Federal Price Programs For The American Dairy Industry Issues And Alternatives Npa Report 214:

Federal Price Programs for the American Dairy Industry Jerome W. Hammond, Karen McConnell Brooks, 1985 US Programs Affecting Food and Agricultural Marketing Walter J. Armbruster, Ronald D. Knutson, 2012-11-06 With increasing globalization of markets a wider array of programs has come to affect the food and agricultural marketing system and many of today's programs are more consumer oriented than producer oriented This book brings together the thinking of the best researchers addressing the topics involved in these programs and provides readily understood analyses of the challenges and opportunities facing the food and agricultural industry and the programs which impact industry performance Many public sector programs and institutions affecting food and agricultural marketing were designed in the early and mid 1900s and while they have been updated new demands are constantly being placed on them The authors discuss the increased scope complexity and globalization of markets the changes in technology that brought these changes about and the need for policy and program adjustments They also discuss the development of supply chains domestically and globally from farm to consumption The book addresses the safety of the food supply from both domestic and international sources and the need to assure security of the food supply from external events while maintaining trade and open markets The breadth of programs treated makes this book valuable to students and scholars in agricultural economics and agribusiness management as well as to practitioners and policy makers in the field *NPA Report*, 1985 Asset Fixity, Non-reversibilities and Dynamic Structure of Production Ching-cheng Chang, 1993 *Dynamic Patterns of Change in Structure Under Different Support Policy Regimes* Erica Jean Pagel, 2005 *Looking Ahead*, 1982 **Trade Regulation, Antitrust, and Economics**, 1981

World Agricultural Economics and Rural Sociology Abstracts, 1986 *Bibliographie der Wirtschaftswissenschaften*, 1987 **Bibliographie der Staats- und Wirtschaftswissenschaften**, 1986 Dictionary Catalog of the Giannini Foundation of Agricultural Economics Library, University of California, Berkeley Giannini Foundation of Agricultural Economics. Library, 1971 Federal Price Programs for the American Dairy Industries Jerome Hammond, Karen Brooks, 1985 *Oxbridge Directory of Newsletters*, 1990 **Federal Dairy Programs** United States. General Accounting Office, 1995 **Federal Dairy Programs** DIANE Publishing Company, 1995-07 **Milk Price Support Program and Other Policies Affecting the U.S. Dairy Industry** National Commission on Dairy Policy (U.S.), 1988

Recent Dairy Policy Publications with Selected Annotations Suzanne L. Dash, 1984 *Dairy Industry* United States. Government Accountability Office, 2004 Review of Existing and Alternative Federal Dairy Programs, 1984 Extract Real milk prices 15-20 percent lower than in 1983 would approximately balance production and consumption under conditions projected for the dairy industry during the remainder of the eighties Government purchase storage and disposal could effectively stabilize prices near this level but these are wasteful means of raising prices and thereby enhancing producers incomes Other programs such as direct payments supply control and price discrimination can transfer income to

farmers at less cost to society in the short run but can lead to serious inefficiencies over time Changes in the marketing order program to bring prices charged to processors and paid to producers more in line with the value of the services associated with the milk would contribute to the efficiency of the industry

Economic Effects of U.s. Dairy Policy and Alternative Approaches to Milk Pricing United States Department of Agriculture, 2015-02-01

The U S Congress in the Farm Security and Rural Investment Act of 2002 the 2002 Act directed the Secretary of Agriculture to conduct a comprehensive economic evaluation of the effects of the various elements of the national dairy policy The Act further directed the Secretary to study the effects of a terminating Federal milk price support and supply management programs and b allowing State cooperation to manage milk prices and supply Both studies deal with similar questions that relate to the effects of government policies on economic outcomes For this reason the two studies are combined into this single report This report examines the effects of national dairy policy and its component programs as defined in the 2002 Act on milk and dairy product markets farm households nutrition programs and the rural economy These programs include Federal milk marketing orders the Federal milk price support program State pricing programs and State mandated order premiums interstate dairy compacts direct payments to milk producers and the dairy export incentive program DEIP The report focuses on the following questions what have been the measurable effects of dairy programs on economic variables price level and volatility milk production and producer revenues How have these market impacts in turn affected farms rural economies and nutrition programs How might States cooperate to support prices in the absence of a Federal price support program The standard tools of economic analysis are used to address these questions but there are also other forces at work that have influenced the dairy sector Changes in the dairy sector should be considered in a larger context with a longer run perspective Thus the first part of this report answers another related question what factors can we identify that have been responsible for changes in the dairy sector
