A. Henry,2015-08-05 Excerpt from Feeds and Feeding Abridged The Essentials of the Feeding Care and Management of Farm Animals Including Poultry Adapted and Condensed From Feeds and Feeding Eighteenth Edition Feeds and Feeding first published in March 1898 was received with widespread favor by practical stockmen and by the teachers and students of animal husbandry in this country Since this date seventeen editions have come from the press and the book has been twice entirely rewritten to include new and important data Many stockmen rely upon Feeds and Feeding as the guide in their feeding operations and it is the standard text on stock feeding in practically all the agricultural colleges in this country As Feeds and Feeding covers the feeding and care of each class of live stock in a comprehensive manner it is of necessity a large book containing much detailed information With the rapid development of special agricultural courses in secondary schools and of short courses in the agricultural colleges a demand arose for a simplified and condensed edition of the work In response to this demand Feeds and Feeding Abridged was prepared in 1917 by the undersigned with the editorial aid of Professor W A Henry The book was based chiefly upon Feeds and Feeding but the subject matter was so condensed and simplified as to adapt it for use in brief courses in stock feeding Omitting topics of purely scientific interest the most essential facts concerning animal nutrition and the practical feeding

care and management of farm animals were presented in the simplest possible terms The immediate and widespread demand for the book has been a pleasant surprise five printings having already been required This edition has been carefully revised to meet the changed conditions since the World War and to include important new information on the feeding of live stock In most brief books on stock feeding the care and management of stock receive scant attention but in *Feeds and Feeding Abridged* these subjects which are of the utmost practical importance are fully treated To aid the teacher and the student each chapter closes with questions covering the subject matter and 116 engravings illustrate some of the most important points Since the subject of poultry feeding is commonly included in live stock feeding in secondary schools chapters have been added on the feeding and care of poultry Altho thus covering a larger field *Feeds and Feedings Abridged* contains but half as much text matter as *Feeds and Feeding* About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Popery in the Colonies.
