on legitimacy and stability in federal and quasi-federal systems. This is done through a structured and exhaustive comparative analysis covering states in Africa, America, Asia and Europe. Contrary to traditional federal theory, contemporary scholars have linked constitutional asymmetry with multinational federal systems by presenting asymmetry as a mechanism for diversity management. This book offers insights on whether and how constitutional asymmetry is linked with multinationalism and looks into the socio-economic, cultural, ideological, historical and separatist factors that support the emergence of asymmetries. The work also provides a legal analysis of whether constitutional asymmetry is a condition or a threat to legitimacy and stability in federal systems. The book will be essential reading for academics, researchers and policy makers in law and political science interested in the fields of constitutional law, federal theory, multinationalism and minorities.
