Lange Ingrid Makus Lori J Marso Mira Morgenstern Susan Moller Okin Alice Ormiston Penny Weiss Elie Wiestad Elizabeth Wingrove Monique Wittig and Linda Zerilli      Rousseau and the Dilemmas of Modernity Mark Hulliung, 2017-07-05 This volume seeks to capture Jean Jacques Rousseau's astonishing contribution to our understanding of the dilemmas of modernity For the contributors to this book Rousseau is present as well as past because he was so modern and yet so ambivalent about modernity a position with which we are quite familiar Highlighted in this volume is the contention that Rousseau set the stage for many discussions of the good and bad of modernity Previous efforts to deal with Rousseau and modernity have suffered from myopia In the nineteenth century the Romantics claimed Rousseau as one of their own pulling him out of his historical context ignoring his full scale immersion in the debates of the French Enlightenment In the twentieth century commentators have read into Rousseau the ahistorical and present minded Cold War theme of Rousseau the totalitarian In this volume Rousseau is treated as a person of his age but also as someone who speaks to us today The topics covered range from feminism music science and political theory to updating the classics and to the search for and limitations to the quest for self knowledge Few if any figures can compete with Rousseau when it comes to forcing us to face up to the price we pay for progress      **Yielding Gender** Penelope Deutscher, 2002-01-22 Traditional accounts of the feminist history of philosophy have viewed reason as associated with masculinity and subsequent debates have been framed by this assumption Yet recent debates in deconstruction have shown that gender has never been a stable matter In the history of philosophy female and woman are full of ambiguity What does deconstruction have to offer feminist criticism of the history of philosophy Yielding Gender explores this question by examining three crucial areas the issue of gender as troubled deconstruction and feminist criticism of the history of philosophy The first part of the book discusses the work of Judith Butler Jacques Derrida and contemporary French feminist philosophy including key figures such as Luce Irigaray Particular attention is given to the possibilities offered by deconstruction for understanding the history of philosophy The second part considers and then challenges feminist interpretations of some key figures in the history of philosophy Penelope Deutscher sketches how Rousseau St Augustine and Simone de Beauvoir have described gender and argues that their readings of gender are in fact empowered by gender's own contradiction and instability rather than limited by it      Rousseau's Daughters Jennifer J. Popiel, 2008 Provocative assessment of how new ideas about motherhood and domesticity in pre Revolutionary France helped women demand social and political equality later on      **Goethe Yearbook 18** Daniel Purdy, 2011-04 New essays on topics spanning the Age of Goethe with a special section of fresh views of Goethe and Idealism The Goethe Yearbook is a publication of the Goethe Society of North America publishing original English language contributions to the understanding of Goethe and other authors of the Goethezeit while also welcoming contributions from scholars around the world Volume 18 features a special section on Goethe and Idealism edited by Elizabeth Mill n and John H Smith and including essays on Goethe and Spinoza Goethe's notions of intuition and intuitive judgment Novalis Goethe and

**Continental Philosophy in Feminist Perspective** Herta Nagl-Docekal, Cornelia Klinger, 2010-11-01 We translate what American women write they never translate our texts wrote Helene Cixous almost two decades ago Her complaint about the unavailability of French feminist writing in English has long since been rectified but the situation for feminist writing by German speaking philosophers remains today what it was then This pioneering collection takes a giant step forward to overcoming this handicap revealing the full richness and variety of feminist critique ongoing in this linguistic community The essays offer fresh readings of thinkers from the Enlightenment to the present including those often discussed by feminists everywhere such as Freud Habermas Hegel Kant and Rousseau as well as some less subjected to feminist critique such as Benjamin and Weininger In their Introduction the editors provide the context for understanding both how these essays fit into the larger picture of developing feminist theory and what makes their contribution in some ways distinctive

**Back Over the Sexual Contract** Lorenzo Rustighi, 2021-12-27 Is patriarchy an illness of democratic societies or a structural problem To answer this dilemma Back Over the Sexual Contract A Hegelian Critique of Patriarchy examines the dilemma of patriarchy in modern European political theory by reopening the question of the sexual contract Through a study of the thought of Thomas Hobbes John Locke Jean Jacques Rousseau and Immanuel Kant Lorenzo Rustighi argues that the conceptual roots of male patriarchal entitlement should be sought in the logic of authorized power that underpins the modern understanding of both the state and the family Challenging the mainstream distinction between the private and the public Rustighi provocatively suggests that patriarchy is not something that undermines democracy as an alien threat but is rather inscribed in the intrinsically anti democratic effects of the concept of democracy construed by the modern rationale of the social contract He puts forward a Hegelian argument to propose an unconventional constitutional approach to feminist political theory that helps us rethink democracy beyond its inherent impasses

**Heroism and Global Politics** Veronica Kitchen, Jennifer G. Mathers, 2018-10-12 The rhetoric of heroism pervades politics Political leaders invoke their own heroic credentials soldiers are celebrated at sporting events ordinary citizens become state symbols or symbols of opposition and high profile celebrities embody a glamorized humanitarian heroism Using analytical tools drawn from international relations gender studies war studies history and comparative politics this book examines the cultural and political phenomenon of

heroism and its relationship to the process of creating sustaining and challenging political communities Arguing that heroism is socially constructed and relational the contributors demonstrate that heroes and heroic narratives always serve particular interests in the ways that they create and uphold certain images of states and other political communities Studying the heroes that have been sanctioned by a community tells us important things about that community including how it sees itself its values and its pressing needs at a particular moment Conversely understanding those who are presented in opposition to heroes victims demonized opponents or who become the heroes of resistance movements can also tell us a great deal about the politics of a state or a regime Heroes are at once the institutionalization of political power and yet amorphous one can go from being a hero to a villain in short order This book will appeal to scholars and students working on topics related to international relations gender security and war studies comparative politics state building and political communities

*Citoyennes* Annie K. Smart, 2011-12-23 Did women have a civic identity in eighteenth century France In *Citoyennes Women and the Ideal of Citizenship in Eighteenth Century France* Annie Smart contends that they did While previous scholarship has emphasized the ideal of domestic motherhood or the image of the republican mother Smart argues persuasively that many pre revolutionary and revolutionary texts created another ideal for women the ideal of civic motherhood Smart asserts that women were portrayed as possessing civic virtue and as promoting the values and ideals of the public sphere Contemporary critics have theorized that the eighteenth century ideal of the Republic intentionally excluded women from the public sphere According to this perspective a discourse of Rousseauian domestic motherhood stripped women of an active civic identity and limited their role to breastfeeding and childcare Eighteenth century France marked thus the division between a male public sphere of political action and a female private sphere of the home *Citoyennes* challenges this position and offers an alternative model of female identity This interdisciplinary study brings together a variety of genres to demonstrate convincingly that women were portrayed as civic individuals Using foundational texts such as Jean Jacques Rousseau's *Emile or on Education* 1762 revolutionary gouaches of Lesueur and vaudeville plays of Year II of the Republic 1793-1794 this study brilliantly shows that in text and image women were represented as devoted to both the public good and their families In addition *Citoyennes* offers an innovative interpretation of the home Through re-examining sphere theory this study challenges the tendency to equate the home with private concerns and shows that the home can function as a site for both private life and civic identity *Citoyennes* breaks new ground for it both rectifies the ideal of domestic Rousseauian motherhood and brings a fuller understanding to how female civic identity operated in important French texts and images Published by University of Delaware Press Distributed worldwide by Rutgers University Press

excluded from the works conventionally held to comprise Western political thought The essays raise fundamentally important questions about the significance of sexual difference in the great works of political theory and draw attention to neglected arguments and silences in the texts No single feminist view of either the texts or the theoretical way forward informs these essays A wide diversity of feminist approaches and theoretical frameworks are represented forming a rich variety of interpretations and argument about such questions as the patriarchal construction of central political categories the relation between public and private life and the problem of equality and difference including differences among women This refreshing and stimulating collection will be indispensable for students of political thought and offers all those interested in the connection between the classic writings and current political discussions as accessible introduction to feminist argument

Fugitive Rousseau Jimmy Casas Klausen, 2014-03-03 Critics have claimed that Jean Jacques Rousseau was a primitivist uncritically preoccupied with noble savages and that he remained oblivious to the African slave trade Fugitive Rousseau presents the emancipatory possibilities of Rousseau's thought and argues that a fresh fugitive perspective on political freedom is bound up with Rousseau's treatments of primitivism and slavery Rather than trace Rousseau's arguments primarily to the social contract tradition of Hobbes and Locke Fugitive Rousseau places Rousseau squarely in two imperial contexts European empire in his contemporary Atlantic world and Roman imperial philosophy Anyone who aims to understand the implications of Rousseau's famous sentence Man is born free and everywhere he is in chains or wants to know how Rousseauian arguments can support a radical democratic politics of diversity discontinuity and exodus will find Fugitive Rousseau indispensable

**Jane Austen and Animals** Barbara K. Seeber, 2016-05-06 The

first full length study of animals in Jane Austen Barbara K Seeber's book situates the author's work within the serious debates about human animal relations that began in the eighteenth century and continued into Austen's lifetime Seeber shows that Austen's writings consistently align the objectification of nature with that of women and that Austen associates the hunting shooting racing and consuming of animals with the domination of women Austen's complicated depictions of the use and abuse of nature also challenge postcolonial readings that interpret for example Fanny Price's rejoicing in nature as a celebration of England's imperial power In Austen hunting and the owning of animals are markers of station and a prerogative of power over others while her representation of the hierarchy of food where meat occupies top position is identified with a human nature dualism that objectifies not only nature but also the women who are expected to serve food to men In placing Austen's texts in the context of animal rights arguments that arose in the late eighteenth and early nineteenth centuries Seeber expands our understanding of Austen's participation in significant societal concerns and makes an important contribution to animal gender food and empire studies in the nineteenth century [Political Archive of Paul de Man](#) Martin McQuillan, 2012-08-06 Re-reads a major theorist in terms of the current crisis in sovereignty and global capital Taking de Man's recently published manuscript *Textual Allegories* as a point of departure 13 experts themselves significant voices in contemporary literary theory revisit de Man's account of Rousseau and what he calls a Theotropic Allegory the second to last step before Political Allegory on the road toward a general theory of Textual Allegory They frame de Man's readings of Rousseau in a post-theoretical landscape concerned with political theology occupied with the transformation of the western model of sovereignty and faced with the apparent collapse of the capitalist global contract The volume is framed by an introduction by leading de Man scholar Martin McQuillan and concludes with an original and previously unpublished text by Paul de Man *Philosophic Classics, Volume III* Forrest Baird, 2023-05-31 Esteemed for providing the best available translations *Philosophic Classics: Modern Philosophy* features complete works or complete sections of the most important works by the major thinkers as well as shorter samples from transitional thinkers First published in 1961 Forrest E Baird's revision of *Philosophic Classics* continues the tradition of providing generations of students with high quality course material Using the complete works or where appropriate complete sections of works this anthology allows philosophers to speak directly to students **Judgment and Action** Vivasvan Soni, Thomas Pfau, 2017-12-15 Written by theologians literary scholars political theorists classicists and philosophers the essays in *Judgment and Action* address the growing sense that certain key concepts in humanistic scholarship have become suspect if not downright unintelligible amid the current plethora of critical methods These essays aim to reassert the normative force of judgment and action two concepts at the very core of literary analysis systematic theology philosophy ethics aesthetics and other disciplines Interpretation is essential to every humanistic discipline and every interpretation is an act of judgment Yet the work of interpretation and judgment has been called into question by contemporary methods in the humanities which incline either toward contextual determination of

meaning or toward the suspension of judgment altogether Action is closely related to judgment and interpretation and like them it has been rendered questionable An action is not simply the performance of a deed but requires the deed's intelligibility which can be secured only through interpretation and judgment Organized into four broad themes interiority contemplation ethics politics community and aesthetics image the aim of this broad ranging and insightful collection is to illuminate the histories of judgment and action identify critical sites from which rethinking them may begin clarify how they came to be challenged and relocate them within a broader intellectual historical trajectory that renders them intelligible
