The background of the cover features a photograph of two silhouetted figures standing on a dark, angular wooden structure, possibly a bridge or a large sculpture. One figure is standing on the edge, while the other is perched on their shoulders, holding a long, thin object like a pole or a stick. The sky in the background is filled with soft, white clouds. The overall mood is one of achievement and strength.

## **Feeling Strong How Power Issues Affect Our Ability To Direct Our Own Lives:**

**Feeling Strong** Ethel S. Person, 2009-10-13 In *Feeling Strong* noted psychoanalyst Ethel S Person redefines the notion of power Power is often narrowly understood as the force exerted by the politicians and business leaders who seem to be in charge and by the rich and famous who monopolize our headlines The whiff of evil we often catch when the subject of power is in the air comes from this one conception of power the drive for dominance over other people or in its most extreme form an overriding and often ruthless lust for total command But this is far too limited a definition of power Pointing to a more fulfilling sense of self empowerment than is being touted in pop psychology manuals of our time *Feeling Strong* shows us that power is really our ability to produce an effect to make something we want to happen actually take place Power is a desire and a drive and it central in our lives dictating much of our behavior and consuming much of our interior lives We all have a need to possess power use it understand it and negotiate it This holds true not just in mediating our sex and love lives our family lives and friendships our work relationships but in seeking to realize our dreams whether in pursuit of our ambitions expression of our creative impulses or in our need to identify with something larger than ourselves These separate kinds of power are best described as interpersonal power and personal power respectively and they call on different parts of our psyche Ideally we acquire competence in both domains Drawing from her expertise honed in clinical practice as well as from examples in literature and true life vignettes Person shows how we can achieve authentic power a fundamental and potentially benevolent part of human nature that allows us to experience ourselves as authentically strong To find something that matters to live life at a higher pitch to feel inner certainty to find a personality of your own and effectively plot our own life story these are the forms of power explored in the book To achieve and maintain such empowerment always entails struggle and is a life long journey *Feeling Strong* will lead the way

**Mentalizing Power and Powerlessness** Marie-Luise Althoff, 2022-12-19 In this book the author discusses with a view to psychotherapeutic practice how power and the exercise of power can be used in a constructive sense Spontaneously people tend to associate the topic of power negatively They mostly talk about their own powerlessness and the power of those up there and very rarely about their own striving for power It is undisputed that power and the exercise of power as well as dealing with powerlessness play an important role in psychotherapy Nevertheless the constructive and destructive aspects of power are still too little reflected Here there is a mentalization deficit on the part of both psychotherapists and patients In this book questions are asked and suggestions for practice are developed Written for psychological psychotherapists child and adolescent psychotherapists family therapists counselors psychiatrists physicians students and psychotherapists in training
