Feminist Reconstructions In Psychology Narrative Gender And Performance:

Feminist Reconstructions in Psychology Mary Gergen, 2000-10-03 Feminist Reconstructions in Psychology introduces a distinctive new mode in doing psychology. This psychology is based on an increasingly popular range of ideas called social constructionism. Within the book, new forms of theory and methods of inquiry relating social constructionism to feminist topics are introduced. Each chapter highlights different topics of special concern within gender studies, especially the psychology of women. The book draws from the central tenets of postmodern inquiry as played out in the positive framework of social constructionism. Emphasized are reflexivity, the social basis of reality, making the breakdown of traditional narrative forms, the loss of objectivity as a scientific standard, and the possibilities for new forms of doing research. In this respect, the book is unique and serves to provide a point of view on an intriguing movement that is gaining momentum across the social sciences and humanities.

Social Construction Kenneth J. Gergen, Mary Gergen, 2003-04-03 This reader introduces a number of important viewpoints central to social constructionism and charts the development of social constructionist thought.

Psychology at the Intersections of Gender, Feminism, History, and Culture Alexandra Rutherford, 2021-02-11 Psychologies of women and gender have developed both institutionally and intellectually within distinct social, cultural, historical, and political contexts. In many cases, feminism has played an important role in catalyzing disciplinary engagements with gender and culture as categories of analysis and sites of theorizing rather than solely as variables defining groups to be compared. The intersections of gender, feminism, history, and culture are explored with reference to psychology first in the United States and then across three other national contexts. This exploration reveals the similarities and tensions between and among the approaches to studying culture and the approaches to studying gender that psychologists have employed. It also reveals the historically and culturally contingent nature of psychologies of women and gender and, by extension, of gender itself.

Narrative State of the Art Michael Bamberg, 2007-03-14 Narrative State of the Art, which was originally published as a Special Issue of Narrative Inquiry 16(1) 2006, is edited by Michael Bamberg and contains 24 chapters with a brief introduction by the editor that look back and take stock of developments in narrative theorizing and empirical work with narratives. The attempt has been made to bring together researchers from different disciplines with very different concerns and have them express their conceptions of the current state of the art from their perspectives. Looking back and taking stock, this volume further attempts to begin to deliver answers to the questions: i) What was it that made the original turn to narrative so successful? ii) What has been accomplished over the last 40 years of narrative inquiry? iii) What are the future directions for narrative inquiry? The contributions to this volume are deliberately kept short so that the readers can browse through them and get a feel about the diversity of current narrative theorizing and emerging new trends in narrative research. It is the ultimate aim of this edited volume to stir up discussions and dialogue among narrative researchers across these disciplines and to widen and open up the territory of narrative inquiry to new and innovative work.

Social Construction in Context Kenneth J Gergen, 2001-05-23 This latest book by one the world s leading protagonists in the field will be welcomed not just by psychologists but by students academics and professionals interested in social constructionism across a wide range of subjects Social Construction in Context explores the potentials of social constructionist theory when placed in diverse intellectual and practical contexts It demonstrates the achievements of social constructionism and what it can now offer various fields of inquiry both academic professional and applied given the proliferation of the theory across the social sciences and humanities **Discursive Perspectives in Therapeutic Practice**

Andy Lock, Tom Strong, 2012-04-05 For an endeavour that is largely based on conversation it may seem obvious to suggest that psychotherapy is discursive After all therapists and clients primarily use talk or forms of discourse to accomplish therapeutic aims However talk or discourse has usually been seen as secondary to the actual business of therapy a necessary conduit for exchanging information between therapist and client but seldom more Psychotherapy primarily developed by mapping particular experiential domains in ways responsive to human intervention Only recently though has the role that discourse plays been recognized as a focus in itself for analysis and intervention Discursive Perspectives in Therapeutic Practice presents an overview of discursive perspectives in therapy along with an account of their conceptual underpinnings The book starts by setting out the case for a discursive and relational approach to therapy by juxtaposing it to the tradition that that leads to the diagnostic approach of the DSM V and medical psychiatry It then presents a thorough review of a range of innovative discursive methods each presented by an authority in their respective area The book shows how discursive therapies can help people construct a better sense of their world and move beyond the constraints caused by the cultural preconceptions opinions and values the client has about the world The book makes a unique contribution to the philosophy and psychiatry literature in examining both the philosophical bases of discursive therapy whilst also showing how discursive

perspectives can be applied in real therapeutic situations The book will be of great value and interest to psychotherapists and psychiatrists wishing to understand explore and apply these innovative techniques Qualitative Inquiry and Human Rights
