Federalism Democracy And Labour Market Policy In Canada:

Federalism, Democracy and Labour Market Policy in Canada Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, Queen's University (Kingston, Ont.). School of Policy Studies, 2000 In *Federalism Democracy and Labour Market Policy in Canada* the authors provide comprehensive assessments of the current state of governance within the areas of income support for the unemployed active labour market measures and youth policy The analysis focuses on how the current state of governance reflects a combined commitment to specific social policy goals principles of federalism and democratic oversight of the policy making process This volume sheds new light on the complex nature of the intergovernmental regimes governing labour market policy It makes recommendations concerning how different governance structures might better serve both Canadians and the federation

Federalism, Democracy and Labour Market Policy in Canada Thomas Allan McIntosh, 2012

Federalism and Labour Market Policy Alain Noël, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 2004 Though these countries vary significantly in both their federal institutions and labour market policies they all seek to define a relatively coherent approach for federal and sub unit governments in a policy field where collaboration and coordination appear unavoidable In some cases such as Germany collaboration is highly developed and policies are ambitious and integrated in others such as Switzerland diversity and decentralization are privileged and policies remain fragmented Finally there are countries such as the United States that do not grant much importance to labour market policies these five federations and so help us understand how political institutions and public policies are inter related Federalism and labour market policies certainly influence each other but there is no simple relationship between them Comparing different governance and employment strategies is nevertheless very instructive because it shows the range of approaches and policies that are possible in federal countries

Partisanship, Globalization, and Canadian Labour Market Policy Rodney S. Haddow, Thomas Richard Klassen, 2006-01-01 Using various theoretical approaches this book examines industrial relations workers compensation occupational health employment standards training and social assistance measuring the impact of partisanship and globalization on policy making in several areas It is useful for those interested in the field of labour market policy

Federalism, Democracy and Disability Policy in Canada Alan H. Puttee, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 2002 The 1999 signing of the Social Union Framework Agreement the elimination of government deficits and an apparent trend to decentralisation have increased the focus on Canada's social policy and the manner of its formulation While disability policy a key element of social policy that is seldom high on the country's policy agenda is sharing in the renewed interest no significant disability policy changes have yet emerged The Social Union and Disability Policy examines the development of Canadian disability policy and the current political landscape that will influence new policy It offers an agenda for reform of the disability insurance system and for the provision of supports and services for people with disabilities The focus is on the impact of

governance structures those now in place and those that might be expected to yield improved policy outcomes while promoting the principles of federalism and democratic oversight Contributors to the volume are academics Michael Prince University of Victoria Roy Hanes Carleton University and Allan Moscovitch Carleton University NGO representative Michael Bach Roeher Institute and social policy analysts Marcia Rioux York University and Alan Puttee *The EU and Federalism* Dr Finn Laursen, 2013-03-28 Tracing the evolution of federalist theory and the European Union EU an international line up of distinguished experts debate the pros and cons of treating the EU in a comparative context and ask whether a constitutional equilibrium has been reached in the EU They examine policymaking or modes of governance in the areas of employment health environment security and migration comparing the EU's policies with policies of both international organisations like NATO OECD and federal states such as Canada Japan and South Africa The EU and Federalism Finn Laursen, 2016-03-23 Tracing the evolution of federalist theory and the European Union EU an international line up of distinguished experts debate the pros and cons of treating the EU in a comparative context and ask whether a constitutional equilibrium has been reached in the EU They examine policymaking or modes of governance in the areas of employment health environment security and migration comparing the EU's policies with policies of both international organisations like NATO OECD and federal states such as Canada Japan and South Africa **Employment Policies and Multilevel Governance** Roger Blanpain, Juan Pablo Landa, Brian Langille, Philippe Auvergnon, 2009-01-01 Compares multilevel manpower and social policy in five EU member states with one chapter also on the Canadian federal model Romanow Papers: The governance of health care in Canada Commission on the Future of Health Care in Canada, 2004-01-01 The twelve papers in this third volume of the research program for the Romanow Commission offer a detailed analysis of the governance of health care in Canada from the perspective of constitutionalism intergovernmental relations and societal context In the first section the authors deal with the formal division of powers regarding health care as outlined in the Canadian constitution and the Charter of Rights and Freedoms The second section outlines the strengths and weaknesses of the intergovernmental governance of health care Finally the third section focuses on governance of health care outside of the governmental sphere The theme that resonates throughout the contributions and which is in itself a call for deeper analysis is that health care governance has become locked in a cycle of mutual recrimination blame assigning and blame avoidance from the federal and provincial levels right down to the level of the individual citizen **Federalism in Action** Donna E. Wood, 2018-04-13 Every developed country has a public employment service that connects job seekers with employers through information placement and training support services In *Federalism in Action* Donna E Wood assesses how Canada's public employment service is performing after responsibility was transferred from the federal government to provinces territories and Aboriginal organizations between 1995 and 2015 Drawing upon over twenty years of data Wood reveals the governance choices provinces made the reasons behind these choices and the outcomes they achieved Provincial decisions regarding employment programming is an

important public policy issue about which little is known and even less understood within the context of Aboriginal communities Federalism in Action includes analytical comparisons of Canada's employment programming with the United States Australia and the European Union as well as information from insightful interviews with key informants from every province In firmly placing Canada within the extensive international literature on the governance of welfare to work policies this book makes an important new contribution to research

Strategy Mix for Nonprofit Organisations Annette E. Zimmer, Christina Stecker, 2013-03-19 In many countries particularly in continental Europe societies have been plagued by high unemployment for several decades Simultaneously due to recent shifts from industrial to service oriented post industrial societies labor as a significant culture code is increasingly losing importance Because of this the third or voluntary sector as a place of employment and as a service agency to society has become important for Europe as indicated by the 1997 Communication of the European Commission and various declarations by the European Parliament and the EU's Economic and Social Council *Strategy Mix for Nonprofit Organizations Vehicles for Social and Labor Market Integration* explores the role of the third sector in Europe where unemployment is high and in North America where unemployment is rising and exploring the gaps that the third sector is fulfilling both as a social service and as an employer The volume is organized into two distinctive parts Part 1 *The Nonprofit Sector and Social Integration* highlights the embeddedness of the sector in selected countries it discusses how the sector is currently affected by changes of public policy particularly in the traditional social democratic welfare state regimes and it draws our attention to the sector's potentials to provide avenues for social integration self actualization and civic empowerment Part 2 *Labor Concepts and Market Integration* refers to the multifunctionality of third sector organizations discussing potentials of workplace as well as community involvement via nonprofit organizations This seminal volume will be of interest to those in the nonprofit sector organizational management and economics political scientists and other researchers working with nonprofit organizations and civil society studies on an international level

Challenging the Market International Working Group on Labour Market Regulation and Deregulation, 2004 For two decades economic and social policy in most of the world has been guided by the notion that economies function best when they are fully exposed to competitive market forces In labour market policy this approach is reflected in the widespread emphasis on flexibility a euphemism for the retrenchment of income support and social security the relaxation of labour market regulations and the enhanced power of private actors to determine the terms of the employment relationship These strategies have had marked effects on labour market outcomes leading to greater vulnerability and polarization and not always in ways that enhance worker centred flexibility The authors offer a more balanced analysis of the functioning and effects of labour market regulation and deregulation By questioning the underpinnings of the flexibility paradigm and revealing its often damaging impacts on different countries sectors and constituencies they challenge the conclusion that unregulated market forces produce optimal labour market outcomes The

authors conclude with several suggestions for how labour policy could be reformulated to promote both efficiency and equity

Contemporary Canadian Federalism Alain-G. Gagnon, 2009-06-06 First published in French in 2006 *Le fédéralisme canadien contemporain* was immediately recognised as the most comprehensive collection of reflections on Canadian federalism by leading Quebecois scholars This remarkable translation of a range of Quebecois voices makes their insightful and underrepresented perspectives available to English language audiences Offering alternative views of the Canadian federal model's realities by covering its foundations traditions and institutions *Contemporary Canadian Federalism* considers the ways in which federalism relates to issues such as regionalism multiculturalism rights and freedoms financial distribution and public policy Filled with stimulating work that bridges the gap between distinctive traditions in English and French Canadian scholarship on federalism this important volume is required reading for understanding provincial federal relations and Canadian governance

Flexibility and employment security in Europe R. J. A. Muffels, 2014-05-14 This title presents carefully selected articles that are at the ultimate forefront of professional studies on transitional labour markets and flexicurity

The New Governance of Welfare States in the United States and Europe Mariely López-Santana, 2015-02-17 Detailed examination of the territorial and governance dimensions of contemporary welfare reforms in the United States and Europe Until recently studies of changes in the welfare state have tended to focus on transformations in the nature of social policies and their level of generosity *The New Governance of Welfare States in the United States and Europe* concentrates on an often overlooked dimension territorial and governance transformations Employing detailed case studies and more than seventy five interviews Mariely López-Santana captures how a variety of postindustrial countries across both sides of the Atlantic have transformed the postwar organization of their labor market policy settings through decentralization centralization and delegation reforms These changes have in turn changed the role of national and subnational levels of government as well as nongovernmental actors in the organization management and provision of labor market policies and services López-Santana's multidisciplinary comparative and multilevel approach to welfare state change is an original and important step forward in our understanding of welfare reforms enacted since the mid 1990s

Overpromising and Underperforming? Peter Graefe, Julie M. Simmons, Linda Ann White, 2013-01-01 Public reporting has been used experimentally in federal provincial relations since the mid 1990s as an accountability mechanism to promote policy effectiveness intergovernmental cooperation and democratic legitimacy Our understanding of how well it is working however remains limited to very specific policy sectors even though this information is essential to policy makers in Canada and beyond *Overpromising and Underperforming* offers a deeper analysis of the use of new accountability mechanisms paying particular attention to areas in which federal spending power is used This is the first volume to specifically analyse the accountability features of Canadian intergovernmental agreements and to do so systematically across policy sectors Drawing on the experiences of other federal systems and multilevel governance structures the contributors

investigate how public reporting has been used in various policy fields and the impact it has had on policy making and intergovernmental relations

Bioarchaeology of Marginalized People Madeleine L. Mant, Alyson Jaagumägi
Holland, 2019-02-27 Bioarchaeology of Marginalized People amplifies the voices of marginalized or powerless individuals. Following previous work done by physical anthropologists on the biology of poverty, this volume focuses on the voices of past actors who would normally be subsumed within a cohort or whose stories represent those of the minority. The physical effects of marginalization manifest as skeletal markers of stress and disease are read in their historical contexts to better understand vulnerability and the social determinants of health in the past. Bioarchaeological, archaeological, and historical datasets are integrated to explore the varied ways in which individuals may be marginalized both during and after their lifespan. By focusing on previously excluded voices, this volume enriches our understanding of the lived experience of individuals in the past. This volume queries the diverse meanings of marginalization from physical or social peripheralization to identity loss within a majority population to a collective forgetting that excludes specific groups. Contributors to the volume highlight the histories of individuals who did not record their own stories, including two disparate Ancient Egyptian women and individuals from a high status Indigenous cemetery in British Columbia. Additional chapters examine the marginalized individuals whose bodies comprise the Robert J. Terry anatomical collection and investigate inequalities in health status in individuals from Canada, the United States, and the United Kingdom. Modern clinical population health research is examined through a historical lens, bringing a new perspective to the critical public health interventions occurring today. Together, these papers highlight the role that biological anthropologists play both in contributing to and challenging the marginalization of past populations. Highlights the histories and stories of individuals whose voices were silenced, such as workhouse inmates, migrants, those of low socioeconomic status, the chronically ill, and those living in communities without a written language. Provides a holistic and more complete understanding of the lived experiences of the past as well as changes in populations through time. Offers an interdisciplinary discussion with contributions from a wide variety of international authors.

Making EI Work Keith Banting, Jon Medow, 2013-04-08 Since the inception and design of Canada's Employment Insurance (EI) program, the Canadian economy and labour market have undergone dramatic changes. It is clear that EI has not kept pace with those changes, and experts and advocates agree that the program is no longer effective or equitable. Making EI Work is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths, weaknesses, and future directions of EI. The authors identify the strengths and weaknesses of the system and consider how it could be improved to better and more fairly support those in need. They make suggestions for facilitating a more efficient Canadian labour market and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future. The chapters that comprise Making EI Work informed the task force's final recommendations and form an engaging dialogue that makes the case for and defines the parameters of a reformed support

Province Building and the Federalization of Immigration in Canada Mireille Paquet, 2019-01-01

Most accounts of the provincial role in Canadian immigration focus on the experience of Quebec In *Province Building and the Federalization of Immigration in Canada* Mireille Paquet shows that between 1990 and 2010 all ten provinces became closely involved in immigrant selection and integration This considerable change to the Canadian model of immigration governance corresponds to a broader process of federalization of immigration by which both orders of government became active in the management of immigration While Canada maintains its overall positive approach to newcomers the provinces developed and continue to develop their own formal immigration strategies and implement various selections and integration policies This book argues that the process of federalization is largely the result of provincial mobilization In each province mobilization occurred through a modern iteration of province building this time focused on immigrants as resources for provincial economies and societies Advocating for a province centred analysis of federalism *Province Building and the Federalization of Immigration in Canada* provides key lessons to understanding the contemporary governance of immigration in Canada
