## **Feminism And Discourse Psychological Perspectives:**

Feminism and Discourse Sue Wilkinson, Celia Kitzinger, 1996-01-17 This book provides a showcase for a wide range of discourse analytical work in psychology from a feminist perspective. It constitutes a thorough critical evaluation of this approach for the feminist project of intellectual social and political change. Leading researchers explore the benefits and contradictions of discourse analysis and consider its value for feminist psychology. The first part of the book illustrates the application of discourse analysis to four key topics of feminist concern: adolescent knowledge about menstruation, sexual harassment, gendered representations of childhood and anorexia nervosa. The second part contains five assessments of the usefulness of discourse analysis both as theory and as method.

### **Talking**

**Gender and Sexuality** Paul McIlvenny, 2002-01-01 This edited volume brings together scholars from psychology, linguistics, sociology and communication science to investigate how performative notions of gender and sexuality can be fruitfully explored with the rich set of tools that have been developed by conversation analysis and discursive psychology for analyzing everyday practical language use, agency and identity in talk. Contributors re-examine the foundations of earlier research on gender in spoken interaction, critically appraise this research to see if and how it translates successfully into the study of sexuality in talk and promote innovative alternatives that integrate the insights of recent feminist and queer theory with qualitative studies of talk and conversation. Detailed empirical analyses of naturally occurring talk are used to uncover how gender and sexual identities, agencies and desires are contingently accomplished in conversational practices. Collectively they pose the important question of what a critical theory of talk, gender and sexuality ought to look like if it is to be sensitive to a politics of conversation analysis.

Snakes and Ladders: Reviewing Feminisms at Century's End, 2001-12 This book reviews the current state of feminist thinking in the run up to the millennium, its priorities and concerns, drawing critical attention to the losses as well as the gains of contemporary feminist work.

**Sex, Feminism and Lesbian Desire in Women's Magazines** Kate Farhall, 2020-09-14 This book examines evolving pop culture representations of sex and relationships from the 1970s onwards to demonstrate parallels between the strength of the feminist movement and positive portrayals of women's sexuality In charting changes in the sex and relationship content of women's magazines over time this analysis reveals that despite surface level changes in sexual and relationship content the underlying paradigm of hetero monogamy remains unchanged

Despite a seemingly more diverse empowered and liberated sexuality for women in contemporary magazines in reality such feminist rhetoric masks an enduring model of sexuality which rests on women's sexual and emotional maintenance of male partners and their own self objectification and self surveillance. Where substantive changes can be identified they rise and fall in tandem with feminism. By demonstrating this empirical relationship between cultural products and feminism, organising the book validates an assumption that has rarely been tested: that a feminist social milieu improves cultural narratives about sexuality for women. *Sex, Feminism and Lesbian Desire* builds on ground-breaking feminist texts such as Susan Faludi's *Backlash* to present an empirically focused comprehensive study interrogating changes in content over the lifetime of women's magazines. By charting the representation of sex and relationships in two women's magazines, *Cosmopolitan* and *Cleo*, since the 1970s through an analysis of over 6,500 magazine pages and 1,500 articles, this timely work interrogates and ultimately complicates the apparent linear progression of feminism. This book is suitable for researchers and students in women's and gender studies, queer studies, LGBT studies, media studies, cultural studies and sociology.

*Policy Discourses, Gender, and Education* Elizabeth J. Allan, 2012-10-12. Despite over thirty years of activism and legislation to eliminate discrimination, parity has yet to be achieved for women in academe. This book describes policy discourse analysis as a framework for considering how those involved in policy-making efforts may make use of discourses that inadvertently undermine the intended effect of the policies they set forth. Allan illustrates the methods of policy discourse analysis by describing their use in a study of twenty-one women's commission reports. In so doing, she highlights the important work of university women's commissions while uncovering policy silences and making visible the powerful discourses framing gender equity policy initiatives in higher education. Her findings reveal how dominant discourses of femininity, access, professionalism, race, and sexuality contribute to constructing women's status in complex and at times contradictory ways. This important volume will interest researchers across a number of disciplines including policy studies, educational leadership, higher education, and cultural studies of education.
