Williams,2012-01-01 The United States has the most family hostile public policy in the developed world Despite what is often reported new mothers don t opt out of work They are pushed out by discriminating and inflexible workplaces Today s workplaces continue to idealize the worker who has someone other than parents caring for their children Conventional wisdom attributes women s decision to leave work to their maternal traits and desires In this thought provoking book Joan Williams shows why that view is misguided and how workplace practice disadvantages men both those who seek to avoid the breadwinner role and those who embrace it as well as women Faced with masculine norms that define the workplace women must play the tomboy or the femme Both paths result in a gender bias that is exacerbated when the two groups end up pitted against each other And although work family issues long have been seen strictly through a gender lens we ignore class at our peril The dysfunctional relationship between the professional managerial class and the white working class must be addressed before real reform can take root Contesting the idea that women need to negotiate better within the family and redefining the notion of success in the workplace Williams reinvigorates the work family debate and offers the first steps to making life manageable for all American families

The Role of Women's Experience in Feminist Theologies of Atonement Linda D. Peacore,2010-03-11

A strong critique of traditional atonement theology is found in the work of many contemporary feminist theologians This approach in large part is related to the notion of women s experience a category that is used widely within feminist theology But what is women s experience and how does it affect feminist theology particularly views on the atonement The category of women s experience is pivotal to feminist theology yet its use may lead to models of atonement that place excessive stress upon the subjective element of Christ s saving work thereby neglecting to address adequately the objective aspects of the cross This book focuses on the methodological issues regarding the category of women s experience generally its definition and use in feminist theology with a more detailed analysis of its use in the context of feminist theologies of atonement Utilizing the work of a wide variety of feminist theologians in conversation with theologies of experience this work attempts to understand the role of women s experience as it shapes feminist views on the atonement noting the strengths and limitations of feminist approaches to soteriology

Identity Politics in the Women's Movement Barbara Ryan,2001-08 An essential collection that constructs the arguments of similarity and difference dividing and uniting women In recent years identity has come to be seen as a process rather than a fact or deterministic force Yet recognizable identity traits continue to draw people together and provide them

with a sense of empowering commonality Although the plasticity afforded identity has freed up rigid definitions and guidelines for affiliation some believe that nebulous demarcations of identity may deprive women of a solid position from which to effectively contest centers of power Bringing together articles by well known authors and theorists such as Audre Lorde June Jordan Daphne Patai Barbara Smith Marilyn Frye Shane Phelan Leila J Rupp Hazel Carby and Adrienne Rich with lesser known writers and scholars this broad based anthology ranges widely from personal narratives to empirical research The book unpacks issues of race class gender ethnicity sexuality disability and age contributing a m lange of sharp lively perspectives to current debate In a postmodern era of feminism how do women come to identify organize and mobilize themselves within a complex global network of relationships Identity Politics in the Women s Movement offers critical examination of the inescapable role of identity in academic and activist feminism and the opportunities challenges and conflicts identity politics pose

Healing Identities Cynthia Burack,2018-08-06 Group identifications famously pose the problem of destructive rhetoric and action against others Cynthia Burack brings together the theory work of women of color and the tools of psychoanalysis to examine the effects of group collaborations for social justice and progressive politics This juxtaposition illuminates some assumptions about race and equality encoded in psychoanalysis Burack s discursive analysis suggests the positive identity affirming aspects of group relational life for African American women One analytic response to groups emphasizes the dangers of these identifications and exhorts people to abandon or transcend them for their own good and for the good of others who may be harmed by group based forms of cultural or material violence Another response understands that people feel a need for group identifications and asks how they may be made more resistant to malignant group based discourse and action What can black feminist thought teach scholars and democratic citizens about groups Burack shows how the rhetoric of black feminism models reparative rather than destructive forms of group dialogue and action Although it may be impossible to eliminate group identifications that provide much of the impetus for bias and violence she argues we can encourage more progressive forms of leadership solidarity and coalition politics
