Feminism And The New Right

Tanya Melich

Feminism And The New Right:

Feminism and the New Right Pamela Johnston Conover, Virginia Gray, 1983 **Women of the New Right** Rebecca Klatch, 2010-09-13 The first coherent picture of who joins such movements as the New Right and how they think **New Culture, New Right** Michael O'Meara, 2004 *Feminism And Philosophy* Nancy Tuana, Rosemarie Putnam Tong, 2018-02-06

The past twenty years have seen an explosion of work by feminist philosophers and several surveys of this work have documented the richness of the many different ways of doing feminist philosophy But this major new anthology is the first broad and inclusive selection of the most important work in this field There are many unanswered questions about the future of feminist philosophy Which of the many varieties of feminist philosophy will last and which will fade away What kinds of accommodations will be possible with mainstream non feminist philosophy Which will separate themselves and flourish on their own To what extent will feminists change the topics philosophers address To what extent will they change the very way in which philosophy is done However these questions are answered it is clear that feminist philosophy is having and will continue to have a major impact on the discipline of philosophy This volume is the first to allow the scholar the student and other interested readers to sample this diverse literature and to ponder these questions for themselves Organized around nine traditional types of feminist philosophy *Feminism and Philosophy* is an imaginatively edited volume that will stimulate readers to explore many new pathways of understanding It marks a defining moment in feminist philosophy and it will be an essential text for philosophers and for feminist theorists in many other fields *Righting Feminism* Ronnee Schreiber, 2008-06-16 When we think of women s activism in America figures such as Gloria Steinem and Betty Friedan invariably come to mind those liberal doyennes who have fought for years to chip away at patriarchy and achieve gender equality But women s interests are not synonymous with organizations like NOW anymore As Ronnee Schreiber shows the conservative ascendancy that began in the Reagan era has been accompanied by the emergence of a broad based conservative women s movement And while firebrands like Ann Coulter and Phyllis Schlafly may be the public face of rightwing women s activism a handful of large and established women s organizations have proven to be the most effective promoters of the conservative agenda *Righting Feminism* shows that one of the key albeit overlooked developments in political activism since the 1980s has been the emergence of conservative women s organizations It focuses on the most prominent of these groups Concerned Women for America and the Independent Women s Forum to reveal how they are using feminist rhetoric for conservative ends outlawing abortion restricting pornography and bolstering the traditional family But ironically these organizations face a paradox to combat the legacy of feminism particularly its appeal to the majority of American women they must use the rhetoric of women s empowerment Indeed Schreiber amply illustrates how conservative activists are often the beneficiaries of the very feminist politics they oppose Yet just as importantly she demolishes two widely believed truisms that conservatism holds no appeal to women and that modern conservatism is hostile to the very

notion of women's activism Based on numerous interviews with colorful conservative activists and extensive analyses of organizational documents *Righting Feminism* offers a new way of understanding the unlikely intersection of women's activism and conservative politics in America today *Women of the Far Right* Glen Jeansonne, 1996-05 List of Illustrations Preface Acknowledgments 1 The Context of the World War II Mothers Movement 2 Elizabeth Dilling and the Genesis of a Movement 3 The Fifth Column 4 The National Legion of Mothers of America 5 Cathrine Curtis and the Women's National Committee to Keep the U S Out of War 6 Dilling and the Crusade against Lend Lease 7 Lyrl Clark Van Hynning and We the Mothers Mobilize for America 8 The Mothers Movement in the Midwest Cincinnati Cleveland and Detroit 9 The Mothers Movement in the East Philadelphia and New York 10 Agnes Waters The Lone Wolf of Dissent 11 The Mass Sedition Trial 12 The Postwar Mothers Movement 13 The Significance of the Mothers Movement Epilogue Can We All Get Along Notes Bibliographical Essay Index Copyright Libri GmbH All rights reserved

What's Right with Feminism Cassandra Langer, 2001 Beginning in the 1940s with Hollywood's image of the American woman this book goes on to discuss the images of home family and domesticity in the 1950s and the impact of Betty Friedan's *The Feminist Mystique* on the 1960s generation Next it examines the 1970s the so called golden age of American feminism including sexual politics and reactionary rhetoric about lesbians and women who didn't follow the party line Antifeminist cultural discourses on women's rights including Susan Faludi's *Backlash* are discussed in relation to abortion equal pay for equal work and other political social and cultural issues The book assesses the highly charged sexual politics of the 1990s using the writings of Camille Paglia Naomi Wolf and Katie Roiphe to analyze different levels of post feminism With examples from the mass media film literature popular culture art criticism this book surveys the impact of the American feminist movement how it originated why certain ideas and images had to change and how this movement shaped our notions of feminine and masculine over the last fifty years A Feminist Critique is a fair and much needed overview of the accomplishments issues and goals of the feminist movement and its future course

Feminism And Social Justice In Education Kathleen Weiler, 2005-08-04 Gathers together notable educators from five different countries to examine contemporary feminist politics and practice in education It presents a response to recent developments in education and feminist theorising and the restructuring of educational provision

The Nature of the Right Gill Seidel, 1988-01-01 This volume challenges and extends the definition of right and right wing discourse as traditionally conceived in male scholarship The eleven papers share a common perspective a critique of the ideology of natural difference as the basis for oppression of the dominated group In a radical feminist analysis the relation of domination between the sexes is seen as central to the projects of the right in which the constructions of nations races and gender present variations in time and space In its linking of oppressions this book makes an important and timely contribution to feminist theory and puts the case for a radical and altogether coherent rethinking of right wing political space

Historical Dictionary of Feminism Janet K. Boles, Diane Long Hoeveler, 2004 This Second Edition is an essential

resource for librarians scholars and students This succinct handbook includes more than 1 000 entries covering the persons organizations campaigns and court cases goals and achievements and current and future directions of the feminist movement 75 percent of which are new and revised from the first edition This second edition also features a more internationally focused introduction that provides an overview of the history and development of feminism as a movement and as a philosophy Rounding out this new edition are an expanded chronology and an updated bibliography that brings attention to many feminist online resources and periodicals and emphasizes global and third wave feminism both new developments in the field since the publication of the first edition Paying tribute to the struggles of the women and men who have worked to change and to improve the living conditions for women in the world this book promises a comprehensive historical overview for readers of all interest levels

Public Women, Public Words Dawn Keetley, John Pettegrew, 2005-02-22 This final volume in the Public Women Public Words series focuses on what has come to be called the second wave of American feminism It traces the resurgence of feminism in the late 1960s from Betty Friedan and the National Organization for Women to the anarchist and lesbian identity dimensions of radical feminism Including topics such as sexual autonomy abortion the Equal Rights Amendment and the black feminist resistance to the white dominated second wave this volume reflects the unprecedented range of women s issues taken up by feminists during the 1970s and beyond Volume III also charts the great diffusion of feminism with separate sections on multicultural feminism and the feminist presence in media and pop culture Finally through the recent writings of feminist intellectuals it looks toward a third feminist wave for the new millennium

Public Women Public Words A Documentary History of American Feminism provides a comprehensive view of the many strands of feminist thought and actions and is essential for every women s studies and feminism collection

Management, 1987

Gender and Women's Leadership Karen O'Connor, 2010-08-18 These volumes provide an authoritative reference resource on leadership issues specific to women and gender with a focus on positive aspects and opportunities for leadership in various domains

Encyclopedia of Lesbian Histories and Cultures Bonnie Zimmerman, 2013-08-21 A rich heritage that needs to be documented Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavours It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking A groundbreaking new approach While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written for and by a wide range of people Intended as a reference for students and scholars in all fields as well as for the general public the encyclopedia is written in user friendly language At the same time it maintains a high level of scholarship that incorporates

both passion and objectivity It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future

Encyclopedia of Lesbian and Gay Histories and Cultures Bonnie Zimmerman, George Haggerty, 2021-06-13 A rich heritage that needs to be documented Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking A groundbreaking new approach While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written for and by a widerange of people Intended as a reference for students and scholars in all fields as well as for the general public the encyclopedia is written in user friendly language At the same time it maintains a high level of scholarship that incorporates both passion and objectivity It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future

Women and the Work of Benevolence Lori D. Ginzberg, 1990-01-01 Nineteenth century middle class Protestant women were fervent in their efforts to do good Rhetoric especially in the antebellum years proclaimed that virtue was more pronounced in women than in men and praised women for their benevolent influence moral excellence and religious faith In this book Lori D Ginzberg examines a broad spectrum of benevolent work performed by middle and upper middle class women from the 1820s to 185 and offers a new interpretation of the shifting political contexts and meanings of this long tradition of women s reform activism During the antebellum period says Ginzberg the idea of female moral superiority and the benevolent work it supported contained both radical and conservative possibilities encouraging an analysis of femininity that could undermine male dominance as well as guard against impropriety At the same time benevolent work and rhetoric were vehicles for the emergence of a new middle class identity one which asserts virtue not wealth determined status Ginzberg shows how a new generation that came of age during the 1850s and the Civil War developed new analyses of benevolence and reform By post bellum decades the heirs of antebellum benevolence referred less to a mission of moral regeneration and far more to a responsibility to control the poor and vagrant signaling the refashioning of the ideology of benevolence from one of gender to one of class According to Ginzberg these changing interpretations of benevolent work throughout the century not only signal an important transformation in women s activists culture and politics but also illuminate the historical development of American class identity and of women s role in constructing social and political authority

The Republican War Against Women Tanya Melich, 1998-01-05 In 1980 Republicans used appeals to sexist and racist bigotry to win the Presidency The party adopted an electoral strategy that included getting votes by playing on the

fear and uncertainty engendered by the civil rights and women's political movements and continued to use this strategy in the campaigns of 1984, 1988, and 1992. Under the Reagan and Bush administrations, this strategy became a crucial part of the party's governing policies. This book is not a political science treatise nor a description of political campaigns; it is a documented account of a grab for power that, as the years pass, continues to intensify antagonism between the sexes and to sow unnecessary division among the American people. As a longtime Republican activist and a delegate to the 1992 convention, Tanya Melich has observed these actions from within and documents this takeover and the Party's ongoing practices, such as embracing the Christian right, in a devastating, factual, and often hair-raising report. A combination of history, exposé, reasoned polemic, and call to arms, this book has now been enriched by two completely new chapters that assess the outcome of the 1996 election in terms of the book's thesis and realistically lays out the future, both in terms of what it will be if the right-wing elements of the Republican party continue to set the agenda and how it can be changed if centrist women and men take charge of that agenda. The heart of such change lies with Independents, who now constitute a startling 39 percent of Americans; 31 percent identify themselves as Democrats and 30 percent as Republicans. We are not a country of strong party loyalties, and the enormous growth of independents is the signal that change is not only possible but achievable. As a superb political pro, the author offers hardheaded strategies for such change.

Right-wing Women Paola Bacchetta, Margaret Power, 2002. First Published in 2002. Routledge is an imprint of Taylor & Francis, an informal company.

Backlash Susan Faludi, 2009-11-18. A new edition of the feminist classic with an all-new introduction exploring the role of backlash in the 2016 election and laying out a path forward for 2020 and beyond. Winner of the National Book Critics Circle Award. Enraging, enlightening, and invigorating, *Backlash* is most of all true. Newsday First published in 1991, *Backlash* made headlines and became a bestselling classic for its thoroughgoing debunking of a decade-long antifeminist backlash against women's advances. A Pulitzer Prize-winning journalist, Susan Faludi brilliantly deconstructed the reigning myths about the costs of women's independence, from the supposed man shortage to the infertility epidemic to career burnout to toxic day care, and traced their circulation from Reagan-era politics through the echo chambers of mass media advertising and popular culture. As Faludi writes in a new preface for this edition, much has changed in the intervening years. The Internet has given voice to a new generation of feminists. Corporations list gender equality among their core values. In 2019, a record number of women entered Congress. Yet the glass ceiling is still unshattered; women are still punished for wanting to succeed, and reproductive rights are hanging by a thread. This startling and essential book helps explain why women's freedoms are still so demonized and threatened and urges us to choose a different future.

Faces Of Feminism Sheila Tobias, 2018-02-26. As one of the main players in the second wave of feminism, Sheila Tobias returns to Kate Millett's central tenet: sexual politics, and argues that it can still unite progressive men and women around a common set of goals. Providing a map of a complex terrain, Tobias details generations of issues, each more radical and therefore harder to tackle than the ones before. She sets the story

in two contexts feminisms own evolving strategies and Americas political landscape Even though her passion for feminism remains she is not unwilling to critique the sisterhood and herself for failing to see for example that not every woman would be a feminist nor every man an enemy In the heady first years feminists forgot that deeper even than gender is the liberal conservative divide in American politics As one of the main players in the second wave of feminism Sheila Tobias returns to Kate Millets central tenet sexual politics and argues that it can still unite progressive men and women around a common set of goals Providing a map of a complex terrain Tobias details generations of issues each more radical and therefore harder to tackle than the ones before She sets the story in two contexts feminisms own evolving strategies and Americas political landscape Even though her passion for feminism remains she is not unwilling to critique the sisterhood and herself for failing to see for example that not every woman would be a feminist nor every man an enemy In the heady first years feminists forgot that deeper even than gender is the liberal conservative divide in American politics From the origins of the movement through feminist theory and new scholarship on women Tobias traces the political history of the second wave and its comeuppance at the hands of Phyllis Schaflys StopERAcoincidental with the nations careering toward the Right Somehow feminism survived the 1980s but by having to fight brush fires throughout the Reagan Bush presidencies the movement lost some of its breadth and much of its taste for the mainstream Because of her activism and her feeling for the period she chronicles Tobias is at once inside and outside the issues of sexual preference pornography the draft the Mommy Track comparable worth affirmative action reproductive rights and the challenges of equality versus difference

As recognized, adventure as with ease as experience virtually lesson, amusement, as well as harmony can be gotten by just checking out a book **Feminism And The New Right** also it is not directly done, you could say yes even more re this life, on the order of the world.

We have enough money you this proper as capably as easy way to acquire those all. We come up with the money for Feminism And The New Right and numerous book collections from fictions to scientific research in any way. in the middle of them is this Feminism And The New Right that can be your partner.
