Festgabe Fur Ernst Walter Zeeden

Geoffrey Dipple

Festgabe Fur Ernst Walter Zeeden:

Antifraternalism and Anticlericalism in the German Reformation Geoffrey Dipple, 2016-12-05 Many of the leading figures of the Reformation and many of their most able opponents came from among the ranks of the Franciscan Order This Order became the focus of attack in a pamphlet war waged against it in 1523 by converts to the Reformation These criticisms were based on arguments by Luther in his Judgement on Monastic Vows and the pamphlets provided an important channel for these views Luther's arguments were also reinforced by criticisms of the mendicant orders drawn from medieval polemical and satirical literature The campaign of 1523 brought together both Reformation and pre Reformation anticlerical themes In this book Geoffrey Dipple looks at the perception of the Franciscan order in the 15th and 16th centuries placing the attacks firmly in the context of late medieval inter clerical rivalries He looks particularly at the anticlerical polemics of one of the primary participants Johann Eberlin von G nzburg the most vocal of the Franciscan's critics *Communities and Conflict in Early Modern Colmar* Peter George Wallace, 1995 From 1575 to 1730 the citizens of the Alsatian Imperial city of Colmar were divided between Protestant and Catholic communities plagued by chronic warfare and ultimately subjugated by the kingdom of France Drawing on a rich collection of serial archival sources Wallace reconstructs the collective biography of 6 700 civic officials merchants artisans and agricultural workers in order to examine the local impact of confessionalization in a religiously mixed town the effect of warfare on the economic interdependence of town and country and the tensions between French absolutism and traditional civic political culture Economic historians scholars of the Reformation and students of French and German history will find many valuable insights in this multifaceted analysis **Magistrates, Madonnas and Miracles** Trevor Johnson, 2016-12-05 In 1621 in one of the earliest campaigns of the Thirty Years War the South German principality of the Upper Palatinate was invaded and annexed by Maximilian of Bavaria director of the Catholic League In the subsequent years the eyes of Europe looked to the fate of this erstwhile hub of the Calvinist international as Maximilian steadily moved to convert its population to Catholicism This study is the first account in English to focus on this important instance of forced conversion and the first account in any language to place the political impact of the Thirty Years War into the broader context of the Upper Palatinate's religious culture examined over the longue dur e from the later sixteenth to the mid eighteenth centuries The book analyses the rich unpublished sources of church and state from Bavarian and Roman archives as well as printed texts in varied genres to reconstruct the region's sacred system and to gauge the effectiveness of the campaign of conversion This allows the study to address questions of how the re catholicisation was achieved how a religious culture infused with the spirit of the Counter Reformation developed and how this change shaped the identity of its people More than this however the book also uses the Upper Palatinate case study to draw broader conclusions about the strengths and limitations of the Confessional model and suggests other ways of looking at religious change and identity formation in early modern Europe which embraces popular religious culture and voluntary

religion as well coercion As such the book offers much not only to scholars of early modern Germany but to all with an interest in the formation adoption and imposition of religious identity during this period **Germany and the Holy Roman Empire** Joachim Whaley,2012 In the first single author account of German history from the Reformation to the early nineteenth century since Hajo Holborn s study written in the 1950s Dr Whaley provides a full account of the history of the Holy Roman Empire Volume II extends from the Peace of Westphalia to the Dissolution of the Reich **The Fifteen Confederates** Geoffrey Dipple,2014-07-17 The Fifteen Confederates was published anonymously in the fall of 1521 shortly after Martin Luther s hearing at the Diet of Worms and subsequent disappearance The fifteen pamphlets that make up the book address religious social economic and political challenges facing the German people Their author Johann Eberlin von Gunzburg subsequently became one of the most prolific and popular pamphleteers of the German Reformation As an important contribution to the pamphlet war that accompanied the beginnings of the Reformation in Germany The Fifteen Confederates provides us a valuable window on the aspirations and dreams that accompanied Luther s initial calls for reform of the church and society **Religion and Culture in Germany (1400-1800)** Robert Scribner,2021-10-18 The late Bob Scribner was one of the most original and provocative historians of the German Reformation His truly pioneering spirit comes to light in this collection of his most recent essays In the years before his death Scribner explored the role of the senses in late medieval devotional culture and wondered how the Reformation changed sensual attitudes Further essays examine the nature of popular culture and the way the Reformation was institutionalised considering Anabaptist ideals of the community of goods literacy and heterodoxy and the dynamics of power as they unfold in a case of witchcraft The final section of the book consists of three iconoclastic essays which together form a sustained assault on the argument first advanced by Max Weber that the Reformation created a rational modern religion Scribner shows that far from being rationalist and anti magical Protestants had their own brand of magic These fine essays are certain to spark off debate not only among historians of the Reformation but also among art historians and anyone interested in the nature of culture

"Astrologi Hallucinati" Paola Zambelli,1986 No detailed description available for Astrologi hallucinati **Divine Diagrams** Berthold Kress,2014-05-12 After the Reformation the successful painter Paul Lautensack 1477 78 1558 dedicated himself to spreading revelations on the nature of God Lautensack was besides D rer the only German artist who wrote against the iconoclasts and he believed that he as a painter could explain the images of Revelation better than theologians like Luther He presented his insights in hundreds of highly sophisticated diagrams that display a wide range of material accessible to an urban craftsman from the vernacular Bible to calendar illustrations This study is the first monograph on this extraordinary man it presents a corpus of his surviving works analyzes his peculiar theology of the image and locates the elements of his diagrams in the visual world of the Reformation period **The Reformation of Prophecy** G. Sujin Pak,2018-05-31 Protestant reformers found the prophet and biblical prophecy to be exceptionally effective for framing their

reforming work under the authority of Scripture for the true prophet speaks the Word of God alone and calls the people their worship and their beliefs and practices back to the Word of God uses the prophet and biblical prophecy as a powerful lens through which to view many aspects of the reformers in the sixteenth and seventeenth centuries G Sujin Pak argues that these prophetic concepts served the substantial purposes of articulating a theology of the priesthood of all believers a biblical model of the pastoral office a biblical vision of the reform of worship and biblical processes for discerning right interpretation of Scripture Pak demonstrates the ways in which understandings of the prophet and biblical prophecy contributed to the formation of distinct confessional identities She goes on to demonstrate the waning of explicit prophetic terminology particularly among the next generation of Protestant leadership Eventually she shows the Protestant reformers concluded that the figure of the prophet carried with it as many problems as it did benefits though they continued to give much time and attention to the exegesis of biblical prophetic writings

The Oxford Handbook of Martin Luther's Theology

Robert Kolb,Irene Dingel,Lubomir Batka,2014 A comprehensive look at the background and context the content and the impact of Martin Luther s Theology written by an international team of theologians and historians *Beyond Indulgences* Anna Marie Johnson,2017-11-01 Between Luther s Ninety Five Theses in 1517 and his excommunication from the church in 1520 he issued twenty five sermons and treatises on Christian piety most of them in German These pastoral writings extended his criticisms of the church beyond indulgences to the practices of confession prayer clerical celibacy the sacraments suffering and death These were the issues that mattered most to Luther because they affected the faith of believers and the health of society Luther s conflict with Rome forced him to address the issue of papal authority but on his own time he focused on encouraging lay Christians to embrace a simpler self sacrificing faith In these pastoral writings he criticized theologians and church officials for leading people astray with a reliance on religious works and he began to lay the foundation for a reformed Christian piety *Padua and Venice* Brigit Blass-Simmen,Stefan Weppelmann,2017-11-20 Venice and Padua are neighboring cities with a topographical and geopolitical distinction Venice is a port city in the Venetian Lagoon which opened up towards Byzantium and the East Padua on the mainland was founded in Roman times and is a university city a place of Humanism and research into antiquity The contributions analyze works of art as aesthetic formulations of their places of origin which however also have an effect on and expand their surroundings International experts investigate how these two different concepts stimulated each other in the Early Modern Age and how the exchange worked **Society and Religion in Münster, 1535-1618** R. Po-chia Hsia,1984-01-01 *Correspondance* J. Pflug,1982-12-01 *Debating the Sacraments* Amy Nelson Burnett,2019 Debating the Sacraments argues that Reformation debates concerning baptism and the Lord s Supper cannot be treated in isolation It demonstrates the continuing influence of Erasmus on Luther s evangelical opponents and examines the role of printing in fanning the public controversy over the sacraments Provided by publisher **Time, Space, and Women's Lives in Early Modern Europe** Anne Jacobson

Schutte, Thomas Kuehn, Silvana Seidel Menchi, 2001-09-01 This collection offers a variety of approaches to aspects of women's lives. It moves beyond men's prescriptive pronouncements about female nature to women's lived experiences replacing the singular woman with plural women and illuminating female agency. The contributors show that women's lives changed over the life course and differed according to region and social class. They also demonstrate that in the early modern period the largely private spaces in women's lives were not enclosed worlds isolated from the public spaces in which men operated. Contributors to this important collection are leading international scholars and offer strong substantial and archival based research.

Ruling Class, Regime and Reformation at Strasbourg 1520-1555 Thomas Brady, 2022-02-28

Un temps, une ville, Réforme Marc Lienhard, 2024-10-28 Professor Lienhard deals here primarily with the first half of the 16th century a momentous period which saw the rise and first triumphs of evangelical Christianity. His focus is upon the town of Strasbourg one of the places where the Reformation first left its mark and the articles combine to present an illuminating picture of the town's social and religious evolution over the period. Some approach the subject at an individual level with studies of the protagonists in the events such as Martin Bucer Matthieu Zell or Thomas Murner and their differing religious viewpoints. Other articles take a broader perspective analysing the social and political background to the triumph of the Reform the gradual emergence of a new order and local attitudes towards the new dissidents the Anabaptists. An important section of additional notes and comments completes the volume. Le Professeur Lienhard s'attache ici avant tout la première moitié du XVI^e siècle période capitale qui vit la montée et les premiers triomphes du christianisme évangélique. Il se concentre sur Strasbourg un des lieux où la Réforme laissa tout son poids. L'ensemble des articles présente une image clarifiante de l'évolution sociale et religieuse de la ville durant cette période. Certains abordent le sujet au travers de l'étude de plusieurs des protagonistes ayant pris part aux événements tels que Martin Bucer Matthieu Zell ou Thomas Murner et examinent aussi leurs différents points de vue religieux. D'autres prennent une perspective plus large analysant le contexte politique et social à la base du triomphe de la Réforme et de la naissance d'un ordre nouveau ainsi que les prises de position locales envers les nouveaux dissidents les Anabaptistes. Dans ce recueil est accompagnée une importante section de notes additionnelles et de commentaires.

Baltic Commerce and Urban Society, 1500-1700 Maria Bogucka, 2024-10-28 The great merchant port of Danzig now Gdansk is at the centre of this set of studies by Professor Maria Bogucka. Through it passed the greatest part of the trade that linked the West with Poland and the Baltic from it the commercial culture of the West spread out into the towns of Poland and with it new currents in religion and urban life and from there it began to permeate the whole of Polish society. The studies in this volume examine both the social and economic sides of this process looking at articles of commerce and trends in urbanization as well as patterns of poor relief and gender relations. The author's aim is to analyse specific aspects of what happened in Poland while situating these in the broader context of the development of early modern European society.

Honor Your Fathers: Catechisms and the Emergence of a Patriarchal Ideology in Germany, 1400-1600

Robert J. Bast, 2021-10-11 This volume offers a fresh perspective on the patriarchal ideology of reform in early modern Germany by revealing its roots in a pan European catechetical program that had endured a cyclical process of growth and decline since the twelfth century with each new phase sparked by crises in Church and society Based on sermons reform ordinances devotional treatises and especially catechisms the book explores the programs developed by reformers and codified in works of religious indoctrination designed to fashion godly fathers real and metaphorical in home church and body politic The chief product of this program argues the author was an ethos of social discipline that permeated the institutions of each major confession with government gradually empowered to reach more deeply than ever before into the lives of its subjects
