Federalism And Labour Market Policy Comparing Different Governance And Employment Strategies:

Federalism and Labour Market Policy Alain Noël, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 2004 Though these countries vary significantly in both their federal institutions and labour market policies they all seek to define a relatively coherent approach for federal and sub unit governments in a policy field where collaboration and coordination appear unavoidable In some cases such as Germany collaboration is highly developed and policies are ambitious and integrated in others such as Switzerland diversity and decentralization are privileged and policies remain fragmented Finally there are countries such as the United States that do not grant much importance to labour market policies these five federations and so help us understand how political institutions and public policies are inter related Federalism and labour market policies certainly influence each other but there is no simple relationship between them Comparing different governance and employment strategies is nevertheless very instructive because it shows the range of approaches and policies that are possible in federal countries

Employment Policies and Multilevel Governance Roger Blanpain, Juan Pablo Landa, Brian Langille, Philippe Auvergnon, 2009-01-01 Compares multilevel manpower and social policy in five EU member states with one chapter also on the Canadian federal model

The New Governance of Welfare States in the United States and Europe Mariely López-Santana, 2015-02-17 Detailed examination of the territorial and governance dimensions of contemporary welfare reforms in the United States and Europe Until recently studies of changes in the welfare state have tended to focus on transformations in the nature of social policies and their level of generosity The New Governance of Welfare States in the United States and Europe concentrates on an often overlooked dimension territorial and governance transformations Employing detailed case studies and more than seventy five interviews Mariely L pez Santana captures how a variety of postindustrial countries across both sides of the Atlantic have transformed the postwar organization of their labor market policy settings through decentralization centralization and delegation reforms These changes have in turn changed the role of national and subnational levels of government as well as nongovernmental actors in the organization management and provision of labor market policies and services L pez Santana s multidisciplinary comparative and multilevel approach to welfare state change is an original and important step forward in our understanding of welfare reforms enacted since the mid 1990s

Federalism in Action Donna E. Wood, 2018-04-13 Every developed country has a public employment service that connects job seekers with employers through information placement and training support services In Federalism in Action Donna E Wood assesses how Canada s public employment service is performing after responsibility was transferred from the federal government to provinces territories and Aboriginal organizations between 1995 and 2015 Drawing upon over twenty years of data Wood reveals the governance choices provinces made the reasons behind these choices and the outcomes they achieved Provincial decisions regarding employment programming is an important public policy issue about which little is known and even less understood within the

context of Aboriginal communities Federalism in Action includes analytical comparisons of Canada's employment programming with the United States Australia and the European Union as well as information from insightful interviews with key informants from every province In firmly placing Canada within the extensive international literature on the governance of welfare to work policies this book makes an important new contribution to research How Ottawa Spends, 2013-2014 Christopher Stoney,G. Bruce Doern,2013-09-01 The 2013 14 edition of How Ottawa Spends critically examines national politics priorities and policies with a close lens on Stephen Harper's Conservative party during the middle of their first term as a majority Contributors from across Canada examine the federal government and its not uncommon mid term problems but also its considerable agenda of long term plans both set in the midst of national economic fragility and a global fiscal and debt crisis Individual chapters examine several related political policy and spending realms including the Budget Action Plan the ten year Canada Health Transfer Plan the Canada Pension Plan and Old Age Security reforms The contributors also consider austerity related public sector downsizing and strategic spending reviews national energy and related environmental strategies and the growing Harper practice of one off federalism **Decolonizing Employment** Shauna MacKinnon,2015-09-18 Indigenous North Americans continue to be overrepresented among those who are poor unemployed and with low levels of education This has long been an issue of concern for Indigenous people and their allies and is now drawing the attention of government business leaders and others who know that this fast growing population is a critical source of future labour Shauna MacKinnon's Decolonizing Employment Aboriginal Inclusion in Canada's Labour Market is a case study with lessons applicable to communities throughout North America Her examination of Aboriginal labour market participation outlines the deeply damaging intergenerational effects of colonial policies and describes how a neoliberal political economy serves to further exclude Indigenous North Americans MacKinnon's work demonstrates that a fundamental shift in policy is required Long term financial support for comprehensive holistic education and training programs that integrate cultural reclamation and small supportive learning environments is needed if we are to improve social and economic outcomes and support the spiritual and emotional healing that Aboriginal learners tell us is of primary importance

Reconsidering the Institutions of Canadian Federalism J. Peter Meekison,Hamish Telford,Harvey Lazar,2004 Beginning with an examination of the role of traditional institutions such as Parliament Cabinet the Supreme Court and political parties Canada State of the Federation 2002 affirms the long held belief that these bodies do not provide effective forums for interregional bargaining creating a void that has been filled at least in part by executive federalism Contributors conclude that the performance of traditional institutions taken as a whole has deteriorated over the last several decades placing more pressure on the processes of executive federalism Explaining Federalism Jan Erk,2007-09-12 This book deals with the theoretical and empirical questions of federalism in the context of five case studies Austria Belgium Canada Germany and Switzerland The central argument is that in the long run the political institutions of federalism adapt to achieve

congruence with the underlying social structure This change could be in the centralist direction reflecting ethno linguistic homogeneity or in decentralist terms corresponding to ethno linguistic heterogeneity In this context the volume fills a gap in the comparative federalism literature by analyzing the patterns of change and continuity in five federal systems of the industrial west this is done by an in depth empirical examination of the case studies through a single framework of analysis illustrates the shortcomings of new institutionalist approaches in explaining change highlighting the usefulness of society based approaches in studying change and continuity in comparative politics Explaining Federalism will be of interest to students and scholars of federalism comparative government comparative institutional analysis and comparative public policy

Overpromising and Underperforming? Peter Graefe, Julie Simmons, Linda A. White, 2013-01-08 Public reporting has been used experimentally in federal provincial relations since the mid 1990s as an accountability mechanism to promote policy effectiveness intergovernmental cooperation and democratic legitimacy Our understanding of how well it is working however remains limited to very specific policy sectors even though this information is essential to policy makers in Canada and beyond Overpromising and Underperforming offers a deeper analysis of the use of new accountability mechanisms paying particular attention to areas in which federal spending power is used This is the first volume to specifically analyse the accountability features of Canadian intergovernmental agreements and to do so systematically across policy sectors Drawing on the experiences of other federal systems and multilevel governance structures the contributors investigate how public reporting has been used in various policy fields and the impact it has had on policy making and intergovernmental relations

Making EI Work Keith Banting, Jon Medow, 2013-04-08 Since the inception and design of Canada's Employment Insurance EI program the Canadian economy and labour market have undergone dramatic changes It is clear that EI has not kept pace with those changes and experts and advocates agree that the program is no longer effective or equitable Making EI Work is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths weaknesses and future directions of EI The authors identify the strengths and weaknesses of the system and consider how it could be improved to better and more fairly support those in need They make suggestions for facilitating a more efficient Canadian labour market and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future The chapters that comprise Making EI Work informed the task force's final recommendations and form an engaging dialogue that makes the case for and defines the parameters of a reformed support system for Canada's unemployed Contributors include Ken Battle Caledon Institute of Social Policy Robin Boadway Queen's University Allison Bramwell University of Toronto Sujit Choudhry New York University School of Law Kathleen M Day University of Ottawa Ross Finnie University of Ottawa Jean Denis Garon Queen's University David Gray University of Ottawa Morley Gunderson University of Toronto Ian Irvine Concordia University Stephen Jones McMaster University Thomas R Klassen York University Michael Mendelson Caledon Institute of Social Policy Alain Noël Université de Montréal Michael Pal

Federal Dynamics Arthur Benz, Jörg Broschek, 2013-01-31 Federal systems are praised for creating political stability but they are also blamed for causing rigidity They are said to balance powers but apparently they are also threatened by instability due to drifts in power Federalism should support democratization but it can also constrain the power of the demos and strengthen the executive In short there is widespread agreement that federal systems are dynamic The forces mechanisms and consequences of federal dynamics however are not sufficiently understood so far This book brings together leading experts in the field of comparative federalism to highlight how the interplay of continuity and change systematically generates and reinforces varieties of federalism and varieties of federal dynamics Federal Dynamics Continuity Change and Varieties of Federalism investigates mechanisms and resulting patterns of federal development It offers new analytical concepts and discusses different theoretical propositions to systematically compare convergent and divergent trends in federal systems Acknowledging the theoretical pluralism that dominates the field the book is organized around four sections Models Varieties and Dimensions of Federalism Timing Sequencing and Historical Evolution Social Change and Political Structuring and Actors Institutions and Internal Dynamics The contributions to this volume are variously concerned with three guiding questions What changes within federal systems how and why The focus provided by these three guiding questions allows for a dialogue between strands of the literature that have not talked to each other in a sufficient manner In this way the book
