Is Feng Shui merely an ancient philosophy direct from the Orient, like so many claims, or is it a subtle and potentially dangerous form of the occult? The practitioners of Feng Shui consult on commercial and residential interior design, architecture, landscaping, building construction, real estate, home staging, personal concerns, and a huge assortment of holistic and alternative forms of healing. They also teach, lecture, author books, as well as sell Feng Shui merchandise. But are they qualified, affordable, and responsible? Feng Shui practitioners offer a huge smorgasbord of cures for healing everything from the common cold to cancer, and for maintaining optimal health and well-being. But how do the scientific and medical professions evaluate these health and healing methods? Similarly, the alternative healing therapies used by those embracing Feng Shui philosophies: are these beneficial, dangerous, or a hoax?
