El Cocodrilos Cookbook:

El Cocodrilo's Cookbook Marie Perucca-Ramírez, 1996 A bounty of food originated in the Americas potatoes chocolate tomatoes chile peppers vanilla and corn This book enlightens readers with a brief history of the agriculture and food of the Americas and then presents a collection of recipes which make use of ingredients native to Central and South America A percentage of royalties will go to the preservation and restoration of the rainforest and its animals 80 line drawings Food Culture in the Caribbean Lynn M. Houston, 2005-06-30 Food in the Caribbean reflects both the best and worst of the Caribbean's history On the positive side Caribbean culture has been compared with a popular stew there called callaloo The stew analogy comes from the many different ethnic groups peacefully maintaining their traditions and customs while blending together creating a distinct new flavor On the negative side many foods and cooking techniques derive from a history of violent European conquest the importation of slaves from Africa and the indentured servitude of immigrants in the plantation system Within this context students and other readers will understand the diverse island societies and ethnicities through their food cultures Some highlights include the discussion of the Caribbean concept of making do using whatever is on hand or can be found the unique fruits and starches the one pot meal the technique of jerking meat and the preference for cooking outdoors The Caribbean is known as the cradle of the Americas The Columbian food exchange which brought products from the Caribbean and the Americas to the rest of the world transformed global food culture Caribbean food culture has wider resonance to North Central and South America as well The parallels in the food related evolution in the Americas include the early indigenous foods and agriculture the import and export of foods the imported food culture of colonizers settlers and immigrants the intricacies of defining an independent national food culture the loss of the traditional agricultural system the trade issues sparked by globalization and the health crises prompted by the growing fast food industry This thorough overview of island food culture is an essential component in understanding the Caribbean past and present **The Great California Cookbook** Kathleen DeVanna Fish, 1998 Prepare to be tempted The Great California Cookbook features 45 great chefs restaurants and 225 kitchen tested recipes that exemplify the best cooking in California A well organized and user friendly tribute to many of the state's finest restaurant chefs San Francisco Chronicle *Bibliographic Guide to Latin American Studies* 1996 G.
