Feejee Mermaid And Other Essays In Natural And Unnatural History:

The Feejee Mermaid and Other Essays in Natural and Unnatural History Jan Bondeson, 2014-07-02 In his new collection of essays Jan Bondeson tells ten fascinating stories of myths and hoaxes beliefs and Ripley like facts concerning the animal kingdom Throughout he recounts and in some instances solves mysteries of the natural world which have puzzled scientists for centuries Heavily illustrated with photographs and drawings the book presents astounding tales from across the rich folklore of animals a learned pig more admired than Sir Isaac Newton by the English public an elephant that Lord Byron wanted to employ as his butler a dancing horse whose skills in mathematics were praised by William Shakespeare and of course the extraordinary creature known as the Feejee Mermaid This object became the foremost curiosity of London in the 1820s and later in the century toured the United States under the management of P T Barnum Bearing a striking resemblance to a wizened and misshapen monkey with a fishtail the mermaid was nonetheless proclaimed a genuine specimen by experts Bondeson explores other zoological wonders toads living for centuries encased in solid stone little fishes raining down from the sky and barnacle geese growing from trees until ready to fly In two of his most fascinating chapters he uncovers the origins of the basilisk considered one of the most inexplicable mythical monsters and of the Vegetable Lamb of Tartary With the head and body of a rooster and the tail of a snake the basilisk was said to be able to kill a person with its gaze Bondeson demonstrates that belief in this fabulous creature resulted from misinterpretations of rare events in natural history The vegetable lamb a mainstay of museums in the seventeenth century was allegedly half plant half animal it had the shape of a little lamb but grew from a stem After examining two vegetable lambs still in London today Bondeson offers a new theory to explain this old fallacy

A Democracy of Facts Andrew J. Lewis, 2011-04-05 Chronicles the story of American naturalists who came of age and stumbled toward a profession in the years after the American Revolution from publisher description *Big Pig, Little Pig* Jacqueline Yallop, 2017-07-06 As heard on BBC Radio 4 s Book of the Week A delightful and entertaining memoir Woman and Home When Jacqueline moves to south west France with her husband she embraces rural village life and buys two pigs to rear for slaughter But as she gets to know the animals better her English sentimentality threatens to get in the way and she begins to wonder if she can actually bring herself to kill them This is a memoir about that fateful decision but it s also about the ethics of meat eating in the modern age and whether we should know respect and even love the animals we eat At its heart this book is a love story exploring the increasing attachment of the author for her particular pigs and celebrating the enduring closeness of humans and pigs over the centuries

For the Love of Animals Kathryn Shevelow, 2025-08-22 The engaging story of how an unlikely group of extraordinary people laid the foundation for the legal protection of animals In eighteenth century England where cockfighting and bullbaiting drew large crowds and the abuse of animals was routine the idea of animal protection was dismissed as laughably radical But as pets became more common human attitudes toward animals evolved steadily An unconventional duchess defended their intellect in her writings

A gentleman scientist believed that animals should be treated with compassion And with the concentrated efforts of an eccentric Scots barrister and a flamboyant Irishman the lives of beasts and correspondingly men and women began to change Kathryn Shevelow a respected eighteenth century scholar gives us the dramatic story of the bold reformers who braved attacks because they sympathized with the plight of creatures everywhere More than just a history this is an eye opening exploration into how our feelings toward animals reveal our ideas about ourselves God mercy and nature Accessible and lively For the Love of Animals is a captivating cultural narrative that takes us into the lives of animals and into the minds of humans during some of history s most fascinating times

Truth Sean Cubitt,2023-09-19 Ecologies of truth in a post truth era The problem with Neo Nazis is not that they don t trust the media but that they trust them too much White supremacists are absolutely convinced by their supremacy They distrust technologies and climate change as much as the global poor because as white Europeans they believe they are exempt from exploitation This book argues that the only truths possible in the 21st century are mobile inventive practices involving everything European models of communication exclude technologies nature and leftover humanity Tracing histories of their separation Truth analyzes the struggle between the new dominance of information systems and the sensory worlds it excludes not least the ancestral wisdom that the West has imprisoned in its technologies The emergent cybernetics of the 1940s has become the dominant ideology of the 21st century Truth opposes its division of the world between subjects and objects signals and noise emphasizing that there can be no return to some primal Eden of unfettered exchange Instead these divisions which have fundamentally reorganized the commodity form that they inherited are the historical conditions we must confront Drawing on a wide range of aesthetic practices from literature film art music workplace media scientific instruments and animal displays Truth seeks out ways to create a new commons and a new politics grounded in aesthetic properties of creativity senses and perception that can no longer be restricted to humans alone

A Colossal Hoax Scott Tribble,2008-12-16 In October 1869 as America stood on the brink of becoming a thoroughly modern nation workers unearthed what appeared to be a petrified ten foot giant on a remote farm in upstate New York The discovery caused a sensation Over the next several months newspapers devoted daily headlines to the story and tens of thousands of Americans including Oliver Wendell Holmes Ralph Waldo Emerson and the great showman P T Barnum flocked to see the giant on exhibition In the colossus many saw evidence that their continent and the tiny hamlet of Cardiff had ties to Biblical history American science also weighed in on the discovery and in doing so revealed its own growing pains including the shortcomings of traditional education the weaknesses of archaeological methodology as well as the vexing presence of amateurs and charlatans within its ranks A national debate ensued over the giant s origins and was played out in the daily press Ultimately the discovery proved to be an elaborate hoax Still the story of the Cardiff Giant reveals many things about America in the post Civil War years After four years of destruction on an unimagined scale Americans had increasingly turned their attention to the renewal of progress But the story of the Cardiff

Giant seemed to shed light on a complicated mysterious past and for a time scientists clergymen newspaper editors and ordinary Americans struggled to make sense of it Hucksters of course did their best to take advantage of it The Cardiff Giant was one of the leading questions of the day and how citizens answered it said much about Americans in 1869 as well as about America more generally

Making a Splash Philip Hayward, 2017-01-30 The representation of aquatic people in contemporary film and television from their on screen sexuality to the mockumentaries they've inspired Mermaids have been a feature of western cinema since its inception and the number of films television series and videos representing them has expanded exponentially since the 1980s Making a Splash analyses texts produced within a variety of audiovisual genres Following an overview of mermaids in western culture that draws on a range of disciplines including media studies psychoanalysis and post structuralism individual chapters provide case studies of particular engagements with the folkloric figure From Hans Christian Andersen's The Little Mermaid to the creation of Ursula Ariel's tentacled antagonist in Disney's 1989 film to aspects of mermaid vocality physicality agency and sexuality in films and even representations of mermen this work provides a definitive overview of the significance of these ancient mythical figures in 110 years of western audio visual media

The South Seas Sean Brawley, Chris Dixon, 2015-04-21 The South Seas charts the idea of the South Seas in popular cultural productions of the English speaking world from the beginnings of the Western enterprise in the Pacific until the eve of the Pacific War Building on the notion that the influences on the creation of a text and the ways in which its audience receives the text are essential for understanding the historical significance of particular productions Sean Brawley and Chris Dixon explore the ways in which authors and producers ideas about the South Seas were haunted by others who had written on the subject and how they in turn influenced future generations of knowledge producers The South Seas is unique in its examination of an array of cultural texts Along with the foundational literary texts that established and perpetuated the South Seas tradition in written form the authors explore diverse cultural forms such as art music theater film fairs platform speakers surfing culture and tourism

Strange Medicine Nathan Belofsky, 2013-07-02 Discover the astonishing and peculiar history of medicine with this perfect gift for history buffs doctors and anyone looking to be amazed by the brilliant and bizarre ideas that shaped the world of medicine as we know it From the use of electric eels in ancient Egypt to medieval dentists burning candles to combat invisible worms this book uncovers the weirdest medical practices throughout history highlighting the most dubious ideas strangest treatments and biggest blunders Entertaining shocking and sometimes stomach turning Strange Medicine presents strange but true facts and an honor roll of doctors scientists and dreamers who inadvertently turned the clock of medicine backward Did you know Renaissance physicians timed surgical procedures according to the position of the stars Blood from beheadings was believed to cure epilepsy Dr Walter Freeman the world's foremost practitioner of lobotomies practiced his craft while traveling on family camping trips hammering ice picks into the eye sockets of his patients in between hikes in the woods Strange Medicine is an illuminating panorama of medical history as

you've never seen it before Performing Animality Jennifer Parker-Starbuck, 2015-04-08 Performing Animality provides theoretical and creative interventions into the presence of the animal and ideas of animality in performance. Animals have always played a part in human performance practices. Maintaining a crucial role in many communities' cultural traditions, animal-human encounters have been key in the development of performance. Similarly, performance including both living animals and/or representations of animals provides the context for encounters in which issues of power, human subjectivity, and otherness are explored. Crucially, however, the inclusion of animals in performance also offers an opportunity to investigate ethical and moral assumptions about human and non-human animals. This book offers a historical and theoretical exploration of animal presence in performance by looking at the concept of animality and how it has developed in theatre and performance practices from the eighteenth century to today. Furthermore, it points to shifts in political, cultural, and ethical animal-human relations emerging within the context of animality and performance. One Kingdom Deborah Noyes, 2006 Photographer and former zookeeper Noyes delivers an artfully designed photo essay that examines the ways humans' lives have overlapped with animals throughout history and embarks on a quest for understanding the other kingdom. Photos.

Sacred Monsters Nosson Slifkin, 2007 Dragons, unicorns, mermaids—all the famous creatures of myth and legend are to be found in the Torah, Talmud, and Midrash. But what are we to make of them? Do they really exist? Did the Torah scholars of old believe in their existence? And if not, why did they describe these creatures? *Sacred Monsters* is a thoroughly revised and vastly expanded edition of the bestselling book *Mysterious Creatures*. Rabbi Natan Slifkin, the famous Zoo Rabbi, revisits all the creatures of that work as well as a host of new ones, including werewolves, giants, dwarfs, two-headed mutants, and the enigmatic shamir worm. *Sacred Monsters* explores these cases in detail and discusses a range of different approaches for understanding them. Aside from the fascinating insights into these cryptic creatures, *Sacred Monsters* also presents a framework within which to approach any conflict between classical Jewish texts and the modern scientific worldview. Complete with extraordinary photographs and fascinating ancient illustrations, *Sacred Monsters* is a scholarly yet stimulating work that will be a treasured addition to your bookshelf. **Merpeople** Vaughn Scribner, 2024-11-12 A wide-ranging, beautifully illustrated history of mermaids and mermen from the classics to cosplay. People have been fascinated by merpeople and merfolk since ancient times. From the sirens of Homer's *Odyssey* to Hans Christian Andersen's *The Little Mermaid* and the film *Splash*, myths, stories, and legends of half-human, half-fish creatures abound. In modern times, mermaiding has gained popularity among cosplayers throughout the world. In *Merpeople: A Human History*, Vaughn Scribner traces the long history of mermaids and mermen, taking in a wide variety of sources and using 117 striking images. From film to philosophy, church halls to coffee houses, ancient myth to modern science, Scribner shows that mermaids and tritons are and always have been everywhere. **Why Did the Chicken Cross the World?** Andrew Lawler, 2016-04-26 Beginning in the jungles of Southeast Asia, trekking through the Middle East, traversing the Pacific, Lawler discovers the secrets behind the

chicken's transformation from a shy wild bird into an animal of astonishing versatility capable of serving our species changing needs Across the ages it has been an all purpose medicine sex symbol gambling aid inspiration for bravery and of course the star of the world's most famous joke Only recently has it become humanity's most important single source of protein Most surprisingly the chicken more than the horse cow or dog has been a remarkable constant in the spread of civilization across the globe Page 4 of cover

The Zoo Isobel Charman, 2017-04-04 The founding of a zoo in Georgian London is a story of jaw dropping audacity in the Age of Empire It is the story of diplomats traders scientists and aristocratic amateur naturalists charged by Sir Stamford Raffles with collecting amazing creatures from all four corners of the globe It is the story of the first zoo in history a weird and wonderful oasis in the heart of the filthy swirling city of Dickensian London and of the incredible characters both human and animal that populated it from Charles Darwin and Queen Victoria to Obaysch the celebrity hippo the first that anyone in Britain had ever seen This is a story of Victorian grandeur of science and empire and of adventurers and charlatans And it is the story of a dizzying age of Empire and industrialization a time of change unmatched before or since This is the extraordinary story of London Zoo

Did They Rest in Peace? Joseph William Lewis Jr. M.D., 2018-10-18 Ashes to ashes dust to dust By what miracle can an assortment of seemingly unrelated particles come together and correctly assemble to form a human being Amazingly once aggregated these atoms molecules and compounds manage to interact reasonably coherently during our lives but seek to return to their dusty state when death occurs Of the billions of our species who have existed on earth over the millennia most have quietly and inexorably returned to ashes and dust when their term of life expired This book tracks some of the misadventures of selected corpses including burials that went awry to body snatching exhumations human relic collection and assorted desecrations Over the years it seems that a remarkable number of bodies have failed to enjoy the admonition to Rest in Peace Whether these aberrations in the burial process have disturbed the afterlife of the departed everyone is dying to discover the answer

The Dragon in the West Daniel Ogden, 2021 The Dragon in the West is the first book to offer an in depth examination of the history of the image and idea of the dragon A creature popular in contemporary fiction and cinema Ogden reveals how the dragon was known to the ancient Greek and Roman worlds and came down to us through early Christianity Anglo Saxon and Norse legends

Not Even Wrong Paul Collins, 2008-12-11 Collins elucidates with great compassion what it means to be normal and what it means to be human Los Angeles Times When Paul Collins's son Morgan was two years old he could read spell and perform multiplication tables in his head but not answer to his own name A casual conversation or any social interaction that the rest of us take for granted will for Morgan always be a cryptogram that must be painstakingly decoded He lives in a world of his own an autistic world In Not Even Wrong Paul Collins melds a memoir of his son's autism with a journey into this realm of permanent outsiders Examining forgotten geniuses and obscure medical archives Collins's travels take him from an English churchyard to the Seattle labs of Microsoft and from a Wisconsin prison cell block to the streets of Vienna It is a

story that reaches from a lonely clearing in the Black Forest into the London palace of King George I from Defoe and Swift to the discovery of evolution from the modern dawn of the computer revolution to in the end the author's own household Not Even Wrong is a haunting journey into the borderlands of neurology a meditation on what normal is and how human genius comes to us in strange and wondrous forms **Maria Martin's World** Debra Lindsay, 2018-02-27 Family Faith the Lutheran way Painting from nature Maria Martin and John James Audubon Living together working together collaboration and kinship Family and science beyond botanicals Family and science quadrupeds Faith Our trust in God *Blood on the Snow* Jan Bondeson, 2014-01-31 The Swedish Prime Minister Olof Palme a major figure in world politics and an ardent opponent of apartheid was shot dead on the streets of Stockholm in February 1986 At the time of his death Palme was deeply involved in Middle East diplomacy and was working under UN auspices to end the Iran Iraq war Across Scandinavia Palme's killing had an impact similar to that of the Kennedy assassinations in the United States and it ignited nearly as many conspiracy theories Interest in the Palme slaying was most recently stirred by reports of the death of Christer Pettersson who was tried for the murder twice convicted the first time and then acquitted on appeal In his investigative account of Palme's still unsolved murder the historian Jan Bondeson meticulously recreates the assassination and its aftermath Like the best works of crime fiction this book puts the victim and his death into social context Bondeson's work however is noteworthy for its dispassionate treatment of police incompetence the police did not answer a witness's phone call reporting the murder just 45 seconds after it occurred and further time was lost as the police sought to confirm that someone had actually been shot When the police arrived on the scene they did not even recognize the victim as the Prime Minister This early confusion was emblematic of the errors that were to follow Bondeson demolishes the various conspiracy theories that have been devised to make sense of the killing before suggesting a convincing explanation of his own A brilliant piece of investigative journalism Blood on the Snow includes crime scene photographs and reconstructions that have never before been published and offers a gripping narrative of a crime that shocked a continent

Reviewing **Feejee Mermaid And Other Essays In Natural And Unnatural History**: Unlocking the Spellbinding Force of Linguistics
