Reading from the Underside of Selfhood Lisa E. Dahill, 2009-01-01 Dietrich Bonhoeffer's example of self-sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ Yet for some readers particularly those who suffer trauma abuse and other forms of violence Bonhoeffer's insistence on self-sacrifice on becoming a person for others may prove more harmful than liberating For those already socialized into self-abnegation uncritical applications of Bonhoeffer's teachings may reinforce submission rather than resistance to evil This study explores Bonhoeffer's understandings of selfhood and spiritual formation both in his own experience and writings and in light of the role of gender in psycho-spiritual development The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse including not only dimensions of his thinking to be critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood The book concludes with suggestions regarding the broader relevance of this study and implications for ministry The insights for spiritual formation developed here provide powerful proof of Bonhoeffer's continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood

Women's Studies in Religion Kathleen McIntosh, Kate Bagley, 2017-09-19 *Women's Studies in Religion* A Multicultural Reader uses essays written by today's most respected feminist voices to examine the impact of contemporary feminism on the practice and study of religion Many in the field have expressed the need for a reader that is both accessible to undergraduates who have little background in the study of religion and that shows the transforming impact of feminism on the religious lives of American women This book meets that need

Out of the Mouths of Babes Thomas A. Robinson, Lanette R. Ruff, 2011-12-05 The 1920s marked one of the greatest cultural shifts in American life and the risqué flapper became the icon of the period But there was a counter image of the feminine the decade was also the golden age for

girl evangelists who defended traditional morals and traditional Christian beliefs and attitudes Gender as a Political Instrument Forming New Boundaries by Ethnic and Religious Diasporas in European Union Konstantin S. Sharov, 2022-03-19

This book considers gender as a convenient tool for making new boundaries within the European Union. It offers a political analysis based on sociological surveys conveyed by the author in 2008-2021. It emphasises the utmost necessity of a proper understanding of specific gender political technologies applied in ethnic and religious diasporas within the EU borders by EU ruling elites to avoid ideological collapse in relations with diaspora political groups and general members. The book demonstrates that uncritical application of EU gender equality programs within diasporas may transform gender to a dangerous political force destabilising the European Union. The monograph will be of interest for political science researchers, legislators and administrators that work with the political dimension of gender.
