Ian F. Verstegen

Federico Barocci:

Federico Barocci Stuart Lingo, 2008 Federico Barocci was among the most admired painters in sixteenth century Italy but the distinctive nature of his compelling altarpieces and their historical importance have never been fully understood This important study relates Barocci's achievements to transformations in the theory and practice of painting during an era in which pictorial developments generated deep tensions for ecclesiastical art Barocci was celebrated as one of the only painters whose religious works combined the sensuous allure increasingly desired in modern art with profound devotion Through a close study of Barocci's work and of documents ranging from letters to art theory Stuart Lingo reconstructs how the painter accomplished his artistic and cultural miracle In so doing he offers new insights into critical artistic issues in the late Renaissance from the cultural significance of stylistic choices to the early development of analogies between painting and music as affective arts

Federico Barocci Judith W. Mann, 2017-09-22 Reviewers of a recent exhibition termed Federico Barocci ca 1533 1612 the greatest artist you've never heard of One of the first original iconographers of the Counter Reformation Barocci was a remarkably inventive religious painter and draftsman and the first Italian artist to incorporate extensive color into his drawings The purpose of this volume is to offer new insights into Barocci's work and to accord this artist the dates of whose career fall between the traditional Renaissance and Baroque periods the critical attention he deserves Employing a range of methodologies the essays include new ideas on Barocci's masterpiece the Entombment of Christ fresh thinking about his use of color in his drawings and innovative design methods insights into his approach to the nude revelations on a key early patron a consideration of the reasons behind some of his most original iconography an analysis of his unusual approach to the marketing of his pictures an exploration of some little known aspects of his early production such as his reliance on Italian majolica and contemporary sculpture in developing his compositions and an examination of a key Barocci document the post mortem inventory of his studio A translated transcription of the inventory is included as an appendix

Federico Barocci Gary R. Walters, 1978 **Federico Barocci and the Oratorians** Ian F. Verstegen, 2015-07-01 In 1586 Federico Barocci delivered his Visitation of the Virgin and St Elizabeth to the Chiesa Nuova in Rome For the next quarter century Barocci dominated the art scene in Rome there was no other artist from whom it was harder to get work and no other artist charged such high prices Having two important altarpieces in the Chiesa Nuova and two additional commissions discussed was an impressive feat for an artist living exclusively in Urbino Why did the Oratorians monopolize Barocci's talents in Rome and why does it seem that Barocci was their first choice when considering artists to decorate their church What was it about Barocci's art that appealed to Oratorian sensibilities and their vision of the artistic program for decoration of their church This book examines the relationship between Barocci and the Congregation of the Oratory arguing for a distinct physiognomy of Oratorian patronage and exposing the function the Oratorians expected of religious imagery in contrast to other groups of their time While explaining Oratorian patronage it

thus deals with a thorny question in social science how can a collective body have unified intentions and actions The result is a contribution both to the history of Italian painting and to art historical methodology **Federico Barocci** Nicholas Turner,2000 All too frequently overlooked Federico Barocci is one of the most important and original Italian artists of the late Renaissance **Federico Barocci (1535-1612)** Whitfield Fine Art,2008 **Federico Barocci** Judith Walker Mann,Babette Bohn,2012 Federico Barocci c 1533 35 1612 was one of the most innovative Italian artists of the second half of the 16th century His art combines the Renaissance focus on the human body with an unparalleled use of color and light He created dynamic compositions that challenged the limitations of traditional pictorial boundaries becoming a model for Baroque artists of the following century Nearly 1 500 drawings by Barocci survive providing invaluable insight into the artist's process and thinking Essays by leading scholars in the field discuss the role of Urbino Barocci's hometown in the artist's development his pioneering approach to religious subjects his technique as a draftsman the interdependence of painting and drawing in his work and his use of red underpaint Catalogue entries treat nineteen groups of paintings and drawings including many previously unpublished sheets This beautiful and groundbreaking book reveals the breadth and significance of Barocci's oeuvre *A Touch of the Divine* Federico Barocci,David Scrase,2006 This volume is devoted to the work of Federico Barocci in Britain It concentrates on his graphic art and sets him in his place in the tradition of drawing in Italy in the late 16th century Examples of the draughtmanship of his predecessors Raphael and Correggio amongst them and of those whom he influenced are included *Siting Federico Barocci and the Renaissance Aesthetic* Peter Gillgren,2017-07-05 Focusing on what he calls the performative gaze the author explores the artistic world of the Urbino painter Federico Barocci 1535 1612 in the context of Renaissance culture Through analysis of Barocci's works Gillgren also sheds new light on Renaissance aesthetic communication generally The first part of the book discusses the poetics of Early Modern painting based on contemporary theories of Reception Aesthetics hermeneutics and phenomenology but grounded in Renaissance culture itself through numerous examples from Early Modern painting The author discusses works by such artists as Botticelli Raphael Titian Velazquez and Poussin from the point of view of their spectator status The second part deals specifically with the art of Federico Barocci showing in detail how his works relate to aspects of the gaze and to their intended spectators Gillgren's method is unusual in that he takes care to set the images within their original physical contexts lighting space framing materials angle of viewer approach as much as possible through careful analysis of early descriptions of now destroyed or modified chapels The third section of the volume contains a brief catalogue of Barocci's paintings presented in a chronological order with a full bibliography and with details about the painting's original locations The Graphic Art of Federico Barocci Federico Barocci,Cleveland museum of art,1978 **Master Drawings from the Smith College Museum of Art** Smith College. Federico Barocci Jeffrey M. Fontana, Federico Barocci, 1998 **Federico Barocci** Harald Olsen, 1955 The Court Artist in Seventeenth-Century Italy Elena Fumagalli, Raffaella Morselli, 2015-05-08T00:00:00+02:00 Up to now the theme of the artist in the service of Italian courts has been examined in various studies focused mostly on the High Renaissance as though the phenomenon was relevant only to the XV and XVI centuries It actually lasted much longer spanning the whole longue dur e of the lives of the courts of the ancient regime The present volume intends to fill this gap presenting for the first time a comprehensive examination of the subject of the court artist from sixteenth to seventeenth century and the transformations of this role Court artist is here defined as one who received a regular salary and was therefore attached to the court by a more or less exclusive service relationship The book is divided in six chapters each of them examines the position of the court artist in the service of the most important ruling families in Italy the Savoy in Turin the Gonzaga in Mantua the Este in Modena the Della Rovere in Pesaro and Urbino the Medici in Florence and in papal Rome a particular and unique center of power *A Touch of the Divine* David Scrase, 2006 **Our Dogs, Our Selves** , 2016-09-12 The ubiquity of references to dogs in medieval and early modern texts and images must at some level reflect their actual presence in those worlds yet scholarly consideration of this material is rare and scattered across diverse sources This volume addresses that gap bringing together fifteen essays that examine the appearance meaning and significance of dogs in painting sculpture manuscripts literature and legal records of the period reaching beyond Europe to include cultural material from medieval Japan and Islam While primarily art historical in focus the authors approach the subject from a range of disciplines and with varying methodology that ultimately reveals as much about dogs as about the societies in which they lived Contributors are Kathleen Ashley Jane Carroll Emily Cockayne John Block Friedman Karen M Gerhart Laura D Gelfand Craig A Gibson Walter S Gibson Nathan Hofer Jane C Long Judith W Mann Sophie Oosterwijk Elizabeth Carson Pastan Donna L Sadler Alexa Sand and Janet Snyder Federico Barocci , Sixteenth-century Italian Drawings in New York Collections William Griswold, Linda Wolk-Simon, Metropolitan Museum of Art (New York, N.Y.), 1994 Focusing exclusively on examples from the 16th century the great age of Italian drawing this stunning volume published to accompany an early 1994 exhibition at The Metropolitan Museum of Art includes 124 prized works from The Metropolitan the Pierpont Morgan Library the Cooper Hewitt Museum and some 20 private collections in New York The catalogue is organized by school and within each section chronologically by artist Each drawing is illustrated and presented with a discussion that places it in the context of the artist s career and explores the purpose for which it was made Paper edition unseen 35 Annotation copyright by Book News Inc Portland OR *Patronage and Dynasty* Ian F. Verstegen, 2007-03-01 This collection of essays offers a thorough study of the patron artist relationship through the lens of one of early modern Italy s most powerful and influential historical families Contributors present a longitudinal study of the della Rovere family s ascent into Italian nobility The della Rovere was a

family of popes cardinals and powerful dukes who financed some of the world's best known and greatest artwork. The essays explore the issue of identity and its maintenance of carving a permanent spot for a family name in a rapidly changing atmosphere. Although these studies depart from art patronage, they uncover how the popes, cardinals, dukes, and signore of the della Rovere family constituted their identity. Originally a nouveau riche creation of papal nepotism, the della Rovere first populated the ranks of cardinals under the powerful popes Sixtus IV and Julius II. Within the framework of later papal relations, the family negotiated its position within the economy of Italian nobles. Beauty, Devotion and Spirituality, 2024-06-17. There is scant research on the art produced under the Congregation of the Oratory of Saint Philip Neri, with the exception of a couple of general books focused primarily on major Oratorian art pieces. Therefore, this book of essays aims to discuss the art and culture produced by or associated with the Oratorians by providing a broad overview focused especially on rarely investigated issues. The authors focus on this very important artistic production, commonly forgotten when compared with other religious productions of art, by covering geographical areas spanning from Sri Lanka to Mexico, including Italy, Spain, the United Kingdom, India, and Brazil.
