Bartkowiak,2012-09-26 This book fits neatly between NLP for Children and NLP for Teens covering as it does that Tween 10 15yr age group which sees children develop into young adulthood Children become independent responsible and resourceful because they spend most of their time away from home and the family They need to be equipped with confidence motivation and good communication skills This book will teach them NLP tools and techniques to manage transition into secondary school onset of puberty growth of personal responsibility relationships with boys girls schoolwork and exams peer group pressure weight issues bullying *Communicating with Kids* Stephanie Davies-Arai,2015-01-28 Confused by all the conflicting parenting advice you hear Not sure who is right or what to do Well relax and read this book Ever wondered why

your child gets more upset the nicer you are Or why your child is always arguing with you doesn't listen or seems intent on doing the opposite of what you want Now you no longer have to worry Communicating with Kids has the answers This new book explains how so often children are not resisting our messages but the way we are sending them It demonstrates why some of the ways we communicate lead to exactly the opposite of the behaviour we want and provides methods to tweak your language and approach so that children are willing to help you So much of the parenting advice we hear works against a child's developing brain so this book shows you how to work with it instead which makes all the difference Once you understand the difference between what you are saying and what your child actually hears life with children becomes so much easier This book is all about communication because apart from that there's no other advice you need the best way to bring up your child is to be yourself and do it your way Communicating with Kids is a book guaranteed to help all parents whether they veer towards the methods of Penelope Leach or Supernanny or have never read a parenting book before It is not based on any parenting ideology but on genuine experience with a wide range of children It is a plain talking book that presents communication methods that work so parents gain the confidence to be themselves
