## **Feminism And The Politics Of Reading:**

**Feminism and the Politics of Reading** Lynne Pearce, 1997 *Feminism and the Politics of Reading* is the first major work to theorize the processes and practices of reading within a gendered context Looking at what it is to be a self conscious feminist reader and at what happens when that feminism is off duty Lynne Pearce engages with a wide range of literary and visual texts to explore the complex personal and political implications of what we do every time we read **Reading Rights** Karen Dale Zivi, 2001 *Feminism and the Politics of Literary Reputation* Charlotte Templin, 1995 Soon after its publication in 1973 *Fear of Flying* brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong's books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of *Fear of Flying* the invocation of a high culture low culture dichotomy to discredit *How to Save Your Own Life* the anatomy of literary success with Fanny Jong's reception in a postfeminist age and the trivialization of Jong's works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer *Feminism and the Politics of Literary Reputation* provides an excellent case study for the literary reception of women writers within a broad cultural context Templin's analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores **Feminism, the Family, and the Politics of the Closet** Cheshire Calhoun, 2000-09-07 *Feminism the Family and the Politics of the Closet* is about placing sexual orientation politics within feminist theorizing It is also about defining the central political issues confronting lesbians and gay men The book brings the study of lesbians from the margins of feminist theory to the center by critiquing the analytic frameworks employed within feminist theory that renders invisible lesbians difference from heterosexual women This book also outlines the basic features of lesbian and gay subordination by exploring the differences between heterosexual dominance and gender and race relations Throughout Calhoun aims to re center lesbian and gay politics away from concerns with sexual regulations and toward concern with the displacement of gays and lesbians from the public sphere of visible citizenship and from the private sphere of romance

marriage and family      **Feminism, Digital Culture and the Politics of Transmission** Deborah Withers, 2015-10-02  
 Feminism Digital Culture and the Politics of Transmission argues that despite the prevalence of generational narratives within feminism the technical processes through which knowledge is transmitted across generations remain unexplored Taking Bernard Stiegler's concept of the already there as its starting point the book considers how the politics of transmission operates within digital culture It argues that it is necessary to re-orient feminism's political project within what is already there so that it may respond to an emergent feminist tradition Grounded in the author's work collecting and interpreting the music making heritage of the UK Women's Liberation Movement it explores how digital technologies have enabled impassioned amateurs to make archives within the first decade of the 21st century The book reflects on what is technically and politically at stake in the organization and transmission of digital artifacts and explores what happens to feminist cultural heritage when circuits shut down stall or become diverted      **Feminism and a Vital Politics of Depression and Recovery** Simone Fullagar, Wendy O'Brien, Adele Pavlidis, 2019-08-13 Drawing upon insights from feminist new materialism the book traces the complex material discursive processes through which women's recovery from depression is enacted within a gendered biopolitics Within the biomedical assemblage that connects mental health policy service provision research and everyday life the gendered context of recovery remains little understood despite the recurrence and pervasiveness of depression Rather than reducing experience to discrete biological psychological or sociological categories feminist thinking moves with the biopsychosocialities implicated in both distress and lively modes of becoming well Using a post-qualitative approach the book creatively re-presents how women do recovery within and beyond the normalising imperatives of biomedical and psychotherapeutic practices By pursuing the affective movement of self through depression this inquiry goes beyond individualised models to explore the enactment of multiple self-world relations Reconfiguring depression and recovery as body-mind matters opens up a relational ontology concerned with the entanglement of gender inequities and mental ill health      **Reading, Feminism, and Spirituality** Dawn Llewellyn, 2016-01-03 Through original interviews and research Llewellyn uses spirituality to uncover new commonalities between the second and third feminist waves and sacred and secular experiences Her lively approach highlights the importance of reading cultures in feminist studies connecting women's voices across generations literary practices and religions      **The Women's Liberation Movement and the Politics of Class in Britain** George Stevenson, 2019-02-21 This is the first study of the British Women's Liberation Movement's relationship with class politics It explores the meaning of class to women's liberationists identities and activism both nationally and regionally using a previously neglected feminist cluster in North East England as a case study Stevenson demonstrates that British feminism was shaped fundamentally by its relationship to synthesis with and rejection of class politics Through these processes feminists recognised how post-war changes in the economy and gender roles were reshaping class and the Women's Liberation Movement attempted to remake

class politics in response However socio economic and cultural class differences between the women involved linked to occupation education and background remained intractable obstacles causing tensions within groups fragmentations into specific class based groups and the ultimate failure of the movement to coalesce into a coherent coalition with labour politics despite great levels of solidarity around particular struggles Examining regional feminism against the national backdrop The Women s Liberation Movement and the Politics of Class in Britain provides an engaging exploration of the fruitful but challenging relationship between British feminism and class politics in a capitalist society *Women's Reading in Britain, 1750-1835* Jacqueline Pearson, 1999-05-27 The first broad overview and detailed analysis of female reading audiences in this period [The Cambridge Introduction to Virginia Woolf](#) Jane Goldman, 2006-09-14 For students of modern literature the works of Virginia Woolf are essential reading In her novels short stories essays polemical pamphlets and in her private letters she explored questioned and refashioned everything about modern life cinema sexuality shopping education feminism politics and war Her elegant and startlingly original sentences became a model of modernist prose This is a clear and informative introduction to Woolf s life works and cultural and critical contexts explaining the importance of the Bloomsbury group in the development of her work It covers the major works in detail including *To the Lighthouse* *Mrs Dalloway* *The Waves* and the key short stories As well as providing students with the essential information needed to study Woolf Jane Goldman suggests further reading to allow students to find their way through the most important critical works All students of Woolf will find this a useful and illuminating overview of the field

**Theories of Reading** Karin Littau, 2006-12-04 Bringing insights from book history to bear on literary history and theory this book points to a split between literary study that regards reading as a reducibly mental activity and a tradition reaching back to antiquity which assumed that reading was not only about sense making but also about sensation

*Feminist Politics* Deborah Orr, 2007 The essays in *Feminist Politics* contest some of the prevailing conceptualizations of identity and difference as well as the functions of these concepts in feminist political discourse and praxis Doing so they amply demonstrate that issues of identity and difference have a central place in contemporary feminist scholarship The authors of these essays have worked to develop new ways of understanding and living out differences which will both preserve and celebrate them while also fostering the necessary conditions for opening dialogue and forming new coalitions The intent of these efforts has been to thereby engender imaginative new strategies for the personal spiritual and sociopolitical changes that will enable human growth wellbeing and flourishing While the focus of the work represented here is understandably on women the issues that are raised are given additional urgency explicitly in some of the papers and implicitly in others by the situation of their concerns in the context of the world created by the Bush administration Because that administration has foregrounded issues of identity and difference in ways that are not only inhumane and often inaccurate but dangerous for all of us the new ways of thinking and acting that are proposed here have a much broader application Thus these papers truly invite not only feminists but all people to move in new directions Taken as

a whole this volume represents cutting edge thinking from an international perspective in these important and pressing areas for feminist research and praxis

**Reading Canadian Women's and Gender History** Nancy Janovicek, Carmen Nielson, 2019-05-06 Inspired by the question of what's next in the field of Canadian women's and gender history this broadly historiographical volume represents a conversation among established and emerging scholars who share a commitment to understanding the past from intersectional feminist perspectives It includes original essays on Quebecois Indigenous Black and immigrant women's histories and tackles such diverse topics as colonialism religion labour warfare sexuality and reproductive labour and justice Intended as a regenerative retrospective of a critically important field this collection both engages analytically with the current state of women's and gender historiography in Canada and draws on its rich past to generate new knowledge and areas for inquiry

**Reading Feminist Theory** Susan Archer Mann, Ashly Suzanne Patterson, 2016 Reading Feminist Theory From Modernity to Postmodernity interweaves classical and contemporary writings from the social sciences and the humanities to represent feminist thought from the late eighteenth century to the present Editors Susan Archer Mann and Ashly Suzanne Patterson pay close attention to the multiplicity and diversity of feminist voices visions and vantage points by race class gender sexuality and global location Along with more conventional forms of theorizing this anthology points to multiple sites of theory production both inside and outside of the academy and includes personal narratives poems short stories zines and even music lyrics Offering a truly global perspective the book devotes three chapters and more than thirty readings to the topics of colonialism imperialism and globalization It also provides extensive coverage of third wave feminism poststructuralism queer theory postcolonial theory and transnational feminisms

Revaluing French Feminism Nancy Fraser, Sandra Lee Bartky, 1992-04-22 Fraser and Bartky have brought the encounter between U S and French feminism to a new level of seriousness Ethics In the last decade elements of French feminist

discourse have permeated and transformed the larger feminist culture in the United States This volume is the first sustained attempt to revalue French feminism and answer the question What has been gained and what has been lost as a result of this intercultural encounter Interviews with Simone de Beauvoir open the book essays by French feminists Sarah Kofman and Luce Irigaray follow the North American contributors are Judith Butler Nancy Fraser Diana J Fuss Nancy J Holland Eleanor H Kuykendall Dorothy Leland Diana T Meyers Andrea Nye and Margaret A Simons **Feminist Theory Reader** Carole McCann,Seung-kyung Kim,Emek Ergun,2020-09-16 The fifth edition of the Feminist Theory Reader assembles readings that present key aspects of the conversations within intersectional US and transnational feminisms and continues to challenge readers to rethink the ways in which gender and its multiple intersections are configured by complex overlapping and asymmetrical global local configurations of power The feminist theoretical debates in this anthology are anchored by five foundational concepts gender difference women s experiences the personal is political and especially intersectionality which are integral to contemporary feminist critiques The anthology continues to center the voices of transnational feminist scholars with new essays giving it a sharper focus on the materiality of gender injustices racisms ableisms colonialisms and especially global capitalisms Theoretical discussions of translation politics cross border solidarity building ecofeminism reproductive justice MeToo indigenous feminisms and disability studies have been incorporated throughout the volume With the new essays and the addition of a new editor the Feminist Theory Reader has been brought fully up to date and will continue to be a touchstone for women s and gender studies students as well as academics in the field for many years to come **Feminist Politics in Neoconservative Russia** Inna Perheentupa,2022-07-05 This is a nuanced and compelling analysis of grassroots feminist activism in Russia in the politically turbulent 2010s Drawing on rich ethnographic data the author illustrates how a new generation of activists chose feminism as their main political beacon and how they negotiated the challenges of authoritarian and conservative trends As we witness a backlash against feminism on a global scale with the rise of neoconservative governments this highly relevant book decentres Western theory and concepts of feminism and social movements offering significant insights into how resistance can mobilize and invent creative tactics to cope with an increasingly repressed space for independent political action **Reading Buchi Emecheta** Katherine Fishburn,1995-04-25 In this first full length study of Emecheta s fiction Fishburn highlights the difficulties inherent in reading across cultures She challenges the notion that all we need to understand African texts is a willingness to be open to them arguing that too many of the cultural and critical preconceptions we bring to these texts interfere with our ability to understand them Directly responding to Western feminist criticism written about Emecheta this study argues that Emecheta herself is not a feminist in the Western sense and that her novels should not be construed as reflecting this political interest In close readings of eight of her best known works this study reveals a complex narrative voice which is far more supportive of Emecheta s own African culture and its tradition than has been recognized previously **Left-Wing Populism and Feminist Politics** Pablo

Castaño,2022-05-26 This book investigates the relation between left wing populism and feminist politics by analysing three specific aspects First whether left wing populist parties promote gender equality policies against charges of a general inconsistency between both political projects Second how do these parties form their policy making coalitions in the field of gender equality Third how much impact on policy do women s movements have when left wing populists are in power The book is focused on the case of Bolivia during the first twelve years of Evo Morales s presidency The empirical analysis is based on the qualitative content analysis of documents and semi structured interviews with women s movements activists policy makers and experts in women s movements The central issue of the book is present throughout the volume but each empirical chapter can be also read as a semi autonomous analysis of a specific aspect of the relation between left wing populism and feminist politics which increases the interest of the book for different audiences including experts in gender and politics and feminist activists specialists in Latin American politics indigenous politics and social movements
