Federalism and Federation Preston T. King, 1982 This study of federalism and federation dissects certain problems which have arisen in the description and analysis of the federal form of government The author does this by applying logical analysis to the necessary elements in the notion of federal union federalism as the expression of a political ideology or ideologies and federation as an institution or pattern of institutions Federalism and Federation in Western Europe

Michael Burgess, 2025-09-12 Federalism and Federation in Western Europe 1986 analyses the nature of federalism and federation in Europe It argues that there is an important conceptual distinction between federalism and federation Federalism is taken to be a multi dimensional phenomenon arising out of a variety of human experiences it is a distinctive set of values and attitudes federation is the organisational expression of this wide diversity The range of federalism within Western Europe is examined and compared within this conceptual framework The national case studies are not only confined to the accepted federations Austria Switzerland and West Germany but also extend to a number of other states which have a variety of federal characteristics These studies are used to illustrate some of the key themes and issues and to serve to underline the inadequacies of contemporary federal theory This approach highlights the two differing Western federal traditions the Anglo American and the West European and points up the distinctive features of each Theories of

Federalism D. Karmis, W. Norman, 2016-04-30 This project pulls together classic and modern readings and essays that explore theories of federalism Spanning the Seventeenth through Twenty first centuries of European U S and Canadian thinkers this attempts to be a comprehensive reader for students in political theory The emphasis throughout is on the normative argument the advantages or disadvantages of federal and confederal arrangements compared to unitary states and on the relative merits of various proposals to improve particular federations or confederations These also draw on the full range of political science subfields from political sociology political economy and constitutional studies to comparative politics and international relations There are also readings both contemporary and historical that attempt to clarify

conceptual issues Comparative Federalism and Federation Michael Burgess, Alain Gagnon, 1993 **The Political Economy of Federalism in Nigeria** Dele Babalola, 2018-12-29 This book uses the political economy approach to examine the relative failure of federalism in Nigeria. It shows the nexus between the political and the economic aspects of the country's federalism. The central feature of Nigeria's political economy is the relationship between oil resources and the state. The author argues that the inability of the federal government to distribute the oil wealth fairly amongst the component units contributes to the dysfunctional character of the federal system. This deficiency is rooted in the country's unbalanced political economy which promotes over dependency on oil and consequently an over centralised federal system. The book concludes that despite its complexities federalism has become the basis for the country's stability. Therefore, ethno-regional demands for true federalism will continue until the political elite reform the ailing federal system.

Federalism Vis a Vis the Right to Freedom of Movement and Residence Yonas Girma Adimassu, 2015-08-03 Abstract The FDRE constitution has established ethnic federal arrangement in one hand and incorporates everyone's right to freedom of movement and residence everywhere within Ethiopian territory on the other. Besides this ethnic self-determination has established as a cornerstone of the federal system. But there is no any single study has conducted to look at the practical serene coexistence of Ethiopian federal system and the right to freedom of movement and residence. Thus the main issue addressed in this paper is whether the federal system has implemented properly in congruent with the right to freedom of movement and residence of individuals in Ethiopia. The thesis has also tried to explore whether the institutions put in place to safeguard the right to freedom of movement and residence has worked efficiently and effectively by way of giving the required remedy in case of violation. In doing so the writer has analyzed cases with integrating interview responses as well as explores other countries experiences. After conducting serious analysis the writer has eventually reached to the following findings: ethnic federal setup of Ethiopia has practically negative implication on the right to freedom of movement and residence; ethnic based political parties are also responsible for the violation due to their contribution to the increasing ethnic consciousness of the society. Governmental safeguard institutions are not properly safeguarding this right from the pitfall of Ethiopian ethnic federal system. Misuse of ethnicity for political game by the ruling EPRDF party has aggravated the impact of ethnic federal system on the violation of such freedom.
