

# INTELLECTUAL DEVELOPMENT

Intellectual development refers to the complex process through which humans acquire the ability to manipulate, use, and communicate knowledge.

## DEFINITION

The earliest developmental theories were rooted in biology, believing that genetics dictated human intellect. They focused on 'nature' rather than nurture in explaining intellectual development. However, social psychologists in the 20th Century increasingly argued that environmental factors such as parenting, education, and culture also shape intellectual outcomes.

## KEY THEORIES

Different theories have their own ideas about how intellect develops. Key theories include:

- Cognitive Development Theory (Piaget)
- Psychoanalytic Theory (Freud)
- Psychosocial Theory (Erikson)
- Attachment Theory (Bowlby)
- Sociocultural Theory (Vygotsky)
